The Board of Commissioners of the
City of Newark, N. J.

H. S. REICHENSTEIN
City Clerk.

Newark, N. J., January 5, 1934.

A special meeting of the Board of Commissioners was held on the above date in the Mayor's Office, Newark, N. J., at 11 o'clock A. M.

Present: Commissioners Minisi, Parnell, Mayor Ellenstein.

Absent: Commissioners Duffy, Franklin.

The City Clerk read the following communication as a call for the meeting:

THE CITY OF NEWARK, N. J.
Office of the Mayor

January 4th, 1934.

Mr. Harry S. Reichenstein,
City Clerk, City Hall,
Newark, New Jersey.

Dear Sir:

A special meeting will be held in the Mayor's Office on Friday morning, January 5, 1934, at 11 o'clock A. M., for the purpose of appointing Constables for the City of Newark, to consider an application in behalf of the Lambert Hoisting Engine Company for the elimination of penalties on unpaid taxes on property at 1239-1247 Broad Street, and the creation in the Department of Revenue and Finance of the position of operator for Moon-Hopkins machines and appointments to said position.

Very truly yours,
Meyer C. Ellenstein,
Mayor.

Ordered filed.

Mr. Richard M Glassner submitted

the following proposition in behalf of the Lambert Hoisting Engine Company:

In behalf of the Lambert Hoisting Engine Company, the owner of premises Nos. 1239-1247 Broad Street, in the City of Newark, he submitted for consideration an offer of Twenty Thousand (\$20,000) Dollars in full settlement of all taxes, assessments, interest and penalties due to the City of Newark against the said premises.

It is submitted that the acceptance of said offer will be for the best interest of the City of Newark, and in support of my contention the following facts are respectfully submitted for your consideration:

The arrears taxes amount to \$23,-223.96 for principal and \$4,072.90 interest and charges; the total equals \$27,296.86.

I will gladly furnish an itemized statement of the said taxes and interest and penalties.

It would add \$30,000 to the ratables of the City of Newark and give employment to about thirty men.

Mayor Ellenstein suggested that Mr. Glassner take this matter up with Judge Boettner and have him submit an opinion to the entire Board on Monday. He did not think they ought to assume the responsibility in the absence of two commissioners.

Mayor Ellenstein offered the following resolution:

BE IT RESOLVED, By the Board of Commissioners of The City of Newark that the persons named below, residents of and registered voters of

the City of Newark for at least three (3) years prior to the date of passage of this resolution, be and they are hereby appointed Constables of the City of Newark for the term of one year, commencing noon, January 1, 1934, at an annual fee of \$50 each,

for which fee the City shall supply each constable with a badge suitably inscribed, the badge to be returned to the City at the expiration of said Constable's term; under authority of and pursuant to the provisions of Chapter 393 of the Laws of 1933 of the State of New Jersey:

The roll being called the resolution was declared adopted by the following votes:

Yeas: Commissioners Minisi, Parnell, Mayor Ellenstein.

City Clerk Reichenstein requested authority to order badges for the constables.

Commissioner Parnell suggested that it go through the Purchasing Department and then the City Clerk will be on the safe side.

Mr. Finkelstein stated that at a recent conference of constables in the City Clerk's Office the representatives of the Constables' Association approved of having all constables secure surety bonds.

Mayor Ellenstein: If this Commission decides, after investigation by the Department of Public Safety, that an applicant is qualified to be a Constable and the surety company decides that he is not a good risk that is no reason why he should be turned down. Suppose you issue licenses now until Monday for those constables who have filed their surety bonds, and then on Monday when the full commission meets we will take action on the other applicants.

Commissioner Parnell offered the following resolution:

BE IT RESOLVED By the Board

of Commissioners of The City of Newark that there is hereby created in the Department of Revenue and Finance the position of Operator of Moon-Hopkins Machines, appointments to said position to be made by the Director of the Department of Revenue and Finance, at a salary not to exceed Twelve Hundred Dollars (\$1,200) each per annum, said appointments to be effective as of December 18, 1933.

Mr. Henry Green: Mr. Mayor, I would like to speak on the resolution of the eight-point matter. I realize that we are facing an economic situation. I do not believe we can solve the problem by trying to get people to get old clothes, shoes and worn out hats. Neither do I think that the handout of crumbs of charity will cure this economic disease.

WHEREAS, The Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Application of John Van Bavel (Samuel Greenberg, owner) for an automobile wrecking yard, and the sale of used automobiles; premises 949-955 Frelinghuysen Avenue; on condition that the wrecking yard be surrounded by a board fence ten feet high, and at least fifty feet west of the Frelinghuysen Avenue property line, no material in the wrecking yard to be piled higher than the fence, that the space for the sale of used cars be surrounded by a steel wire fence five feet high; permit to expire one year from date of approval;

THEREFORE BE IT RESOLVED By the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits be and he is hereby directed to issue a permit for the application above set forth

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. William B. Clacken, Newark Athletic Club:

Of the thirteen property owners within 200 feet of applicant Van Bavel, Greenberg property, there still remains ten objectors to the issuance of a permit for an auto wrecking junk yard. They say such will have damaging affects to the properties adjoining and surrounding the Greenberg property and City in general.

Mr. M. L. Miller, Matawan, New Jersey.

I represent the estate of William A. Miller, owner of a tract of land in the City of Newark. It fronts one hundred feet on Frelinghuysen Avenue and 180 feet on Wharton Street. I am one of the executors of the estate. I also represent my sister who will inherit the property. I ask that this permit be not granted, as it will detract from the value of the property.

Mayor Ellenstein: Is there any other objector who desires to be heard on this?

Mr. Samuel Greenberg, 815 South Twelfth Street:

Mr. Commissioners, I ask for an adjournment for two weeks. I have been in communication with some of these objectors. I have been assured that they will withdraw their objections.

Commissioner Duffy: The reason we gave you the adjournment two weeks ago was to place you in a position to contact the objectors.

Commissioner Minisi: This is the same plea that was made the last

time these gentlemen were here, and we were willing to give them an opportunity to do exactly what they say they are going to do. They have had an adjournment, and I cannot see what is going to be gained or what useful purpose another adjournment could serve. The letters I received, and the letters the rest of the Commissioners received, indicate that the property owners in that vicinity are most certainly opposed to the granting of this permit, and they make their statements in no uncertain terms. I think we ought to vote on this, and then if the sentiment of the neighborhood changes the applicant can make an application to reopen.

Commissioner Parnell: I move the recommendation of the Zoning Board be denied.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, The Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Mr. John J. Clancy, Lefcourt Building: Gentlemen, I desire to move for a reconsideration of the denial of the City Commissioners of the granting of a permit for a gasoline station at 1240-1242 Broad Street. The permit was approved by the Board of Adjustment, and the matter came before the City Commission, and the City Commission declined to go along with the recommendation of the Board of Adjustment. I ask that the matter be reopened for reconsideration so I may present it at some future date.

Commissioner Franklin: I move you, Mr. Mayor, that we grant a reconsideration of this application.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: There will be a hearing set down for February 27th, and you will notify all the property owners and have an affidavit of service,—all property owners within the prescribed 200 feet.

Commissioner Franklin offered the following resolution:

WHEREAS, the Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed

Application of Irwin Goldfinger Arcand Realty Co., owner) for the construction of a gasoline station; premises 75-85 Clinton Avenue; on condition that a fire-resistant fence, five feet high, be erected surrounding the property to be used for the gasoline station as shown on the plans, except on the Clinton Avenue frontage; that all signs and lighting devices meet the approval of the Board of Adjustment; approval to expire eight years from date;

THEREFORE BE IT RESOLVED by the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Mayor Ellenstein: We will hear the objectors.

Miss Mary N. O'Connor, 43 Spruce Street:

Mayor Ellenstein and Commissioners of the City of Newark, some thirty years I have spent in the City of Newark working for its beauty, its uplift, and for what I consider right and just to all mankind. We have taken Washington Street and Mulberry Street and given them over to the automobile business. South of the City Hall we have laid waste valuable land for the purpose of mere parking of automobiles and show-cases. How can we pay expenses when the most valuable land is turned over to mere showcase purposes and gasoline stations, and things that should be occupying the least valuable tracts?

Mr. Michael M. Chanalis, 9 Clinton Street:

I appear for the Howard Savings Institution which owns property at 90 Clinton Avenue, 91 Clinton Avenue, 97 and 99 Clinton Avenue, one of the properties adjoins this property which is to be used for a gasoline station. Before the Adjustment Board this application was approved by a three to two vote. The argument presented before the Board was that they were going to put up a beautiful gasoline station. If that forms a reason for granting permits, then there is no reason why a beautiful gasoline station should not be put up on Mt. Prospect Avenue or in the Forest Hill section or in the residential section of Clinton Avenue. The Adjustment Board in granting this application overruled a studied procedure over many years. There isn't a gas station on Broad Street from the D. L. & W. station up to Elizabeth Avenue. And that is reason enough against it.

Mr. Arthur F. Egner, Lefcourt Building:

Mr. Mayor, I represent Mr. Louis V. Aronson, whose home is almost directly opposite this property. Mr. Aronson is one of the old residents there. He has a nice home. He spent money there to make it available for his living purposes. He did not buy it for speculation, he bought it as his home. If you are going to put a gas station there it is just going to make that situation so much worse.

Dr. Leonard Morvay, 76 Clinton Avenue:

The hazard of automobiles pulling out and into that gas station in the most dangerous section of the City of Newark from a traffic viewpoint will be bad.

Mr. Gabriel Silverman, 68-74 Clinton Avenue:

I just want to be on record as being opposed to this application.

Mayor Ellenstein: Is there any other objector who desires to be heard?

Now we will hear those in behalf of the applicant.

Mr. Joseph E. Cohen, 972 Broad Street:

I represent the Arcand Realty Company which is the owner of the property in question. It has come to a point where nothing but a material industry or a business can successfully cope with the conditions from a real estate standpoint on that street. This street is over one hundred feet wide. It does not seem credible that people on the other side of the street are going to be annoyed because there happens to be a gas filling station 150 feet away from their residences.

Mr. Joel L. Schlesinger, 31 Clinton Street:

I am speaking for and in behalf of the Arcand Realty Company, and as a real estate broker of the City of Newark. In the last fifteen years there has been a change in that neighborhood. What better reason can there be for a gasoline station at this point than heavy traffic. The neighborhood demands it.

Mr. William Bly, 95 Clinton Avenue:

I own a piece of property at 95 Clinton Avenue just 30 feet west of this particular station, or 130 feet. I do not think this gasoline station is going to be a deterioration of property. I think it is going to improve things. It will help the taxpayer to get some relief.

Mr Irving Goldfinger, 86 Osborne Terrace

I am the applicant in this matter we propose to erect at this location a beautiful gasoline station. We will have a frontage on Clinton Avenue of approximately 92 feet. Our building that we are going to erect will set back about 40 or 45 feet and will be entirely covered on the outside with white tile. We will have colored tile casements and door trim. We intend to erect a wall outside which will also be covered with tile to match the building. We intend to light up the station so that not only the station but the entire street will be lighted up. Outside of that, we also intend to have flood lights as additional lighting.

Mayor Ellenstein: Is there any other person who desires to be heard?

Mr. J. A. Ryan, 33 Romaine Place:

Mr. Mayor, I am here this morning representing the building trades. We feel that the City Commissioners should not disapprove of any project that will put our men to work. You all know that we have very trying times, and we all know that it takes a lot of courage for any firm or any corporation today to invest money in a building. We have been assured that if you approve the project for this gasoline station there will be a building placed adjoining to this that will put practically thirty to forty thousand dollars in the pockets of our workers in this City. The building trades sent me out this morning with an earnest request that you Commissioners give this your earnest consideration, and also back up the ruling of your Zoning Board.

Commissioner Parnell: I move that the recommendation be concurred in, Mr. Mayor.

Mayor Ellenstein Is there a second to that motion?

Commissioner Minisi: I move the recommendation of the Zoning Board be reversed.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Nays: Commissioner Parnell.

WHEREAS, the Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Application of Robert Treat Garage (Fraternal Order of Eagles, owner) for an automobile parking station; premises 30 East Park Street; for a period of one year, on condition that all signs, fences and lighting devices meet the approval of the Board of Adjustment;

THEREFORE BE IT RESOLVED by the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Mayor Ellenstein: Are there any objectors?

Mr. Anthony Papalardo, 328 South Seventh Street:

I have a petition last year. I lost the petition.

Commissioner Minisi: He is making application for an adjournment of one

week. Are you the owner of this property?

Mr. Papalardo: Yes, sir.

Commissioner Minisi: You are against this?

Mr. Papalardo: Sure, I got a big property.

Mr. Nathaniel Kessler, 9 Clinton Street:

I may help him out, because I think the last time we appeared before the adjustment Board he handed a piece of paper to the secretary, it may be in the file, which he claimed were objectors, although practically all of those people—

Commissioner Minisi: The paper is here, it is not lost.

(Mr. Papalardo spoke in Italian to Commissioner Minisi.)

Commissioner Minisi: He says there were more objectors.

Mayor Ellenstein: He says there are more objectors and he would like the case adjourned to get more signatures?

Commissioner Minisi: I asked him if he received notice and he said yes. I asked him why he appeared and the others who also received notice did not appear also. They cannot expect the applicant and other people to come here and waste a lot of time, and the others do not appear but ask an adjournment through him. We have no reason to believe that he has been authorized to ask for an adjournment.

Mayor Ellenstein: Apparently they are not sufficiently interested. The other people he had on the petition, did they appear before the Zoning Board?

Commissioner Parnell: Were they notified?

Mr. Kessler: Those within a two hundred foot radius were notified. But most of those names on there are not within 200 feet.

Commissioner Parnell: If there are no objectors, I move it be concurred in.

Mayor Ellenstein: I think we ought to give this man a hearing. He will have to proceed and voice his objection.

Commissioner Minisi: Here is the situation that developed, Mr. Mayor: This man's brother, who is also opposed to this application, took it upon himself to notify these other people not to come here, that the matter would be adjourned.

Mayor Ellenstein: He is a diplomat. How could his brother undertake to do that? It is prejudicial to these people to come here and waste time. These objectors had five days' notice to appear before the Zoning Board, and while he got all these signatures, they did not make an appearance in person. And they had two weeks in which to make up their minds, and none of them appear here now, and he now asks for an adjournment, and that is prejudicial to the applicant.

Commissioner Minisi: When did this matter come before the Zoning Board?

Mr. Kessler: About three weeks ago Wednesday.

Commissioner Minisi: Was the applicant there?

Mr. Kessler: Oh yes, we were all there, and every objector was heard

Commissioner Minisi: This man is apparently distorting the facts. He said he came here three weeks ago and the applicant was not here.

Mayor Ellenstein: This man claims the applicant was not here at the time the matter was before the Zoning Board.

Mr. Rankin: We had this before three meetings. It was laid over on two occasions: the first time at the request of the objectors, and the second time because Mr. Kessler was in court.

Mayor Ellenstein: They have withdrawn their objections?

Commissioner Minisi: The records show he was here himself and presented a protest signed by five property owners.

Mayor Ellenstein: How many are in favor of it?

Mr. Kessler: Nineteen.

Mayor Ellenstein: Tell him he can now talk.

Commissioner Minisi: His objections are predicated upon health questions. He claims an unhealthy situation will be created for the children.

Commissioner Minisi: I move we concur in the recommendation of the Board.

Commissioner Parnell: I second the motion.

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

The Board of Commissioners of the City of Newark, N. J.

H. S. REICHENSTEIN
City Clerk

Newark, N. J., January 30, 1934.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 11 A. M.

Present: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

Absent: Commissioner Duffy.

The minutes of meeting of January 23rd were read and approved.

Commissioner Franklin introduced the following ordinance and moved its adoption on first reading.

The clerk then read the ordinance as follows:

An Ordinance providing for the vacation of an Alley approximately 14 feet in width between Academy Street and Raymond Boulevard, the easterly line of said alley being approximately 261.22 feet measured north-westerly along the northerly line of Academy Street from the north-westerly corner of Academy Street and Plane Street.

The Board of Commissioners of the City of Newark, Do Ordain:

Section 1. That an Alley approximately 14 feet in width between Academy Street and Raymond Boulevard, the easterly line of said Alley being approximately 261.22 feet measured north-westerly along the northerly line of Academy Street from the north-westerly corner of Academy Street and Plane Street, as shown on a map prepared under the direction of this Board, which map is hereto attached and made a part hereof and

a copy of which map also is on file in the office of the Chief Engineer, Department of Public Affairs, known and designated as Map No. 1420-V, dated Feb. 3, 1933, shall be vacated as a public street or highway.

Under and by virtue of the provisions of Section 1, sub-division (b) of Article XXII, of an Act of the Legislature of the State of New Jersey, entitled "An Act Concerning Municipalities," approved March 27, 1917, and the acts amendatory thereof and supplementary thereto.

Section 2. That this ordinance shall take effect immediately and all ordinances or parts of ordinances inconsistent with the provisions of this ordinance, be and the same are hereby repealed.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin moved that February 13th, 1934, at 11 A. M., or as soon thereafter as said matter can be reached, and the Board's meeting room, second floor, City Hall, Newark, N. J., be fixed as the time and place when and where said ordinance will be further considered for final passage, and that the City Clerk be and he is hereby directed to publish said ordinance and give public notice of its introduction and passage on first reading as provided by law.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin,

Minisi, Parnell, Mayor Ellenstein.

(No response).

The City Clerk presented An Ordinance to secure the purity of alcoholic beverages, and to prevent deception in the distribution and sale thereof, in the City of Newark, and stated that today was the time fixed for hearing on the same.

Commissioner Franklin moved that the hearing on this ordinance be deferred for two weeks.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented An Ordinance to amend an ordinance entitled "An Ordinance to regulate the handling of Food Stuffs in the City of Newark," adopted December 19, 1933, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. Henry Green: Mr. Mayor and gentlemen of the Commission. This ordinance is contrary to the Constitution of the United States and Declaration of Independence. When one of these people in a restaurant applies for a job and he is down-and-out, and they tell him to go to the Board of Health and pay \$2 and if they find he is healthy he will be given a job. The City Hospital and the Board of Health were always maintained at the City's expense.

Mayor Ellenstein: Is there any other citizen who desires to be heard on this ordinance?

No one else appearing, Commissioner Franklin moved that the hearing be closed.

The roll being called, the motion was declared adopted by the following votes:

The Clerk then read the ordinance as follows:

An Ordinance relating to the City Budget and establishing a Budget Bureau.

The Board of Commissioners of the City of Newark, Do Ordain:

Section 1: There is hereby established in the Department of Revenue and Finance a Budget Bureau, under the direction of a Budget Director, and whose compensation shall be fixed and determined by the Board of Commissioners.

Section 2: At least thirty days prior to the beginning of the fiscal year, the Budget Director shall prepare and transmit to the Board of Commissioners a tentative budget setting forth in detail an estimate of the financial requirements and the financial resources of the city for the succeeding fiscal year, in the form hereinafter more specifically provided for

With the tentative budget, the Budget Director shall transmit to the Board of Commissioners a budget message containing a concise statement of the financial condition of the municipality, the fiscal policy underlying the proposed budget, and all the reasons for such fiscal policy. Such message shall also summarize so as to show the balanced relations between them, the aggregates of proposed expenditures, and the aggregates of anticipated income, whether from taxes or otherwise, duly classified as to sources, with a similar summary for the preceding and for the current fiscal years presented in parallel columns.

Section 3: Every department, office, board or body, to which appropriations are made or which shall have authority to expend any monies provided for in the budget, whether to be raised by taxes or otherwise, shall at least ninety days before the beginning of the next fiscal year, transmit to the Budget Director an estimate in detail of the monies required for the proper function of such department, office, board or body during the coming fiscal year, together with an estimate of revenues which may accrue to such department, office, board or body. Corresponding figures of the expenditures made and revenues received during the preceding and current fiscal years shall be submitted at the same time the figures of the current fiscal year to be estimated for the portion unexpired. Such estimates and comparative figures shall be presented in such form as the Budget Director shall prescribe, and it shall be the duty of the Budget Director to confer with the makers of such estimates and to assist them in the preparation thereof. After submission of such estimates, the Budget

Director may require additional details or further subclassification in relation to such estimates.

Section 4: The tentative budget when transmitted by the Budget Director to the Board of Commissioners shall become the basis for the budget finally to be adopted by the Board of Commissioners subject, however, to such modifications and alterations as the Board shall determine upon after hearing thereon as provided by law.

Section 5: The budget as transmitted by the Budget Director and as finally adopted by the Board of Commissioners, shall provide both for current expenses and for capital outlay during the fiscal year for which such budget is adopted, properly segregated, and shall show the proposed expenditures of the several budget units whether for current expenses or for capital outlay. The proposed expenditures shall be presented under such divisions of function and by such budget classes as the Budget Director shall prescribe, and shall in all events be so detailed as to fixed charges, personal services, materials and supplies, and similar classifications as to give a reasonable comprehensive picture of the needs of each budget unit and the sums appropriated to meet them. The proposed expenditures of every publicly owned and every publicly operated utility or enterprise shall be separately set forth under the proper budget unit with similar detail.

Section 6: In addition, the budget shall set forth the amount of revenue anticipated to be received during the fiscal year for the purpose of financing the expenditures authorized. Such revenues shall be set up by classes and sub-classes in such a way as to show the amount to be appropriated from surplus revenue, from miscellaneous revenues allocated to the several sources thereof anticipated to be

received during the fiscal year, and the amount to be raised by taxes.

Section 7: In addition to the estimates of expenditures and revenues, the budget shall include:

A—A statement of the city's bonded indebtedness under classes showing interest, amortization and redemption requirements, the amount of authorized and unissued bonds, the debt limitation, and the remaining borrowing capacity.

B—A full statement showing the condition of every surplus revenue account and the total of proposed expenditures to be made by appropriation therefrom.

C—A detailed statement of the miscellaneous revenues of the preceding and of the current fiscal years estimated so far as may be necessary for the current fiscal year. Such statement shall include all monies received by the municipality from sources other than the tax levy and surplus revenue accounts.

Section 8: For the purpose of comparison, similar figures of expenditures and revenues for the preceding and current fiscal years, estimated so far as may be necessary as to the current fiscal year, shall be set up beside the anticipated items of expenditures and revenue for the coming fiscal year.

Section 9: With the advice of the officers or departments responsible for their respective operation, the Budget Director shall prepare and transmit to the Board of Commissioners at the same time the tentative budget and budget summary are transmitted, a separate and supplementary budget for each public utility and for each revenue producing enterprise owned or operated by the City, and the items

carried in the general budget in relation to such utility or enterprise shall be consistent with the items of proposed expenditures and anticipated revenue shown in the respective supplemental budgets.

Section 10: Such supplemental budgets shall be in general form similar to the general budget and shall include expenditures for administration, operation and maintenance, for debt amortization and redemption charges, and for all proposed capital expenditures during the ensuing fiscal year. It shall similarly show the anticipated income from such utility or enterprise and any means of financing any anticipated deficit in income from operation. Comparative figures for the preceding and current fiscal years shall be included therein. Every supplementary budget shall be a public document open to public inspection, but need not be published.

Section 11. In addition to the duties hereinbefore assigned to the Budget Director, it shall be his duty in conference with the several spending agencies of the city, immediately upon the adoption of the budget, to prepare a work program of the several spending agencies under which the appropriations are to be expended, and shall periodically and not less than quarterly report the status of the accounts of the several spending agencies in relation to such work program. Similar special reports affecting one or more of such spending agencies may be made to the Board of Commissioners when the Budget Director shall deem advisable.

Section 12: In addition to the Budget Director, there shall be established in the Budget Bureau such clerks and assistants at such salaries as the Board of Commissioners shall from time to time determine.

WHEREAS, the Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superinten-

dent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Application of Jennie Winarsky, owner, for an automobile parking station; premises 284-286 Waverly Avenue; approved for one year, on condition that a temporary barrier be erected between Nos. 282 and 284 Waverly Avenue, and that all signs and fences meet the approval of this Board;

THEREFORE BE IT RESOLVED by the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Mayor Ellenstein: Does any person desire to be heard in opposition to this application?

Mr. M. A. Bauer, 164 Market Street: This property should not be used for a parking space. It would devalue the property, increase fire insurance rates. There is sufficient garages nearby to house the cars within a radius of two blocks. The land is passed by many school children.

Mayor Ellenstein: Any other objectors?

Mr. Louis A. Hollander, 24 Brantford Place: This neighborhood has been the way it is for 25 years or more. Today there is no reason for the change.

Mr. David Stern, 461 South 17th Street, representing the Garage Owners' Association: We have a couple of

garages in the neighborhood, two of them on Bergen Street. And I ask the Commissioners to turn down this application.

Mayor Ellenstein: Does any other person desire to speak in opposition?

Mr. Henry Baer, 289-291-293 Waverly Avenue: My mother owns two six-family houses directly across the street, and we have vacancies now and we have threats of the tenants in the event the cars go in we will suffer more from vacancies.

Commissioner Minisi: What are the numbers of your property?

Mr. Baer: 289, 291 and 293, directly across the street.

Mayor Ellenstein: Does any other person desire to be heard in opposition or on behalf of the applicant?

Mr. James D. Apostolakos, 790 Broad Street (substituted attorney for I. Edward Amada):

Mr. Mayor and Board of Commissioners, I appear on behalf of this applicant, Jennie Winarsky. She finds she has nothing to obtain any kind of a loan or do anything else on that piece of property. It amounts to confiscation of her property at this time to deprive here of this use.

Commissioner Duffy: I move that the recommendation of the Board of Adjustment be not concurred in.

Mayor Ellenstein: Is that motion seconded?

Commissioner Franklin: I will second the motion.

Mayor Ellenstein: The motion made by Director Duffy is that the recommendation of the Zoning Board be rejected. All in favor of the motion

that the recommendation of the Zoning Board be rejected will signify by saying aye, contrary no; the Clerk will call the roll.

The Board of Commissioners of the City of Newark, N. J.

H. S. REICHENSTEIN,
City Clerk.

Newark, N. J., February 21, 1934.

An adjourned meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date in the Commissioners Chamber, City Hall, Newark, at 10 A. M.

Present: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: The meeting will come to order. We are here on a public hearing that was advertised in accordance with law on the budget. Is there any person who desires to be heard?

Mr. Meyer Zemel, 826 South 13th Street: Mr. Mayor and Commissioners I think the citizens present are entitled to an opening from the Commissioners as to their attitude in reference to the surplus of \$1,500,000 left over from 1933, and the 1934 budget which includes \$2,500,000 which you intend to set up as a reserve. But the impression has been conveyed that you do not intend to go along with the \$2,500,000 reserve.

Commissioner Parnell: Mr. Mayor, I now move you that the proposed surplus of \$2,500,000 requested by the bankers and that was placed in this tentative budget, be deleted, and that also the citizens of Newark be given full credit for the \$1,500,000 that this Commission will save for the year 1933. In other words, that our surplus revenue item be increased by \$1,500,000.

Commissioner Minisi: I second the motion.

Mayor Ellenstein: All in favor of the motion that the item of \$2,-

500,000 surplus set up in the tentative budget be deleted, and the \$1,500,000 surplus which has been accumulated in 1933 be set up as surplus revenue in the budget, will signify by saying aye, contrary no; the Clerk will call the roll.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mr. Zemel: Director Duffy's Department I found is running 64 policemen short of his required quota, making a savings on the basis of \$2,500 a year for each man, of \$160,000. I find that he is 78 firemen short of the quota, making a savings of \$195,000. I find he has done away with the police commissioner, the fire commissioner, the building commissioner and the license commissioner. I find that he done away with most of his license crew. I also find where he has hired at the minimum pay young men to do the work of the policemen who used to draw \$2,500 a year for clerical work, thereby making a large savings in the Police Department, which over the 1931 budget shows—the 1931 budget for the Fire Department was \$2,555,000; the 1934 budget for the Fire Department is \$2,077,900, showing a savings of \$477,100. He has done just about as well in his Fire Department; and it shows a savings in both departments of close to \$1,000,000 or thereabouts. And Commissioner Duffy's budget, in my opinion is O. K.

Commissioner Franklin's budget I find, outside of one or two instances, is all right. There has been great savings in the conduct of the City Hospital and the Board of Health and the Alms House.

Mayor Ellenstein's Department has also shown savings. But I find that he has too many engineers.

Mayor Ellenstein: We haven't enough engineers now. We are taking care of about 4,500 people for the CWA and that we furnish engineering service and supervision on all those projects, and the City is getting the benefit of that. We are administering not to one department but to three departments over normal times.

Is there any other person who desires to be heard on the budget?

Mr. Raymond Lemassena, 810 Broad Street: I want to call the attention of the Commissioners to the appeal of the people asking for tax reductions.

Mayor Ellenstein: Director Parnell anticipates appointing a revaluation committee and that will be done in due time.

Does any other person desire to be heard on the budget?

Mr. C. T. Taylor, representing Newark Taxpayers' Association: Mr. Mayor, the Newark Taxpayers' Association has been working on the several budgets of the City Commissioners for several weeks. We believe that the Commission is doing what it can. We know your task is great and we wish to aid in any way possible.

Mayor Ellenstein Is there any

other person who desires to be heard on the budget? Hearing no one, I will entertain a motion that the public hearing on the budget be closed.

Commissioner Duffy: I move you, Mr. Mayor, that the public hearing on the budget be closed.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Duffy: I move we adjourn.

WHEREAS, State funds have been appropriated by the Legislature to the State Director of Emergency Relief for the purpose of furnishing State aid to municipalities in such cases; and,

WHEREAS, The City of Newark is indebted to the Board of Children's Guardians of the State of New Jersey in the amount of \$5,700.72 for the housing of indigent children since June 1, 1933, to date;

NOW, THEREFORE, BE IT RESOLVED, By the Board of Commissioners of the City of Newark, that in accordance with the rules and regulations of the Emergency Relief Administration, to all the provisions of which this Board does hereby agree, application be and hereby is made to

the State Director of Emergency Relief for a special grant of funds in the amount of \$5,700.72 to meet the relief hereinbefore referred to.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, The Board of Commissioners of The City of Newark have been advised by the Director of the Department of Parks and Public Property that conditions in the City Power House are causing vibrations and structural defects in the City Hall group of buildings; and,

WHEREAS, the Superintendent of Buildings has recommended to the Director of the Department of Parks and Public Property that a POWER HOUSE EXPERT be engaged to make a survey of the situation to the end that the conditions now present be speedily remedied; and,

WHEREAS, The Stone and Webster Engineering Corporation of Boston, Massachusetts, has offered to make a complete technical survey of the City Power House and the City Hall group of buildings at a cost not to exceed Eighty (\$80.00) Dollars per day, and, in addition, for the payment of reasonable transportation expenses from Boston to Newark and for the payment of hotel expenses in Newark for the engineer assigned to the survey;

THEREFORE, BE IT RESOLVED, By the Board of Commissioners of The City of Newark, that the Director of the Department of Parks and Public Property be authorized and em-

powered to retain the said Stone and Webster Engineering Corporation, of Boston, Massachusetts, to make the said survey in accordance with the conditions hereinbefore referred to.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

Mr. Henry Green: Mr. Mayor, you have one resolution there for the purchasing of cotton goods, calling it an emergency resolution.

Mayor Ellenstein: The Purchasing Agent is informed that cotton goods will rise in price to the extent of ten per cent., and that does not permit time for advertising; and the resolution permits him to purchase in the open market, and if the price does not rise as he has been informed, then the order will be cancelled and it will be let out under contract. It will save about five or six hundred dollars.

The City Clerk presented the application of John Van Bavel (Samuel Greenberg, owner) for sale of used automobiles; premises 949-953 Frelinghuysen Avenue; for a period of one year, on condition that the space so used be surrounded by a steel wire fence on steel supports, five feet high; and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person here who would like to speak in opposition to this application?

Mr William B Glacken, Newark

Athletic Club: There remains ten objectors of the thirteen property owners, and these owners are objecting more vigorously than ever to an issuance of a used car auto permit. Applicant Van Bavel has cars and trucks parked two deep and eight feet from the curb, in front of billboards on Frelinghuysen Avenue. The prices of these cars and large trucks range from \$22.50 up to \$195. Used car lots are unfair competition to improved realty owners, and to unimproved realty owners whose properties are being sold for over \$75 per front foot.

Mr. Van Bavel: I would like to know who objects here.

The City Clerk: Mr. Mayor, I have a number of pieces of correspondence in opposition to this: one from M. L. Miller, executor of the estate of William A. Miller a property very close to the premises in question; the Lincoln Laundry, opposing the permit—

Mayor Ellenstein: What is the nature of the complaint?

The City Clerk: Shall I read the complaints?

Mayor Ellenstein: Unless you know the nature of it?

(The City Clerk read communications from the following: Consolidated Corporation, Dorothy Kellner, Peerless Laundry Company, Lincoln Building and Loan Association, Otto Roth, Inc., Gray Industrial Laboratories.)

Mr. Van Bavel: May I ask which Otto Roth that is?

The City Clerk: The one on Virginia Street.

Mr. Van Bavel: What connection have they with property there?

The City Clerk: I don't know. I am just reading the communications from the people.

(The City Clerk read two communications from the Natural Carbonic Holding Corporation.)

Mr. Samuel Greenberg, 815 South 12th Street: You will notice the company that owns in the the neighborhood of \$1,000,000 worth of property, the Prudential Life Insurance Company, have apparently withdrawn their objection since the modification from a wrecking station to a used car lot.

Mayor Ellenstein: Don't you think we should recognize the wishes of the majority of the property owners in that locality?

Mr. Greenberg: The fact they are the majority does not mean they are right.

Mayor Ellenstein: Of course, that is true. After all, unless there can be a motive shown, and they are in close proximity and they certainly should know. The Commissioners are in sympathy with you; we know it is a burden upon you. But we have got to take into consideration the interests of the adjoining property owners too. We would be glad to grant you a permit if you got the consent of the majority of the property owners. They are paying their taxes, and ten of the thirteen say they are opposed, and you come here and say all you ask is fair play. Now, most people are in favor of fair play. If you cannot impress at least half of the property owners around there that you are justified in your stand of fair play, how are we to determine it?

Commissioner Parnell: I move the application be denied, Mr. Mayor.

The roll being called, the motion

was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

A communication dated February 23rd, 1934, from Joseph L. Smith, requesting an adjournment on the hearing of the application of Krueger Brewing Company for a permit to conduct a gasoline station; premises 432-434 South Orange Avenue, was received and read.

The City Clerk presented the application of Gottfried Krueger Brewing Company, owner, for the construction of a gasoline station; premises 432-434 South Orange Avenue; on condition that lighting devices, signs and fences meet the approval of the Board; and stated that today was the time fixed for hearing on the same.

Commissioner Franklin moved that the application be laid over until March 13th.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolutions:

WHEREAS, on March 15th, 1933, the Board of Commissioners on the recommendation of the Board of Adjustment dated February 21, 1933, adopted a resolution approving the construction of a gasoline station on the premises 980-988 Bergen Street; and,

WHEREAS, the owner, Baime Cohen, Inc., was unable to proceed with the work of construction within the allotted time;

RESOLVED, By the Board of Commissioners of the City of Newark that an extension of three months from date be granted to the said Baime Cohen, Inc. or their assigns for the commencement of the aforesaid work.

Mr. Rankin: This is the one where the time limit had expired and new notices were to be served.

Mayor Ellenstein: Has an affidavit of service been filed?

The City Clerk: Yes, an affidavit of service has been made.

Mayor Ellenstein: Does anyone desire to be heard in opposition to this permit?

Mr. Alexander MacPhee, 58 Stengel Avenue, representing Garage Owners' Association: There is four blocks there and there are seven service stations there now. On the east side of Bergen Street there is a one-family district, and I don't think there is any need for any more service stations there. The property is a good property for an apartment house and the bottom floor for a doctor's office.

(The City Clerk read a communication from the Investment Building and Loan Association.)

Mr. Albert H. Baime, 60 Park Place: There are two objectors to this permit. They did not object at the hearing last time when this whole thing was threshed out. This gentleman here says the property is a very apt piece of property for the erection of an apartment house. I would like to ask him if he is willing to buy it. I will sell it to him at a very great sacrifice. We went over that.

Mr. Ira Scharf, 790 Broad Street: Mr. Mayor, I represent the owner of the gasoline station on the corner of Renner Avenue and Bergen Street. I

know for three years it has been a tremendous struggle for that individual to make a living. I think it has been a struggle for all these gasoline stations on Bergen Street to make a living. I think another gasoline station would only jeopardize the interests of the property owner who proposes to put up this gasoline station, because their income is very small around that locality.

Commissioner Parnell: I move the application be denied.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, The Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Application of Harry Bender (Tiverton Realty Co., owner), for the construction of a gasoline station; premises 1240-1242 Broad Street; on condition that there be no entrance or exit from State Highway No. 21;

THEREFORE BE IT RESOLVED By the Board of Commissioners of the City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Pearce R. Franklin
M. C. Ellenstein
Reginald Parnell

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Albert H. Baime, 60 Park Place: There are at least eight or nine gas stations within the radius of four or five blocks there. Now, if a gas station permit is granted to that piece of property, that will make our piece of property worthless. We don't want to put a gas station up there.

Mayor Ellenstein: Don't you think Bergen Street is much more adaptable for business purposes than the south end of Broad Street there?

Mr. Baime: No sir, I do not.

Mayor Ellenstein: Don't you think the character of the property down on South Broad Street is different than that on Bergen Street?

Mr. Baime: I don't think so. Not to any appreciable extent today.

Mr. John J. Clancy, Lefcourt Building: Our property extends from Broad Street to the Highway.

Commissioner Franklin: Will you serve gas from the highway?

Mr. Clancy: No I believe that the plans that are submitted with the restrictions imposed at the time the application was granted by the Board of Adjustment, made that subject to approval with respect to the Highway?

Commissioner Parnell: I move the application be granted.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, The Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Commissioner Franklin: I move we adjourn.

The Board of Commissioners of the City of Newark, N. J.

The roll being called, the motion was declared adopted by the following votes

H. S. REICHENSTEIN,
City Clerk.

MINUTES OF MEETINGS Of The Board of Commissioners

March, 1934

Newark, N. J., March 6, 1934.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 11 A. M.

Present: Commissioners Duffy, Franklin, Parnell, Mayor Ellenstein.

Absent: Commissioner Minisi.

The minutes of meeting of February 27th were read and approved.

The City Clerk presented An Ordinance to prohibit false labels and misrepresentation in the sale of certain food products and to provide penalties for the violation thereof, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Commissioner Franklin: I move further consideration of this matter be deferred for one week.

Mayor Ellenstein: The Law Department has asked for a postponement of a week because it is incompatible with the State Law.

Mr. Henry Green: Mr. Mayor, isn't there something wrong that an ordinance is introduced without first being referred to the Law Department?

Mayor Ellenstein: The ordinance was drawn by the Law Department. If it is necessary for the Law Department to amend it it will then, of course, have to be advertised and carried over for two weeks. The Law Department has not determined as yet whether it will be necessary to amend, but they require more time to look into the law. Now, I do not see any serious objection to that. It is unfortunate these people came down here.

There are some people who desire the ordinance. Now, it is only fair that we hear them at a public hearing, and if you have any objection to it you can voice your opinion then. But the question now before the Commission is why this ordinance should not be adjourned for a week.

Mr. Max Meisner, Lefcourt Building: You have asked that this be put over because you desire to amend the ordinance. It indicates that this ordinance is to be taken up. I therefore think that it would be proper and best to have that ordinance discussed now

as to whether or not there should be any ordinance at all. We are of the opinion there should be none.

Mayor Ellenstein: It would not be proper Mr. Meisner, because there may be some people who were here and have left here with the understanding that the ordinance would be adjourned for another week. There are phases of it that the Law Department is uncertain as to whether or not it is incompatible with the State Law. It may be their judgment, after making a close examination of the law, that there isn't anything in the ordinance that is incompatible, and the public hearing will then be had next Tuesday. At any rate it will be announced in next Monday's papers. You will be in ample time, you will be heard; but in all fairness don't you think we ought to hear both sides?

Mr. Meisner: Undoubtedly you have heard both sides.

Mayor Ellenstein: No, we have not heard both sides. That is the purpose of the public hearing, to hear both sides. There is no serious objection to asking you to come down again, is there?

Is there any person who desires to be heard on the adjournment? If not, the Clerk will call the roll on the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell, Mayor Ellenstein.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented An Ordinance providing for penalties for the violation of any of the provisions of the rules and regulations of the Department of Public Affairs, and of the ordinances of the City of Newark relating to the said Department

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. Meyer Zemel: What is that ordinance? It is very indefinite. I read it in the papers but I don't know what the ordinance represents or applies to.

Mayor Ellenstein: This is to comply with the law. The Supreme Court held that where the penalty was mandatory it was unconstitutional, and this makes it discretionary with the court to impose a penalty. It is just to comply with the constitutionality of the law. Is there any other person who desires to be heard on this ordinance?

(No response).

No one else appearing, Commissioner Duffy moved that the hearing be closed.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The roll being called, the ordinance was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented An Ordinance to prohibit false labels and misrepresentation in the sale of certain food products and to provide penalties for the violation thereof, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr Meyer Zemel Mr Mayor and Commissioners, for the welfare of the community, both Jews and Gentiles, I would ask the introducer of the ordinance to withdraw it. Hearing none, I will ask his Honor the Mayor—

Mayor Ellenstein: Hearing none what?

Mr. Zemel: Not hearing the maker of the ordinance or the one that presented that ordinance to withdraw it, I will proceed further.

Mayor Ellenstein: You do not expect that ordinance to be withdrawn just on that bland statement, do you?

Mr. Zemel: For peace sake.

Mayor Ellenstein: Go ahead. Proceed.

Mr. Zemel: Well, I will ask his Honor, the Mayor, to withdraw entirely from the consideration of this ordinance on account of his friendship for some of the Rabbis who are involved in this ordinance. As a fair and square deal, I am ready and willing to have these four Gentiles judge this ordinance—

Mayor Ellenstein: Now, wait a minute. Just a minute. You know, you make me blush for you to inject anything like that of a personal nature. If you have any objections to the ordinance just state them without bringing in religious questions, which is unnecessary.

Mr. Zemel: It is religious sir. I as a representative Hebrew of my race am satisfied to let these four men sit as a jury.

Mayor Ellenstein: Just a minute. Just state your objections.

Mr Zemel: In the City of Newark we have approximately eighty or

eighty-five thousand souls of Hebrew extraction. Those twenty thousand Hebrew families are compelled, through their religious beliefs, to purchase their meat through 120 or 130 butchers who are an air-tight combine. The Jewish people of the City of Newark pay forty and fifty cents a pound for meat because of that condition. There are eight or ten independent butchers under the supervision of a Rabbi of an independent nature. These eight or ten independent butchers conduct their business where a poor Jew can go and buy a pound of meat for eight, ten or twelve or fifteen cents. We have a state law which makes it a crime for anyone to misrepresent meat that is not fit for a person of Hebrew extraction to eat. Why do you want this law?

Mayor Ellenstein: I will tell you why, because there is misrepresentation, and it is protecting those Jews who are orthodox and who desire kosher meat. Now, you think a person should be permitted to perpetrate a fraud upon another by representing that the meat is kosher when as a fact it is not. If there is a representation that the meat is kosher and it is found that it is not kosher, that is a fraud, isn't it?

Mr. Zemel: That is the law now. Why do you want another law?

Mayor Ellenstein: To further strengthen the law. This ordinance will permit a police court judge to dispose of the matter. The police magistrate will determine whether or not the meat is kosher, and if it is found to be kosher, that disposes of the matter, and there is no fraud. The Board does not propose to concentrate the power in any one or two or three Rabbis. On the contrary, the final authority to determine whether meat is kosher is vested in any Rabbi; any Rabbi who is qualified to determine it

then disposes of the matter. There is no intention to regulate religion; it is the sale of meat; and certain orthodox Jews want to purchase kosher meat; and where there is misrepresentation, irrespective of which Rabbi passes on it, it is not necessary for the Rabbi to have a badge if the Rabbi can determine and is qualified to do, as every Rabbi is, that meat is kosher, that disposes of the matter. It is unnecessary under this ordinance that the stamp of approval be put upon it by any one Rabbi or group of Rabbis. This ordinance simply follows the state law and just gives the sitting magistrate the opportunity of disposing of this, that is all.

Mr. Kenneth L. Rickel, representing the Association of Orthodox Congregations of Newark; Mr. Abram Popeck, 2 Farley Avenue; Rabbi Julius Silberfeld, 32 Ingraham Place and Mr. Mordecai L. Lipis, Lefcourt Building, appeared and objected to the proposed ordinance.

Mr. Harry H. Kuskin, 43 Goodwin Avenue, presented a petition requesting passage of the ordinance; Mr. Raymond Black, 687 Springfield Avenue, Mr. David Goldberg, 54 Watson Avenue; Mr. Louis Weiss, 24 Commerce Street, and Rabbi Blumenfeld, 94 Rose Terrace, favored passage of the ordinance.

Mayor Ellenstein: Is there any other person who desires to be heard?

(No response).

Commissioner Franklin: I move you, Mr. Mayor, that this matter be referred back to conference for the purpose of receiving the program of the churches when they are ready; and in the meantime that the hearing on the ordinance be adjourned for two weeks.

The roll being called, the motion

was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: Gentlemen, I might say that the motion is that it be sent back to conference and adjourned for two weeks from today.

Mr. Zemel: Mr. Mayor, being a Jew, it will be the holidays before two weeks, the Passover, and it is bad. If you will make it a month it would be just fine and we will be over the holiday. We are all Jews.

Mayor Ellenstein: The conference will be two weeks from yesterday, and you have two Mondays to appear before the Commission in conference, next Monday and the Monday following.

Mr. Rickel: It is going to be very hard to get the masses together during the holidays. It won't harm anyone, and I assure you it will be for the welfare of the community.

Mr. Lipis: I think two weeks is plenty.

Mayor Ellenstein: If you cannot accomplish it in two weeks we will take up the question of a further adjournment at that time.

Application of Enrico Core, owner, for the construction of a gasoline station; premises 539-541 Bloomfield Avenue; such use to be limited to eight years, on condition that all signs, fences and lighting devices meet the approval of the Board of Adjustment, the width of driveways to be subject to the regulations of the Bureau of Streets;

THEREFORE BE IT RESOLVED By the Board of Commissioners of the City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this?

Mr. Joseph Solomine, 478 North Eleventh Street: Mr. Mayor and members of the Commission, this permit for this gasoline station came up before the Board of Adjustment in 1931 and it was refused at that time. It came up again about three weeks ago and it was passed by a vote of three to two of the Zoning Board. We do not see any reason why if it was refused in the first instance, why it should be granted in the second instance. The granting of this permit is not necessary there at this time,

and I sincerely hope that the Board of Commissioners will turn this application down. We have practically all the property owners here present in opposition.

Mayor Ellenstein: Is there any other person who desires to speak in opposition? Do any of you ladies and gentlemen want to be heard? Do you want to address the Commission in opposition to this?

Mrs. Louise Steffanelli, 497 North Twelfth Street: We don't want a gasoline station there because it is a menace to the public. Our house is adjoining the property. It is a residential street.

Mayor Ellenstein: You live on Twelfth Street?

Mrs. Steffanelli: Yes. That is all I know.

Mayor Ellenstein: Any other person desire to be heard in opposition?

Mr. Giraldo Mirone, 184 Bloomfield Avenue: Mr. Mayor and gentlemen. I got over three or four hundred feet just around this gasoline station and I don't like to see it on Bloomfield Avenue because of my tax. We like to see apartment house on this corner so we got more population up there for the community.

Mr. James Mango, 810 Broad Street: Mr. Mayor and gentlemen of the Commission, when Mr. Solomine appeared before the Board of Adjustment and made his number known as to how many objectors there were, he had, he said, nineteen objectors.

Mayor Ellenstein: How about those in the immediate vicinity, the adjoining property owners, are they all opposed to it?

Mr. Mango: The adjoining property owners are relatives.

Mayor Ellenstein: Are they opposed to it?

Mr. Mango: Naturally, they are opposed to it. And Mr. Mirone owns across the street on the northwest corner. He is Mr. Steffalli's father-in-law. Now, to the north of the property in question is Mr. Steffanelli's private home. When the applicant for the gasoline station across the street made his application to the Board of Adjustment some time ago, Steffanelli brought to same objectors to that application. An on the adjourned hearing, which is the second time that that hearing came before the Board, he withdrew his objections. He first objected to it and then withdrew his objections. Now he comes along and tells the same story with the property in question. He then said that he would never—that is, the applicant before you—would never get his gas station permit if it was not for him, because he knew how to control it, and for a price—I say this because I can prove it and I have got people here—for a price he offered to withdraw his objection as to this permit. Now, I say his conduct is extremely inconsistent. It is not right, it is not fair, to say the least.

Commissioner Parnell: He offered you a price to withdraw?

Mr. Mango: Mr. Steffanelli offered a price—that is, he said for an offer of a price, by Mr. Core's paying the price, Steffanelli would withdraw his objection. Now, if he wants to make a business of it, if he wants to capitalize his ownership and his relationship and their ownership of property in that neighborhood, then we are subject to his control and not to the control of this Commission.

Commissioner Franklin: How many

gasoline stations are there within a distance of four blocks either way from this site?

Mr. Mango: There is one directly across the street on the southeast corner, and there is one on the corner of Eleventh Street and Bloomfield Avenue.

Commissioner Franklin: And?

Mr. Mango: That is within the radius.

Commissioner Franklin: And a little further down?

Mr. Mango: They are mostly—

Commissioner Franklin: Below Eleventh Street how many are there within a distance of three or four blocks?

Mr. Mango: They run all the way from Sixth Street up on the left side—no, the right side.

Commissioner Franklin: Probably a dozen from Sixth Street to Twelfth Street.

Mr. Mango: Yes, they go right up to the City line. This is right near the City line. I think the City line runs through at Thirteenth Street.

Mr. Solomine: I want to correct one impression. When Mr. Steffanelli was asked by one of the members of the Zoning Board, Mr. McDermott, whether he had withdrawn his opposition to the station across the street, he emphatically said no. And Mr. Steffanelli is here.

Mr. Mango: The record that was drawn by the stenographer, Mr. Pas-kow of the Board insisted on a responsive answer. He evaded the question four times. The fifth time he insisted on a responsive answer,

"Did you withdraw your objection on the second meeting?" He said, "Yes." That is a matter of record before the Board of Adjustment.

Mayor Ellenstein: Is there any other person who desires to be heard?

Mr. Louis Steffanelli: I do.

Mayor Ellenstein: You want to speak in opposition?

Mr. Steffanelli: Yes.

Mayor Ellenstein: You have had your opportunity.

Mr. Mirone: I forgot one word. We are going to build a bank on the opposite side, and if he builds a gasoline station the bank withdraws. We got a plan already drawn, and we want to see better business men than you run on gasoline. Two or three months you see a bank if you drop this proposition. And if not, we have to broke our bank.

Commissioner Duffy: I feel there are sufficient gas stations along the avenue there. I move the application be not concurred in.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

THE BOARD OF ADJUSTMENT
City Hall
Newark, New Jersey

March 7, 1934.

The Board of Commissioners
of the City of Newark.

Honorable Sirs:

At a meeting of the Board of Adjustment held this day resolutions were adopted recommending to your Honorable Body, in accordance with Section 9, Chapter 274, P. L. 1928, that the following applications for variations from the requirements of the Zoning Ordinance be allowed:

158-162 Wright St., The Atlantic Refining Co. (Avon Realty Co., William A. Bambridge and Charles A. Friberg, owners); gasoline station; on condition that plans be amended to show all pumps located twelve feet from the building line, a fire-resistant fence five feet high along rear line, a concrete curb eight inches high running along the line of the highway for the total distance between the driveways; signs, lighting devices and fences to meet the approval of the Board of Adjustment; such use to be limited to eight years;

1135-1155 Raymond Blvd., Boulevard Terminal Parking Co. (Public Service Electric & Gas Co., owner); the construction of two driveways on Raymond Blvd. and one on Mulberry St. in connection with an existing automobile parking station and gasoline station; recommended for the period of one year;

157 Wright Street, Premier Oil Co. (Sidney Simandl, owner); gasoline station; on condition that plans be amended to show one entrance on King St. and one on Wright St. (no entrance or exit on the Highway), a concrete curb eight inches high running along the line of the highway for the entire frontage of the property; signs, lighting devices and fences to meet the approval of this Board, such use to be limited to eight years;

123 Summer Avenue, Henry Bochner (Superb Building & Loan Association, owner); gasoline station; on condition that station is constructed according to the plans filed, and the signs, lighting devices and fences meet the approval of this Board; such use to be limited to eight years;

571 Springfield Avenue, Louis Richter (Samuel Gartenberg, owner); sale of motor oil from the curb, on condition that all signs and lighting devices meet the approval of this Board; recommended for a period of one year..

The Board of Adjustment,
R. B. Rankin, Secretary.

Received, copy to be sent to each Commissioner and further action postponed to March 27, 1934.

Mr. Louis Weiss, 24 Commerce Street: Mr. Mayor and Commissioners, I would respectfully urge you to consider the application of Henry Bochner today. I represent the applicant and Mr. Lubetkin represents the owner. Mr. Lubetkin, I am sure, will give you—

Mayor Ellenstein: You want a suspension of the rules?

Mr. Weiss: I would like to take it up under a suspension of the rules.

Mayor Ellenstein: There were no objectors, were there?

Mr. Weiss: No objectors whatsoever.

Commissioner Parnell: I move that the request for a suspension of the rules be granted.

The roll being called, the motion was declared adopted by the following votes.

Yeas Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolution:

WHEREAS, the Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Application of Henry Bochner (Superb Building and Loan Association, owner) for the construction of a gasoline station; premises 123 Summer Avenue, on condition that the station be constructed according to the plans filed, and that signs, lighting devices and fences meet the approval of the Board of Adjustment; such use to be limited to eight years;

THEREFORE BE IT RESOLVED, by the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Reginald Parnell

Mr. Jacob Lubetkin, 60 Park Place: I represent the building and loan association that owns that property. We have an opportunity to dispose of it. Not only the question of disposing of it, it is a question of getting some money that we need badly. We have

a great many urgent cases where people need some money, and these twenty-five and fifty dollar bills that we are permitted to advance under the building and loan restriction, if we can close this title this week we will be able to advance this money. Insofar as the merits of the case are concerned, there were 57 notices sent out and there was not single objector. The character of the neighborhood is such that it can only be utilized for a use similar to this one. The site is adapted and only suitable for use as an occupancy of this kind, and we ask the Board in this situation to grant us this permit under the suspension of rules.

Commissioner Duffy: I move the recommendation of the Board be concurred in.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mr. Meyer Ruback, 60 Park Place.

Mr. Mayor, I am told that the application of the Atlantic Refining Company for the permit on Wright Street went off for two weeks.

Mayor Ellenstein: That is the usual procedure. Then you come in next Monday and ask for a suspension of rules.

Mr. Ruback: I wish to ask you whether you would not now pass a resolution for a suspension of rules so the matter may be regularly before you next Tuesday. Two weeks postponement is hurtful to this applicant.

Mayor Ellenstein: You come in on that day.

Mr. Ruback: Do you say next Tues-

day you can accelerate this matter?

Mayor Ellenstein: Yes, by a suspension of the rules.

Mr. Ruback: I did not know you could do that.

Mayor Ellenstein: That is the general procedure: the recommendation comes up from the Zoning Board and two weeks elapse. Just as in this instance the recommendation came up and Mr. Lubetkin appeared here and asked for a suspension of rule. Your matter was laid over for two weeks.

Mr. John J. Clancy, Lefcourt Building:

Mr. Mayor, I have an application which is being held in abeyance until some course of procedure is decided on in the other applications of Mr. Ruback and Mr. Simandl. I would like to have my matter set down two weeks hence so it can be considered with the others in the same category.

Mayor Ellenstein: Will you take it up with Mr. Rankin?

Mr. Clancy: Yes.

Mayor Ellenstein: As I understand a permit was granted to you but prohibiting an exit on Rout 21.

Mr. Clancy: Pending your decision in these highway matters.

Mayor Ellenstein: Yes.

The roll being called, the resolution

was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell, Mayor Ellenstein.

Mayor Ellenstein: Are there any other zoning matters?

Mr. John J. Clancy, Lefcourt Building: Mr. Mayor, the matter of the application of the Tiverton Realty Company for a reconsideration of the granting of its permit for the construction of a gasoline station at 1240 Broad Street. The matter of the extension of the permit so as to permit the erection of a gas station on the highway was held in abeyance pending the determination of the Board on its policy. I understand since the time of the granting of the permit for the Broad Street frontage, an inspection has been made of the premises. I likewise understand there is no opposition to the granting of the permit for the highway.

Mayor Ellenstein: With this exception, Mr. Clancy, that your permit entails the condition that the improvement be \$1,000. Now, the Commission is now on record that the policy to be followed should be that a substantial improvement be made, particularly so on a property like you contemplate—your client contemplates using there. And the Commission feels that all plans should first go before the Building Department and be approved by the Building Department, that the improvement will be commensurate with the amount of ground used. For example, your plot here having an entrance and exit on Broad Street and one on State Highway No. 21, with an improvement of but \$1,000, you can see how the City will not derive full benefits from the land, at least, not commensurate with the business that most likely will come to your client.

Mr. Clancy: May I have the matter left this way, that I be granted a permit subject to the approval of the cost of the improvement, if you will, or the character of the improvement, by the Building Department?

Mayor Ellenstein: Well, it would all depend on what the determination of the Building Department would be as to the character of the improvement, with all things taken into consideration, the location of the gasoline station and the value of the land, in a case where you are tying up a property like that over a period of years, it would seem to me to be unfair to the other taxpayers who have improvements on their land. Now then, why don't you then file your plans and get the approval of the Building Department and have it come down to the Commission.

Mr. Clancy: I think I can follow that policy, and I think my client can too, because without the approval of the Building Department we cannot construct the improvement there anyway. I am perfectly willing that the limitations be imposed upon the granting of the permit, that the improvement to be erected thereon be subject to the approval of the Building Department. Frankly, it is a great deal easier to have a station erected and go ahead with the proposition when you know you have a permit with a limitation as to the character of the improvement.

BE IT RESOLVED, By the Board of Commissioners of the City of Newark, that Resolution No. 1557, adopted by this Board on February 27, 1934, concurring in the recommendations of the Board of Adjustment and approving the construction of a gasoline station on premises 1240-1242 Broad Street, be and the same is hereby rescinded.

a motion it be adjourned for two weeks.

Commissioner Duffy: I so move you.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell, Mayor Ellenstein.

WHEREAS, for and in connection with said sewer said City acquired lands adjoining said Bay Avenue and erected thereon, or partly thereon and partly on said Bay Avenue, buildings and installed and operated therein machinery and equipment to pump and dispose of sewage; and

WHEREAS, Bay Avenue in said City of Newark, Essex County, New Jersey, was by due process of law opened and laid out about the year 1885 and lands therein and therefor were appropriated or acquired by said City, and within the confines of said Avenue the City constructed and maintained pipes for or in connection with its water supply system and a sewer extending southwardly from

WHEREAS, in or about the year 1932 the City constructed within the lines of said Bay Avenue and at or near Pierson's Creek, two buildings to house machinery and apparatus used and operated in connection with the City's Airport; said buildings, machinery and apparatus being commonly called Radio Landing and Localizing Beams and herein for convenience referred to as Radio beams; and

WHEREAS, by ordinance adopted April 5th, 1933, by the Board of Commissioners of said City of Newark, the portion of said Bay Avenue extending northwardly from the northerly line of Port Street to the division line between the New York Bay Railroad, Main Line, and the Lehigh Valley Railroad, Main Line, was vacated; but said water pipe or pipes, sewer, pumping station and radio beams remain in operation in the locations aforesaid; and

WHEREAS, said City is the owner of some of the lands within the confines of said vacated Avenue and said pumping station tract, and pursuant to resolutions adopted by said Board of Commissioners on October 24th, 1933, said lands so owned by the City, together with other lands owned by said City, were duly advertised and sold at public sale on February 16th, 1934, to said The New York Bay Railroad Company, the highest bidder therefor; said lands of the City within said vacated Avenue having been sold as Parcels Numbers Fifteen and Sixteen and said pumping station site having been sold as Parcel Number Fourteen, as by reference to the advertisement of said sale description of said Parcels Numbers Fourteen, Fifteen and Sixteen will more fully and at large appear; and

WHEREAS, said sale of Parcels Numbers Fourteen, Fifteen and Sixteen was made subject to the right of said City to occupy and use, for the space of four years from the date of said sale, the buildings erected upon the land embraced in said Parcels Numbers Fourteen and Fifteen and used for said Pumping Station, and also the sewer (storm water sewer) and water pipes now in use and lying within the boundaries of said Parcels Numbers Fourteen, Fifteen and Sixteen; and also was made subject to the right of ingress and egress to said buildings and said

water pipes and sewer over the remaining portions of said Parcels Numbers Fourteen, Fifteen and Sixteen, unless the City should discontinue the use of said pumping station, water pipes and sewer prior to the expiration of four years from the date of said sale; and

WHEREAS, at the expiration of said term of four years the right of the City to maintain and operate said water pipes, sewer, pumping station and radio beams, on or within said Parcels Numbers Fourteen, Fifteen and Sixteen, will terminate and end; and

WHEREAS, said The New York Bay Railroad Company is the owner of some of the lands other than said Parcels Numbers Fourteen, Fifteen and Sixteen, within said vacated Bay Avenue, and is also the owner of considerable lands adjoining said Parcels Numbers Fourteen, Fifteen and Sixteen, and may require its lands, including said Parcels Numbers Fourteen, Fifteen and Sixteen, for or in connection with future railroad yard development; and

WHEREAS, said City has in contemplation the construction of a sewer, in extension or improvement of its sewer system, in DeLancy Street located northeastwardly of said Parcel Number Fifteen, which DeLancy Street sewer when constructed will render unnecessary, and permit the abandonment of, the present sewer and said pumping station located as above mentioned; but until such, or similar or ample, arrangements be made to dispose of the sewage (storm water) flowing through the present sewer, the City desires to extend the said present sewer southeastwardly from about the location of said pumping station, across lands of said The New York Bay Railroad Company to Pierson's Creek, thereby disposing of all need for said pumping station; and

WHEREAS, in connection with said City's water supply system and the serving the territory in the vicinity of Port Street and Avenue I, said City desires to make provision for the construction, operation and maintenance of water pipes in a pipe gallery or other protective means, beneath the surface of one of two strips of land, one thereof running parallel with and located northwestwardly of said Avenue I, and the other thereof within said sewer as now constructed (using said sewer as a pipe gallery) and extending therefrom across lands of said The New York Bay Railroad Company to Port Street, southeastwardly of Avenue I; and

WHEREAS, said City and The New York Bay Railroad Company have agreed that should said Railroad Company progress construction of its said yard and facilities prior to the expiration of said four-year period, then and in that case the City, within sixty days from the date of service of written notice on the City or its duly authorized agent or official, will (first) remove said pumping station; (second) remove said radio beams; (third) construct said extension of sewer to Pierson's Creek, and (fourth) relocate said water pipes to one of the above mentioned locations therefor, said locations for the sewer and water pipes being hereinafter more particularly described;

THEREFORE, BE IT RESOLVED by the Board of Commissioners of the City of Newark that it is for the public interest that the following plan be and the same is hereby adopted.

FIRST: That upon the expiration of the said four-year period or sooner, and within sixty days from the date of service of notice as aforesaid by said Railroad Company upon said City, it, said City, shall and will forthwith:

said water pipes to be relocated as

aforesaid in a pipe gallery or other protection satisfactory to said Railroad Company.

dredths of a foot; thence North Nineteen degrees eight minutes five seconds West two hundred and eleven feet and fifty-eight one-hundredths of a foot to the second course of the strip of land first above described; and thence along the same North sixty-five degrees thirty-eight minutes five seconds West twenty-seven feet, more or less, to the place of BEGINNING.

FOURTH: That all work to be done in connection with the removal of said pumping station and radio beams, the extension and maintenance of said sewer to Pierson's Creek, and the relocation and maintenance of said water pipes and the building of gallery or galleries therefor, shall be without cost or expense to said Railroad Company and shall be done at such time or times and in such manner as will not interfere with, impair or interrupt the safe and continued operation of the railroads located upon said lands; all work of construction and maintenance to be done to the satisfaction of said The New York Bay Railroad Company, under the supervision of its Chief Engineer and of the Chief Engineer of the Department of Public Affairs of said City.

BE IT FURTHER RESOLVED, that the City of Newark acquire from the owners of the property heretofore described an easement or right of way which will give the City of Newark the right to construct and maintain said sewer upon but beneath the surface of the first above described strip or piece of land, and the right to construct and maintain said water pipes and gallery on but beneath the surface of either (not more than one) of the strips of land secondly and lastly above described, subject and subordinate, however, to the rights of said The New York Bay Railroad Company to construct, use, operate and

maintain its railroad tracks and facilities thereon and thereover, and

BE IT FURTHER RESOLVED, that the Mayor be authorized to make, execute and deliver any agreements or other instruments necessary to effectuate the above public purpose which agreements or instruments shall be attested by the City Clerk under the Seal of said City of Newark.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell, Mayor Ellenstein.

Commissioner Duffy offered the following resolution:

WHEREAS, on December 13, 1917, the War Department of the United States of America purchased from The City of Newark 136.171 acres of land located in the Port of Newark area, known as "United States Army Supply Base"; and,

WHEREAS, the said land was conveyed to the United States Government by the Board of Commissioners of The City of Newark contrary to its adopted policy, and contrary to strong local opinion, particularly because the City, utilizing public funds, had expended large sums of money in reclaiming and improving meadow lands, part of which included the property in question, and, in addition, had dredged channels and had engaged in extensive dock and bulkhead construction, in furtherance of a general program of developing the Port of Newark area so that it would be attractive for the location of industrial and shipping interests, which

would result in income to the City by way of taxes, etc.; and,

WHEREAS, in contravention of its policy as aforesaid, The City of Newark, cognizant of the wartime need, sold the property in question to the War Department; and,

WHEREAS, since the date of the said conveyance to the United States of America, The City of Newark has continued and furthered its program of developing the Port of Newark area, and to date has expended approximately Twenty-two Million Dollars (\$22,000,000.00) of public funds; and,

WHEREAS, in 1922, and on several occasions thereafter, The City of Newark endeavored to re-purchase the said land from the Government and has made several offers, none of which was accepted; and,

WHEREAS, on November 27, 1926, the War Department entered into an agreement, as a result of which the property in question was leased to the Mercur Trading Corporation for a period of ten (10) years, with a reciprocal revocation privilege upon the giving of three months' notice in writing by either party; and,

WHEREAS, because of unfair terms and conditions of said lease, the said Mercur Trading Corporation has had a decided and unfair advantage in attracting shipping and other industries to use its facilities. As a result, not only The City of Newark, but, in addition, Newark business in competition with the said Mercur Trading Corporation, and tenants of The City of Newark in the Port of Newark area, have suffered substantial financial losses because of the unfair competition offered by the said Mercur Trading Corporation as a direct result of the lease previously referred to; and,

WHEREAS, the War Department of the United States of America still maintains title to the said premises, with a resultant loss in taxes to date to The City of Newark of approximately One Million, Five Hundred Thousand Dollars (\$1,500,000.00); and,

WHEREAS, the City of Newark has maintained the inshore channel, on which the property of the said Mercur Trading Corporation fronts, at an expense of approximately Three Hundred Thousand Dollars (\$300,000.00), with no financial return from the said corporation or the Federal Government; and

WHEREAS, the maintenance of the said channel by The City of Newark has resulted in shipping having free access to the docks and warehouses of the said Mercur Trading Corporation, with no financial return to the City; and,

WHEREAS, The City of Newark has derived no income by way of real estate taxes since the Mercur Trading Corporation took possession of the premises in 1926; and,

WHEREAS, The City of Newark has recently received several offers for the leasing of the said land;

THEREFORE, BE IT RESOLVED by the Board of Commissioners of the City of Newark, that the War Department be urged to immediately revoke the existing lease between it and the Mercur Trading Corporation; and

FURTHER, because of the loss to the City in taxes and other income that would normally have been derived from the property in question since 1922, that The City of Newark be given the opportunity to negotiate with the Government for the re-purchase of this property on terms commensurate with its present value.

Mr. Meyer Zemel, Mr. Mayor and

Commissioners, I understand the ordinance that has just been read refers to the sanitary plumbing code of the City of Newark.

Mayor Ellenstein: It refers to the penalty only. It does not change the ordinance now in existence. It makes it discretionary instead of mandatory with the presiding judge to fine. The Supreme Court has rendered a decision that any penalty that is mandatory is unconstitutional. So it just changes that phase of it from being mandatory to being discretionary.

Commissioner Franklin: This is a series of about nine ordinances where penalties exist for violations of various provisions of the Health Department which made the penalties mandatory. Now, because of the decision of the Court it is necessary to revamp our ordinances so as to make it discretionary with the judge rather than compelling him to impose that penalty. The penalty is the same.

WHEREAS, the Board of Adjust-

Application of Frank Puopolo (Gaetano Puopolo, owner) the construction of a gasoline station; premises 143-145 Delancy Street; on condition that all unoccupied areas be surfaced with concrete; that all signs, lighting devices and fences meet the approval of the Board; that the applicant be permitted to increase the cost of the improvements from \$2,500 to \$5,000; such use to be limited to a period of eight years;

THEREFORE BE IT RESOLVED, by the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Peter A. Cavicchia, Essex Building:

I appear in opposition. Your Honor and members of the Commission, this is a part of the City which is zoned against gasoline stations. This application originally came up about a year ago and the Zoning Board unanimously refused the permit. The lawyer for the applicant took the matter up on certiorari. The certiorari proceedings were abandoned and a new application was filed; and when the

matter came up before the Zoning Board three members of the Zoning Board voted to grant a permit and two voted against it. I respectfully submit this being a part of the City zoned against that sort of thing, that there are enough gas stations down there to supply the needs of the neighborhood.

Commissioner Minisi: How many objectors are there?

Mr. Cavicchia: Mr. Rankin has the list.

Commissioner Parnell: Congressman, the petition showed nineteen signed in favor and twenty-five signed in opposition and eleven signed both petitions. They were in favor and against at the same time.

Mr. Anthony A. Calandra, 31 Clinton Street:

Your Honor, Mr. Mayor, and gentlemen of the Commission: this application was presented to the Zoning Board about a year ago; and after testimony was taken before the Zoning Board they unanimously agreed to disallow the application. I applied for a writ of certiorari before Justice Parker just at the time that you gentlemen took office. Mr. Carpenter, then representing the Law Department, suggested to Justice Parker that he merely allow an order to show cause because he did not know whether he was going to be in office. The Law Department wrote an opinion stating the permit should have been granted because a use had been created in that neighborhood by a gas station. This new gas station is practically across the street from the one that is there now.

Mayor Ellenstein: I think it ought to be adjourned for two weeks.

Commissioner Duffy: We will make

a check through the Police Department. I move this matter be laid over for two weeks.

NEWARK TAXPAYERS' ASS'N
Incorporated
909 Firemen's Building
Newark, N. J.

April 14, 1934.

To the Honorable,
The Commissioners of the
City of Newark, N. J.

Gentlemen:

There is some question as to who may be appointed to serve as members of the North Jersey Water Board for the terms of those now about to expire, and if reports are true, it seems possible that the City of Newark may not be represented by one of our City Commissioners. Such a condition can not occur, if the City's interests are to be best conserved.

We therefore urge that every effort be made by your Honorable Body to secure the appointment of one of Newark's City Commissioners to serve the City in a large enterprise of which our City is the largest owner.

It will be remembered that the Citizens of this City have registered their desire, in no uncertain terms, that a change of personnel was desired in the management of the City's affairs, and the City water supply is one of the City's largest assets.

We therefore strongly urge that one of our City Commissioners be appointed to this important City department. Any other course will, in our opinion, constitute a breach of faith with the citizens of our City.

Thanking you for your favorable cooperation in this matter and assuring you that we will be glad to further cooperate in any way possible, we are,

Very truly yours,
Newark Taxpayers' Association, Inc.
H. Edward Wolf
President.

Commissioner Minisi: I move that the matter be presented at the next conference of the City Commission.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mr. James Mango, 810 Broad Street: Mr. Mayor and gentlemen of the Commission, I appear in behalf of the owner of property on Twelfth Street and Bloomfield Avenue. On the thirteenth of March an application came from the Board of Adjustment recommending a permit be granted and this Commission saw fit to deny that application. I now ask for a reconsideration of the application. I have a prepared map showing the location of every gasoline station from Sixth Street to Grove Street. I have also prepared an enlarged map show-

ing the character of every building within 200 feet of this property in question, showing the building of a gasoline station would not be a detriment to this neighborhood. I also have a petition with me signed by 31 people, residents of this location, in favor of the erection of this gasoline station.

Commissioner Parnell: I move the matter be reopened.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: This matter will be set down for two weeks from today, May 1st; and, of course, it will be necessary for you to notify all the people within the prescribed 200 feet and file an affidavit with the City Clerk. As I recall it at the time one of the objectors stated that he has anticipated using the opposite corner for a bank property. I suggest to you that you ascertain if that is the fact.

Mayor Ellenstein offered the following resolution:

WHEREAS, the persons herein-after mentioned have complied with the statute; and,

WHEREAS, no objections were filed and on one appearing in person to object;

BE IT RESOLVED, By the Board of Commissioners of the City of Newark that a permanent, plenary retail consumption license, expiring June 30th, 1934, be granted to each of them;

An Ordinance concerning automatic amusement games, of the type commonly known and designated as Bagatelle, Baseball, or Pin Amusement Games, and providing for the licensing and regulation of such machines maintained, operated or used within the City of Newark, and providing methods of regulation thereof, and prescribing penalties for any violation hereof.

The Board of Commissioners of the City of Newark, Do Ordain:

1. On and after the effective date of this ordinance, all automatic amusement games of the type commonly known and designated as bagatelle, baseball, or pin amusement games, or similar machines or devices, operated, maintained or used in any public or quasi-public place, or in any building, store or other place wherein the public are invited, or wherein the public may enter, and particularly, but not

by way of limitation, all coin operated automatic amusement devices, of the type commonly known as bagatelle games, baseball games, or pin amusement games, or similar machines or devices, operated, maintained or used as aforesaid, shall be licensed by the Director of Public Safety of the City of Newark before the same shall be placed, operated, maintained or used within the municipal limits of the said City of Newark.

2. The licenses for placing, operation, maintenance or use of such amusement devices or machines mentioned aforesaid shall be issued for the calendar year, commencing January 1st, and expiring December 31st at midnight, and the fee for the issuance of a license shall be Four Dollars (\$4.00) for the said calendar year, or any part thereof.

3. Before any device or machine mentioned aforesaid shall be placed, operated, maintained or used in any place prescribed by this Ordinance, there shall be affixed thereto, in a conspicuous place so that the same shall be easily and quickly identified, the license issued by the Director of Public Safety of the City of Newark, for the operation thereof, and no machine shall be so placed, operated, maintained or used after the effective date of this Ordinance until this be done.

4. The license issued pursuant to this Ordinance shall, on its face, disclose its serial number, the name and post office address of the licensee, and shall disclose the cost or charge for the use of said machine, and shall briefly state that the machine to which the same is affixed is licensed for operation by the City of Newark.

5. Nothing contained within this Ordinance shall prohibit the holder of this license from using the same within the calendar year for which it is issued, upon additional machines, provided the cost or charge for the operation of said machines be the same, and provided further that if the said license is removed from any machine taken out of use and placed upon another machine put in use, the machine from which it is taken shall not be again used until and unless a license be affixed thereto as required by this Ordinance.

6. No more than fifty (50) such licenses shall be issued to any person, firm, or corporation operating machines coming within the purview of this ordinance for any one calendar year.

7. No more than fifteen hundred (1,500) licenses for machines or devices within the purview of this ordinance shall be issued by the Director of Public Safety within any one calendar year, and of this total no more than three hundred (300) licenses shall be issued for said machines or devices in which the charge for use or operation is less than five cents.

8. The Director of Public Safety is hereby authorized to delegate any and all powers and duties conferred upon him by this Ordinance to any of his subordinates as he may deem necessary or proper, and the Director of Public Safety may, in his discretion, require periodical reports from the licensees to whom licenses are issued, but not oftener than one in every month, requiring them to disclose the type machine to which the license is affixed, the manufacturer's serial number of said machine, the location or locations of said machine during the period covered by the report, and the name and address of the owner or possessor of the location, whose per-

mission the license obtained for locating the machine on such premises, or any such place, and the Director of Public Safety may require that this report be rendered to him under oath.

9. No license shall be issued under this Ordinance to any person who has been convicted of a crime, and further no license shall be issued to any person who has been convicted of any offense against either the Crimes Act of the State of New Jersey, the Disorderly Persons Act, or against any City Ordinance, if the said offense for which the applicant was convicted was one of gambling, and, in the event that any licensee shall be convicted of any crime or shall be convicted of the offense of gambling, contrary to the Crimes Act, the Disorderly Persons Act, or any Municipal Ordinance, then the license of such person shall be forthwith cancelled and revert to the City of Newark, and all machines to which the said license may be affixed, or upon which it may appear, shall be deemed to be operated in violation of this Ordinance.

10. Every applicant for a license shall fill out a form of application disclosing his name, post office address, whether or not he has been convicted of any crime or offense within the purview of this Ordinance, the number of machines he desires to operate, and such other information as the Director of Public Safety of the City of Newark shall deem either necessary or proper, and the fee for the issuance of the license shall be payable immediately upon the issuance thereof.

11. Any operator of any device or machine within the purview of this Ordinance, and this shall include any person, firm, partnership, association, corporation, trustee or receiver, who shall knowingly and wilfully permit, use, or permit to be used, any of the machines licensed hereunder for pur-

poses of gambling, shall be deemed to be guilty of a violation of this Ordinance, and punishable therefore as hereinafter provided, but nothing in this Ordinance shall be construed to prevent the giving, granting or awarding of prizes, other than money prizes, to the person displaying the greatest amount of skill and adroitness in the operation of such machine during any daily, weekly or monthly period, provided, however, that no different charge or cost for the use of said machine shall be made in cases where any prize is offered, and provided further that the awarding of such prize shall be for the exercise of skill in the playing or operation of the said machine or device.

12. No machines coming within the purview of this Ordinance shall be licensed, used, placed, maintained or operated in any location within two hundred (200) yards of any school.

13. The word "person" or the word "operator" as used in this Ordinance shall mean any person, firm, partnership, corporation, association, trust, trustee or receiver.

14. Any person violating any provision of this Ordinance shall be subject to a fine not exceeding Two Hundred Fifty (\$250.00) Dollars, to be assessed and recovered in any Police Court of the City of Newark, or, in the case of a corporation or association, to be recovered in an action of debt in any court of competent jurisdiction, or shall be sentenced to the Essex County Jail for a period not exceeding thirty (30) days, or both, and, in addition thereto the Director of Public Safety may, in his discretion, revoke the permit or permits of any person so convicted if he is the holder of the same.

15. If any section, clause or provision of this Ordinance shall be adjudged invalid such adjudication shall

apply only to that section, clause or provision so adjudged, and the remainder of the Ordinance shall continue valid and effective.

16. All Ordinances or parts of Ordinances inconsistent with, or conflicting with this Ordinance are hereby repealed, and this Ordinance shall take effect immediately upon final passage and publication according to law.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. Meyer Zemel: Mr. Mayor and Commissioners. This ordinance is a good one. The purpose of the ordinance is to appoint John Linnett as Counsellor of real estate for the City of Newark and you are making no mistake. While I am opposed to the City going into further expense, this is a wise move. This man Linnett is capable, honest and fearless; he knows real estate as no other man knows it; has occupied the Chair of Real Estate in Rutgers University.

Mr. Henry Green: Mr. Mayor and gentlemen of the Commission, how much is his salary going to be?

Mayor Ellenstein: \$7,000 per annum.

Mr. Green: I do not object to a man getting a good salary, but is the man to devote his full time and engage in no other business?

Mayor Ellenstein: He is going to be engaged in this work entirely; and the purpose of this ordinance is to re-value and reassess the entire city. And he is going to devote all his time to that. Is there any other person who desires to be heard on this ordinance?

The Board of Commissioners of the City of Newark, N. J.

H. S. REICHENSTEIN,
City Clerk.

Newark, N. J., April 28, 1934.

A special meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date in the Mayor's Office at 11 A. M.

Present: Commissioners Duffy, Minisi, Parnell, Mayor Ellenstein.

Absent: Commissioner Franklin.

Commissioner Minisi: I move that we dispense with the reading of the minutes of the previous meeting.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Minisi, Parnell, Mayor Ellenstein.

The City Clerk read the following communication as a call for the special meeting:

THE CITY OF NEWARK, N. J.
Office of the Mayor

April 27th, 1934.

Mr. Harry S. Reichenstein,
City Clerk, City Hall,
Newark, New Jersey.

Dear Sir:

I hereby call a special meeting of the Board of Commissioners to be held in the Mayor's Office on Saturday morning, April 28th, 1934, at eleven o'clock, for the purpose of amending the Tax Ordinance, and adopting bond resolution.

Very truly yours,
Meyer C. Ellenstein,
Mayor.

Ordered filed.

The City Clerk presented An ordinance relating to taxes for the year 1934, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Does any citizen desire to be heard on this ordinance?

Mr. Meyer Zemel suggested that the Public Service pay taxes on personal property assessed at \$100,000,000.

Mayor Ellenstein suggested that Corporation Counsel Boettner gather facts and prepare a bill to be introduced in the Legislature permitting the city to tax the Public Service in that way, saying that Jersey City is weary of the gross receipts tax and would doubtless support Newark in an effort for a change.

Mr. Zemel stated he noticed that the engineers are going to the courts in an effort to get their pay put back to what it was. He stated if they are not satisfied let them look for other jobs.

Mayor Ellenstein stated he can't do anything about it because he is confronted with civil service; that his hands are tied in that respect.

Mr. Zemel made a plea to the Mayor to give the street cleaners more work.

Mayor Ellenstein stated he could not do this inasmuch as Mr. Brady told him the other day that he is going way over his budget now.

Mr. Charles S. Taylor of the Newark Taxpayers Association stated there are too many departments in the City Hall. He suggested a stagger

system for municipal employees, and a grouping of all engineering work under one head.

Mr. Zemel stated the city would get far more money in taxes if the five per cent gross receipts tax were done away and the levy made on the basis of assessment of personal property owned by the various Public Service companies here and taxes paid at the city's prevailing rate.

There being no one else to be heard, Commissioner Minisi moved that the hearing be closed.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Minisi, Parnell, Mayor Ellenstein.

Commissioner Minisi moved that the following ordinance be taken up on second reading:

An ordinance relating to taxes for the year 1934.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Minisi, Parnell, Mayor Ellenstein.

The clerk then read the ordinance by sections.

Title declared open to amendment.

The ordinance was declared open to amendments in all its parts.

Commissioner Minisi offered the following amendments:

Amend "Amount to be Raised by Tax" on Line 4 by the addition of the sum of \$2,770,000.00, so that same will read "\$23,688,305.30;"

Amend "Amount to be Raised by Tax" on Line 17 by the addition of the sum of \$300,000.00 for "General Interest" and also by the addition of the sum of \$2,470,000.00 on account of "Appropriation to Meet Deficit in Uncollected Taxes," so that same will read—" \$23,688, 305.30;"

Amend "Municipal Budget"—line 22 by adding the sum of \$2,770,000.00 so that the amount will read as follows:

Municipal Budget.....	\$23,610,115.52
Public School Budget....	8,940,293.00
	<hr/>
	\$32,550,408.52

Commissioner Minisi: I am going to make a motion that we amend the tax ordinance, but I would like to make a statement so that my position will be perfectly clear. I think it was the desire of the Board of Commissioners of the City of Newark to make every reasonable effort to keep the tax rate as low as possible. My people are heavy taxpayers in this City. I am satisfied that the Commissioners did everything within their power to keep the tax rate down to a point where we had it originally but this was impossible in view of the action taken by the Board of Freeholders. In view of that fact I think some drastic step must be taken. We are not here to play politics and I know the taxpayers resent having their taxes increased. The people, however, insist on receiving the same degree of service that they received in past years. We receive many, many communications from the people throughout the city to maintain a high standard of service, demanding that the school system be kept unimpaired and, on the other hand, we receive communications insisting that the school budget be cut. Many, many others insist just as strenuously that the school system be maintained in its present high degree of efficiency.

The County of Essex, however, has taken steps to enforce the payment of the debt due the county from the City of Newark. They have a writ of mandamus in their possession, and if it is enforced the City will practically come to a standstill. The schools will either have to close or the school teachers will be compelled to work without salary; the policemen, firemen and all the other employees of the City will be in the same position.

Commissioner Duffy: In seconding the motion I want to make my position clear. Earlier in the conference with the Commissioners and the Citizens' Finance Committee I stated I was opposed to the city selling the property for unpaid taxes; that I was opposed to the higher rate of interest for delinquent taxes and also to the amalgamation of all pension funds. At the present time we have no alternative, and I therefore second the motion.

Commissioner Parnell: As chief financial officer I want to state my position very plainly. I have expressed my opinion in the past. I don't think the city is faced with such a crisis that necessitates the inclusion of the sum of \$2,770,000 in the budget. This is no time to place any additional burden upon our taxpayers. For this reason I most certainly am opposed to add anything by putting any additional sum in the budget of the city that is going to increase the burden upon our citizens. I vote no.

Mayor Ellenstein: Of course I am opposed to increasing the tax rate, but in this instance we have no other alternative. It must be realized that

part of this money appropriated will be held as a surplus account for the taxpayers. The county of Essex has obtained a writ of mandamus against the City for the payment of county and state taxes. If this writ were enforced the county could levy on all the moneys coming into the City of Newark and thereby cripple our whole structure. It is very distasteful to the commissioners to increase the tax rate this year, but there is no other alternative but for us to put that additional sum in the budget if we are to prevent the county from coming down upon us and making effective the writ of mandamus. I therefore vote yes.

The roll being called, the amendments were declared adopted by the following votes:

Yeas: Commissioners Duffy, Minisi, Mayor Ellenstein.

Nays: Commissioner Parnell.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin introduced the following ordinance and moved its adoption on first reading.

The clerk then read the ordinance as follows:

An ordinance to license and regulate persons, partnerships, firms or corporations engaged in the business of retailing and delivering meat, meat products, poultry, fish (including shellfish), prepared and manufactured bakery products, vegetables, fruits, delicatessen products, candy, ice cream, fruit syrups, non-alcoholic beverages, eggs, dairy products, groceries and any and all other food products used for human consumption.

The Board of Commissioners of the City of Newark Do Ordain

1. It shall be unlawful for any person, persons, partnership, firm or corporation to engage in the business of retail dealer in meat, meat products, poultry, fish (including shellfish), prepared and manufactured bakery products, vegetables, fruits, delicatessen products, candy, ice cream, fruit syrups, non-alcoholic beverages, eggs, dairy products, groceries and any and all other food products used for human consumption in the City of Newark unless such person, persons, partnership, firm or corporation shall have first obtained from the Department of Health of the City of Newark a license so to do. Said license shall be issued by the said Department upon the payment of a fee of five (\$5.00) dollars for the first twelve hundred (1200) square feet of floor space or fraction thereof used in said business for the purpose of display or sale of said foodstuffs and one (\$1.00) dollar for every one hundred (100) square feet or fraction thereof in excess of this maximum.

Said license shall be issued from the 1st day of January, 1934, and shall expire on the 31st day of December, 1934, and shall thereafter be annually renewed in the same manner and subject to the same provisions by which the original license was obtained.

2. It shall also be unlawful for any person, persons, partnership, firm or corporation to deliver by means of wagons, trucks, automobiles or other vehicles or cause to deliver any meat, meat products, poultry, fish (including shellfish) prepared and manufactured bakery products, vegetables, fruits, delicatessen products, candy, ice cream, fruit syrups, non-alcoholic beverages, eggs, dairy products, groceries and any and all other food products used for human consumption in the City of Newark unless the wagons, trucks, automobiles or other

vehicles used for that purpose shall bear license plates issued by the Department of Health of the City of Newark. Said license plates shall be issued by said Department of Health from January 1, 1934, and shall expire on the 31st day of December subsequent to the date of issue and shall thereafter be annually renewed in the same manner and subject to the same provisions by which the original license was obtained. The fee for each wagon, truck, automobile or other vehicle so licensed shall be five (\$5.00) dollars. Said license plates shall be conspicuously placed upon each side of such wagon, truck, automobile or other vehicles and shall not be removed therefrom until the expiration or revocation of said license plates. No such license plates will be issued if any wagon, truck or other vehicle is not kept in a clean and sanitary state or is so constructed as to make proper sanitation difficult or impossible or if foodstuffs carried therein are from any source of supply which the Department of Health has reason to believe is not producing, manufacturing, preparing or handling the said foodstuffs under sanitary conditions or in conformity with standards equal to those required for the production, preparation and handling of foodstuffs in the City of Newark. Such license plates may also be rescinded and seized by the Department of Health if at any time the vehicle is found to be insanitary or conveying foodstuffs from any source of supply which the Department of Health may have reason to believe is unsatisfactory or unsuitable; provided, however, that nothing in this section shall require the licensing of any truck, automobile or delivery wagon that delivers foodstuffs from stores already licensed under this ordinance and that do not vend, sell or retail foodstuffs to customers upon their routes.

3. It shall be unlawful for any person, persons, partnership, firm or

corporation to retail or vend from any wagon, truck, automobile or other vehicle or sell from house to house as a vendor upon wheels or cause to be delivered any meat, meat products, poultry, fish (including shellfish), prepared and manufactured bakery products, vegetables, fruits, delicatessen products, candy, ice cream, frozen water ices, fruits syrups, non-alcoholic beverages, eggs, dairy products, groceries, and any and all other food products used for human consumption in the City of Newark unless the wagons, trucks, automobiles or other vehicles used for that purpose shall bear license plates issued by the Department of Health of the City of Newark. Such license plates shall be issued by said department from January 1, 1934, and shall expire on the 31st day of December subsequent to the date of issue and shall thereafter be annually renewed in the same manner and subject to the same procedure under which the original license was obtained upon payment of a fee of fifty (\$50) dollars for each wagon, truck, automobile or other vehicle to the said Department of Health. Such license plates shall be conspicuously placed, one on outside of each side of such wagon, truck, automobile or other vehicles and shall not be removed therefrom until the expiration or revocation of said license plates. No such license plates will be issued if the vehicle is not in a sanitary condition or be so constructed as to make proper sanitation difficult or impossible or if foodstuffs carried thereon are from any source of supply which the Department of Health has reason to believe is not producing manufacturing, preparing and handling said foodstuffs under sanitary conditions or in conformity with standards equal to those required for the production, manufacturing, preparation and handling of foodstuffs in the City of Newark. Such license plates may also be rescinded and seized by the Department of Health

if at any time the vehicle is found to be insanitary or conveying foodstuffs from any source of supply which the Department may have reason to believe is unsatisfactory; provided, that a vendor or canvasser of foodstuffs as described herein retailing the same upon foot, and door to door, shall pay a license fee of ten (\$10) dollars per annum, which license fee shall be issued January 1, 1934, and shall expire on the 31st day of December subsequent to the date of issue and shall thereafter be annually renewed in the same manner and subject to the same procedures by which the original license was obtained.

4. It is further understood, agreed and made a condition of the issuance of license plates to any wagon, truck, automobile or other vehicle, delivering, retailing or vending any meat, meat products, poultry, fish (including shellfish), prepared and manufactured bakery products, vegetables, fruits, delicatessen products, candy, ice cream, frozen water ices, fruit syrups, non-alcoholic beverages, eggs, dairy products and groceries that the person, persons, partnership, firm or corporation obtaining such license plates will permit inspectors from the Department of Health, at least once every three months, to make an inspection of the premises where such foodstuffs are produced, manufactured, prepared and handled for the purpose of investigating the condition of such premises and to determine whether these foodstuffs are being produced, manufactured, prepared and handled in conformity with standards equal to those required for such foodstuffs in the City of Newark. All expenses and costs of such inspections must be borne by the person, persons, partnership, firm or corporation securing these license plates within ten (10) days after the Department of Health shall have sent notification of the cost of any inspections made of

their premises to them, forward to said Department a remittance covering such cost. In the event of failure to make such payment the Health Officer may revoke the license plates granted under the provisions hereof.

5. Any person, persons, partnership, firm or corporation violating any provisions of this ordinance shall, upon conviction thereof, pay a fine not exceeding fifty (\$50) dollars for the first offense and not exceeding twenty-five (\$25) dollars for each succeeding day that said violation continues; and upon default of said fine shall be committed to the county jail for a term not exceeding forty-five (45) days; any corporation violating this ordinance shall pay a fine not exceeding fifty (\$50) dollars for the first offense and not exceeding twenty-five (\$25) dollars per day for each succeeding day that the violation continues, the same to be recovered in an action of debt.

6. If for any reason it may be construed by any court of jurisdiction that any action or sections of this ordinance shall be inoperative and unconstitutional then such judicial decision shall not render the remainder of this ordinance inoperative.

7. All ordinances and parts of ordinances inconsistent with the provisions hereof be and the same are hereby repealed.

8. This ordinance shall take effect immediately upon final passage and publication according to law.

Mr. John H. Yauch, Jr., Lefcourt
Building:

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Parnell offered the following resolution:

BE IT RESOLVED, by the Board of Commissioners of the City of Newark, that resolution No. 1557, adopted by this Board on February 27, 1934, concurring in the recommendation of the Board of Adjustment and approving the construction of a gasoline station on premises 1240-1242 Broad Street, be and the same is hereby rescinded.

Reginald Parnell
A. F. Minisi
Pearce R. Franklin

M. C. Ellenstein

Mr. Mayor and Commissioners, Mr. John Clancy represents the applicant, and he had to appear before Chancery Court in Trenton today, and asked me to appear here for him. I believe there is some restriction, that is you cannot enter from Broad Street and leave by the Highway. I think conditions have changed down there since this application was originally made, and there is really no necessity for that restriction at this time.

Commissioner Franklin: That condition was imposed by the Building Department?

Commissioner Duffy: No.

Mayor Ellenstein: Wasn't there a question raised as to the insufficiency of the improvements on the property?

Mr. Yauch: I understood there was some doubt as to the location of the

Highway, but the Highway has been definitely established and located.

Mayor Ellenstein: Originally a permit was granted to enter and leave on Broad Street. At that time the Commission was undecided whether they were going to permit any gasoline stations along Highway Route 21. Then subsequent to that, the Commission passed a resolution requiring that the plan for the improvement be approved by the Building Department. The plan not having been approved by the Building Department, of course, precluded the exit on Route 21. Now, I understand the plan has been approved by the Building Department, insofar as the sufficiency of the improvement is concerned.

Now your application is that the permit be extended so as to permit ingress and egress on Route 21 as well as Broad Street?

(The City Clerk read the restriction.)

Mayor Ellenstein: I do not see why there should be that limitation when it will not interfere with traffic.

Commissioner Duffy: I move you, Mr. Mayor, that this previous resolution be rescinded.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin: I move you, Mr. Mayor, that the request of the applicant that the restriction on entrance and exit be removed, be granted.

The roll being called, the motion was declared adopted by the following votes:

Yeas Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolutions:

Application of Harry Bender (Tiverton Realty Co., owner) for the construction of a gasoline station; premises 1240-1242 Broad Street; on condition that all signs, lighting devices and fences meet the approval of the Board of Adjustment; such use to be limited to a period of eight years:

THEREFORE BE IT RESOLVED, by the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

We are pleased to report to you that there are 23 out of 30 owners who have signed in favor of the applicant, and two are indifferent.

Mrs. Schaner: Yes, I was not notified then; never heard anything about it.

Commissioner Minisi: Is your property in Newark or Bloomfield?

Mrs. Schaner: In Newark.

Mayor Ellenstein: This gasoline station has been in existence for four years. Did you raise any objection with anybody during that period that you had not been notified?

Mrs. Schaner: No.

Commissioner Minisi: Has the station been in operation four years?

Mayor Ellenstein: Yes. She says she was not notified four years ago and she raised no objection. Your objection is it will depreciate the value of your lot?

Commissioner Minisi: Why didn't you complain, madam, when they obtained the gasoline station permit?

Mrs. Schaner: I was not aware of it. It is only a short time since I saw that lot, because we used to live in Newark, and we never go down in that direction.

Commissioner Minisi: In four years you did not know this station was being operated?

Mrs. Schaner: Not until about a year or so ago. And I did not think it would be any use of complaining when it was up. You see, I do not go down in that section.

Commissioner Minisi: Inasmuch as only one objector appears opposing the granting of this application, that fact is an indication to me that the operation of this station has not had a great detrimental effect on the neighborhood. I move we concur in the action of the Zoning Board.

WHEREAS Essex County has been successful in its court action in securing a writ of mandamus against the

City of Newark for the payment of the delinquent 1933 State and County taxes amounting to over Seven Million Dollars (\$7,000,000), and

WHEREAS by reason of the general financial conditions and the failure of a large proportion of its taxpayers to meet their obligations, the City of Newark finds it increasingly difficult to borrow against delinquent taxes, and in anticipation of taxes for the current year, and

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Louis Stefanelli, 497 North 12th Street: I would like to have this mat-

ter adjourned for two weeks. I am opposing it.

Mr. James Mango, 810 Broad Street: Mrs. Stefanelli called me on the telephone the day before yesterday and asked to see the plans for the gas station, and I went up to the house and met Mr. and Mrs. Stefanelli and showed them the plans, and he said that it would not come up tomorrow anyway, because he was going to ask for a postponement; but he would do this as a compromise, to withdraw the objection, if I would consent to remove the pit, which is the elevator that raises a car when you grease a car, away from the north line of the property, and put it on the east side, that he would withdraw the objection.

Mayor Ellenstein: What objection have you to an adjournment if you can get together with the objectors?

Mr. Mango: Because the case is not going to be any different two weeks from today than it is today. May I ask your Honor that this matter be put on then for two weeks, with no further adjournments.

Mayor Ellenstein: Now, you cannot bind the Commission to anything like that. There may be something happen that is unforeseen, in two weeks; something may occur; he may have a serious illness, he may be in a hospital. You cannot bind the Commission to that, that there will be no further adjournment

Commissioner Duffy: I move the

The City Clerk presented the application of Lord Realty Company (Cedar Hall Realty Co., owner) for an addition to an automobile parking station; premises 1233 Raymond Boulevard; approval recommended for one year ending January 2, 1935, on condition that signs and lighting devices meet the approval of the Board of Adjustment.

Mr. Joseph L. Lippman, 17 Academy Street, appeared in favor of the application.

Mr. A. K. Braelow, representing Mr. Solon C. Rothrock, owner of property located at 53 Academy Street, appeared and opposed granting of the application.

Mr. Milton P. Sacks, 273 Belmont Avenue, representing the New Jersey Parking Company, located at 198-202 Washington Street, appeared and opposed the granting of the application.

Commissioner Duffy: I feel there should be an investigation made by the Traffic Department, and the Commissioners should look it over themselves.

Commissioner Franklin: I move you, Mr. Mayor, that this matter be deferred to June 20th in order that a check-up can be made from the standpoint of traffic, by the police, and to give the City Commissioners an opportunity to inspect this property.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

Mr. Lippman: Do we have to advise the same proponents and voice the same objections over again?

Commissioner Parnell: You have to come and make your application.

Mr. Lippman: It will be either moved or rejected without any further comment?

Mr. Braelow: If the Board please, I do not feel we should be restricted without any further comment. I feel if there is anything else that we discover that is cause for objection down there, we should have an opportunity—

Commissioner Parnell: We will be glad to hear any new matter.

Commissioner Franklin offered the following resolutions:

WHEREAS, the Board of Adjustment has certified in writing to this Board that it has approved, on appeal from the refusal of the Superintendent of Buildings, an application for a variation from the requirements of the Zoning Ordinance, and recommends that the following structure or use for which application was made be allowed:

Application of Enrico Core for the construction of a gasoline station; premises 539-541 Bloomfield Avenue; for a period of eight years, on condition that signs, fences and lighting devices meet the approval of the Board of Adjustment; width of driveways subject to regulations of the Bureau of Streets;

THEREFORE BE IT RESOLVED, by the Board of Commissioners of The City of Newark that the recommendations of the Board of Adjustment be and the same are hereby approved, and the Superintendent of Buildings, the administrative officer in charge of granting permits, be and he is hereby directed to issue a permit for the application above set forth.

Mr. Louis Steffanelli, 497 North Twelfth Street:

I just want to say a few words with reference to this station. If the Commissioners feel that this permit should be granted, I want the driveway away from my adjoining property. I have a one-family house there and I don't want it to interfere with my approach in there.

Commissioner Minisi: Can that be arranged?

Mr. James Mango, 310 Broad Street:

The driveway is 28 feet away from his line,—in fact, 28 feet away from our line, and then there is a 12 foot area and driveway away from his house, so it is really 38 feet from the house.

Commissioner Minisi: Your driveway, as you contemplate constructing it—

Mr. Mango: 28 feet away from the line and 40 feet away from the house.

Mr. Steffanelli: Another thing, there is a toilet on the service station that the view of that would be seen by my window, that I want some lattice work there that you cannot see through that.

Mr. Mango: He wants a blind put up in front of the compartment that constitutes the toilet.

Commissioner Duffy: Can that be arranged?

Mr. Mango: Yes.

Mr. Steffanelli: I own 99 per cent. of the property there, and I do not believe this station is needed in that neighborhood.

Commissioner Parnell: Is that satisfactory, if he puts the driveway—how far from your house do you want it?

Mr. Steffanelli: About 27 feet.

Commissioner Parnell: And you want lattice work put up to secure the comfort station?

Mr. Steffanelli: That is right.

Mr. Mango: The new plan suggested is that the toilet appearing on top of the plan, which is the toilet in question, shows the entrance from the outside into the toilet. Mr. Steffanelli wants lattice work put in front of the portion of the building which is the toilet so there will be no view from his house into the toilet proper. That is satisfactory. The driveway, as now constituted, starts 28 feet from our northerly line, and there is a distance from our line to his property of ten or twelve feet, which constitutes his driveway to his property, so it is actually 40 feet away from the house.

Commissioner Parnell: That is agreeable?

Mr. Steffanelli: I would rather have one driveway on that street instead of two. But I want that fence remaining. It is my fence, and I would like to have the fence uniform. But what I got up there, instead of having a

big fence of a gasoline station, I would rather have my own fence stand out.

Commissioner Minisi: Is your fence on your land?

Mr. Steffanelli: Yes.

Commissioner Minisi: They cannot touch your fence. That is your property and they cannot touch it.

Mr. Mango: If it is on his property we cannot touch it.

Mr. Steffanelli: I want an understanding they cannot take that fence down. I have got about 400 feet of it.

Commissioner Minisi: They cannot touch it if it is on your property.

Mr. Mango: I will agree not to take his fence down.

Commissioner Minisi: I move we concur in the action of the Zoning Board.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

Mr. Michael F. Judge, 207 Market Street:

I am appearing in the matter of the application of Joseph Feldheim, and I respectfully request a suspension of the rules and that you hear the matter at this time. His lease begins June 1, and I understand there is considerable work to do yet, and a week's time saved will be of great value to him.

Commissioner Duffy: I move the rules be suspended.

The roll being called, the motion

was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

WHEREAS, on May 16, 1934, the Board of Adjustment certified in writing to this Board that it has approved, on appeal from the refusal of the Zoning Enforcement Office the following application for a variation from the requirements of the Zoning Ordinance, and recommends that the structure or use for which application was made be allowed;

Application of Joseph Feldheim (Arthur B. Spinning, owner) for an automobile parking station; premises 586-592 Broad Street; for the period of one year, on condition that cars enter and leave by Broad Street only, that fences be erected along Broad and Rector Streets, and that signs and lighting devices meet the approval of the Board of Adjustment;

THEREFORE BE IT RESOLVED, by the Board of Commissioners of the City of Newark, that the recommendations of the Board of Adjustment be and the same are hereby approved, and the administrative officer in charge of granting permits in connection therewith be and they are hereby authorized to issue the necessary permits for the application above set forth, in conformity with the terms of this resolution.

Mr. Michael Commins, 309 Hazelwood Avenue: Mr. Mayor and Commissioners, I appeared before you yesterday in regard to 134 Court Street. Mr. A. King Braelow, 1060 Broad Street

Mr. Mayor and Commissioners, three weeks ago I represented Mr. Rothrock, a property owner within the required noticed zone and objected to this application, setting forth that the traffic conditions were such as to make it a hazard. I again voice the same objections.

Mr. Milton P. Sacks, 273 Belmont Avenue:

Mr. Mayor, on the same date I voiced my objections on behalf of the New Jersey Parking Company, on the fact that this applicant was on Raymond Boulevard in close proximity to my clients, tenants of the City of Newark; that they pay the high rental of \$9,400 a year.

Commissioner Minisi: How many cars can they get in the station?

Mr. Sacks: They can get about twenty cars, I believe.

Commissioner Minisi: You feel that has been a considerable loss to your client.

Mr. Sacks: Yes, because of the fact that there is a big turnover.

Commissioner Minisi: I think parking facilities today add to the value of property. Business cannot be conducted in any downtown section in the City unless parking facilities are made available.

Mayor Ellenstein: I cannot see how it is going to affect the value of property, particularly so since it is a high-speed highway. If you get parking around there you are more apt to get shoppers and stores. There is more likelihood of a person going through a high-speed highway and not stopping to make purchases.

Is there any other person who wants to be heard?

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Gustave Wickstrand, owner, for the construction of a gasoline station; premises 414

Orange Street; for a period of eight years, on condition that signs, lighting devices and fences meet the approval of the Board of Adjustment;

And the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Irving Silver, 31 Clinton Street:

I appear in opposition. There is a station only 35 or 40 feet from this proposed station, which has been there for 17 or 18 years, which amply provides facilities for motorists on Orange Street and Second Avenue and the vicinity. Another station on that corner would be hazardous to the school children.

Mayor Ellenstein: May I ask who you represent?

Mr. Silver: I represent the owner of property at 406-408 Orange Street, which is only about 35 or 40 feet from this corner.

Mayor Ellenstein: You represent the gasoline station that is now in existence on Orange Street?

Mr. Silver: Exactly. The station is owned by a widow and it is leased to someone else. If a station is erected on that corner there is going to be competition. Her main livelihood depends upon the return of this particular station.

Mayor Ellenstein: Is there any other person who desires to speak in opposition?

Mr. Simon Englander, Kinney Building:

I appear in opposition to this matter. Orange Street narrows down and is probably about forty-some odd feet across, very little over 40 feet. Opposite the property runs the railroad right of way, and in the middle of the street are car tracks running east and west. Second Street is one of the narrow streets in the City of Newark. Petitions have been filed in this matter on both sides of the question. The petitions of the proponents bear eight good signatures of the residents within the district. There are twelve good names against the thing, and I have additional three more against it, so that there are 15 residents within the district, owners of property, who are opposed to the thing, and only eight in favor of it.

Mayor Ellenstein: I see by these petitions that there are eleven in favor of it, is that right?

Mr. Raymond H. Berry, 60 Park Place: That is right.

Mr. Englander. One of them is not a proper owner, another one has signed both petitions, and another one a tenant has signed instead of the owner.

Mayor Ellenstein: You have 15 property owners in opposition?

Mr. Englander: We have 15 property owners in opposition.

Mr. Berry: This application was unanimously recommended to this honorable body by the Board of Adjustment, and the arguments that have been advanced this morning were advanced there. This proposed gasoline station is on a business artery, not in a residential section; it is opposite a railroad and it is a corner property, and gives free access, con-

trary to the access that is had and which is a menace in the gasoline station now operated by the one and really only objector to this gasoline station.

Mayor Ellenstein: This petition was presented to the Zoning Board, wasn't it?

Mr. Berry: Yes.

Mr. Rankin: Out of 31 property owners I count eleven in favor, and ten against, before our Board. One of those signed both ways.

Mayor Ellenstein: Now you say there are three additional?

Mr. Englander: Three additional. I just handed up that petition.

Mayor Ellenstein: Have you that petition? Are these valid signatures?

Mr. Englander: Yes, sir.

Mayor Ellenstein: Is there any other person who desires to be heard?

Commissioner Minisi: Mr. Mayor, I am going to make a motion to dispose of this matter. I do want to make a little statement first. While it is true we cannot guarantee to preserve the character of any neighborhood, still it is my firm opinion that when any person invests his life savings in a dwelling, he has a right to expect that the governing board of that municipality is going to do everything to maintain the character of that neighborhood in accordance with the wishes of the majority of the people who live there. I think that the matter has been presented fully; both sides have been heard; and it is my feeling that the majority of the property owners there are against it, and I think their wishes should be respected. I am going to move that we reverse the action of the Zoning Board.

Commissioner Duffy: I second the motion.

The roll being called the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

BOARD OF ADJUSTMENT
City Hall
Newark, N. J., June 20, 1934.

The Board of Commissioners
of the City of Newark.

Honorable Sirs:

At a meeting of the Board of Adjustment held this day resolutions were adopted recommending to your Honorable Body, in accordance with Section 9, Chapter 274, P. L. 1928, that the following applications for variations from the requirements of the Zoning Ordinance be allowed:

398-404 Chancellor Avenue, Carl Schwartz, owner; gasoline station, for a period of eight years, on condition that signs, lighting devices and fences meet the approval of this Board;

119 Bergen Street, Alfredo Adinolfi, owner; retail ice depot, for the period of one year;

443-445 Bloomfield Avenue, Red Seal Motors, Inc.; gasoline station addition, for the period of eight years, on condition that signs, lighting devices and fences meet the approval of this Board;

595-597 Ogden Street, Charles H. Bennett, Jr.; lunch wagon, for a period of five years, on condition that signs meet the approval of this Board;

42 Elm Road, Donato Quagliato, owner; retail ice depot, for the period of one year, on condition that signs meet the approval of this Board;

71 Springdale Avenue, Hugo A. Seiler, owner; gasoline station, for a period of eight years, on condition that the use of portable gasoline tanks be discontinued, signs and lighting devices to meet the approval of this Board;

117-121 Hudson Street, Joseph E. Kassay; sale of used automobiles, for a period ending August 8, 1935;

26 Treat Place, Jack Cohen; manufacture of buttons, buckles, etc., for the period of five years.

The Board of Adjustment,
R. B. Rankin, Secretary.

Received, copy to be sent to each Commissioner, and further action postponed to July 12, 1934.

Mayor Ellenstein: I understand there are several persons here who desire to have the rules suspended.

Mr. Louis L. Feinseth, 164 Market Street:

Mr. Mayor, on the application of Charles Schwartz, owner, for a gasoline station at 398-404 Chancellor Avenue—

Mayor Ellenstein: Were there any objections to this application?

Mr. Rankin: There were at the meeting.

Mr. Feinseth: They failed to have their objections by appearing here today.

Mayor Ellenstein: This is not the designated day for the hearing.

Mr. Feinseth: May I respectfully ask this Board to suspend the usual rule?

Mayor Ellenstein: That has not been the policy of the Board to suspend the rules where there has been any opposition. That does not give fair notice to the objectors. They have a right to assume that this application will not come up until two weeks from the time the Zoning Board passes on it. They would have no notice of it being heard today. The Board has always extended the courtesy to anyone who comes and shows there has not been any opposition, or that they would be prejudiced by waiting for two weeks.

Mr. Feinseth: Mr. Mayor and Di-

rectors, may I say this, that at the hearing before the Zoning Board there was not one objection, or one feasible ground for objection on the part of the objectors that were advanced.

Mayor Ellenstein: Well, of course, the Board would have to determine that.

Mr. Henry Green: May I ask how close this place is to the two schools on Chancellor Avenue?

Mr. Feinseth: Oh, it is at least a quarter of a mile.

Mayor Ellenstein: Irrespective of taht, after all, you should consider the property owners in that vicinity. If they were any objections at all they should be given an opportunity to be heard.

Commissioner Franklin: Still, the law requires that we give notice to the objectors that they may appear before the City Commission.

Mr. Feinseth: Director Franklin, is that really the law or is it the custom.

Commissioner Franklin: It is the law. They are entitled to be notified, all those within 200 feet.

Commissioner Duffy: If it is a custom, it is a good custom.

Mayor Ellenstein: There are at least a dozen objectors.

Mr. Feinseth: All tenants in the apartment house of the owner.

Mayor Ellenstein: There is nothing here to indicate whether they are tenants or owners—yes, there are several tenants—but the rest are owners.

Commissioner Franklin: You may have a good case, but they are entitled to be heard.

Mayor Ellenstein: It will be heard on July 12.

Mr. Pasquale Long, 441 North 13th Street:

There is a station on the premises now. It is a lubrication establishment.

Mayor Ellenstein: There were not any objectors?

Mr. Long: No objectors whatsoever.

Mayor Ellenstein: Your application is that the rules be suspended?

Mr. Long: I would like to have them suspended if I may.

Commissioner Duffy: I move that the rules be suspended.

The roll being called the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolutions:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Red Seal Motors, Inc. (Howards Savings Institution, owner), for the construction of an addition to a gasoline station; premises 443-445 Bloomfield Avenue; on condition that signs, lighting devices and fences meet the approval of the Board of Adjustment; such use to be limited to the period ending eight years from date;

Mr. Seiler: Yes, sir.

Mayor Ellenstein: We are informed there were two objectors in your case, and the policy of the Board has been not to suspend the rules, and and to give an opportunity to those who object to be heard. They have had no notice of your application for a suspension of the rules. We would like to help you, but in all fairness, it will have to take the usual course.

The minutes of meeting of August 1st were read and approved.

Commissioner Duffy offered the following ordinance and moved its adoption on first reading.

The clerk then read the ordinance as follows:

An Ordinance concerning the regulation of vehicles commonly known as "wreckers" and the licensing of the owners and drivers thereof.

Be it ordained by the Board of Commissioners of The City of Newark:

Section 1. DEFINITIONS.

(a) A "wrecker" is a public vehicle driven by mechanical power and employed for the purpose of towing, transporting and/or conveying or removing any and all kinds of vehicles which are unable to be and/or actually are not operated under their own power; for which services a charge or fee is exacted.

(b) A "wrecker stand" is a section of a public street or public place, set

apart for the exclusive use of a wrecker or a limited number of wreckers, when such section or place is distinctly marked as such by a sign or other indicia designating such wrecker stand.

(c) "Persons" shall include a firm, co-partnership, association and corporation and the singular or plural, the masculine, feminine or neuter thereof unless the contrary is clearly expressed.

(d) "Cruising" is hereby defined as the driving of an unengaged wrecker to and fro along a public street at a slow rate of speed or in any other fashion calculated for the obvious purpose of soliciting business along the public highway.

Section 2. The licensing and inspection of wreckers and the determination of the adequacy and sufficiency thereof, the examination of applicants for licenses to drive such wreckers, if any examination be herewith established, the licensing of drivers, as hereinafter provided for in this ordinance, shall be under the control of the Director of the Department of Public Safety, and the enforcing of the provisions of said ordinance shall be under the control of the Director of the Department of Public Safety.

Section 3. No "wrecker" shall operate hereafter upon the streets of the City of Newark, without first obtaining a license from the Director of the Department of Public Safety of the City of Newark, which shall be issued to expire one (1) year from the date of issuance, unless sooner suspended or revoked by the said Director of the Department of Public Safety. The annual fee to be paid for such license shall be the sum of Ten Dollars (\$10.00).

Section 4. All applications for licenses for "wreckers" shall be made by the owner, lessee or bailee thereof, upon blank forms to be furnished by the said Director of the Department of Public Safety, and such application shall contain the full name and address of the owner, lessee or bailee and also of the applicant; the type of vehicle for which the license is desired; the length of time the vehicle has been in use; the proposed rates to be charged and any other information which the said Director of the Department of Public Safety shall deem necessary and proper for the full protection of the public's interest; which said application is to have affixed thereto an affidavit to be sworn to by the applicant.

Any licensee desiring to change the rate which has been expressed in the said application shall file notice of such intention with the Director of the Department of Public Safety. "Wreckers" which have been licensed on application, designating a fixed rate within the City limits shall carry their customers to destinations outside the City limits, at a rate to be mutually agreed upon prior to the hiring.

Section 5. The Director of the Department of Public Safety shall have the power to issue or refuse a license.

Section Six. The Director of the Department of Public Safety shall have the power to cause an examination and inspection to be made of the vehicle for which the license is sought and no vehicle shall be licensed unless it be in a thoroughly safe and sanitary condition. If, at any time, the Director of the Department of Public Safety shall deem the equipment inadequate or unsafe, he shall have the power to demand immediate correction and if not corrected to the full satisfaction of the Director of the Department of Public Safety, he shall

then have the power to revoke or suspend the license as in the case he may deem mete and proper, after a hearing is had upon the nature and circumstances of the violation.

The Director of the Department of Public Safety is hereby authorized and empowered to establish reasonable rules and regulations for the inspection and operation of wreckers and for the design, construction, maintenance and condition of fitness for the safe conduct of the business being pursued.

Section 7. If, in the judgment of the Director of the Department of Public Safety, the wrecker is found to be in a structurally safe condition for the transportation and conveyance, etc., of vehicles in accordance with the provisions of this ordinance and the rules and regulations established hereunder, upon payment of the license fee hereinbefore set forth, the same may be licensed by delivering to the applicant a card of such size and form as may be prescribed by the Director of the Department of Public Safety. Such cards shall contain the name of the applicant, official license number of wrecker, together with the date of inspection of the same and a notice that in case of any complaint, the said Director of the Department of Public Safety shall be notified, the license of the wrecker being given; such card shall have attached thereto the authentication of the Director of the Department of Public Safety and shall contain blank spaces upon which an entry shall be made of the date of every inspection of the vehicle by the inspector. The said Director of the Department of Public Safety shall require to be affixed to a conspicuous and indispensable part of the wrecker, a card, not exceeding six inches nor less than four inches in dimension, which shall bear the license number of the vehicle and the rate of fares under which such wrecker is operat-

ing and also space for a card, with the name and photograph of the driver.

Section 8. In order to insure the full protection of the property of the public, it shall be unlawful for the owner, lessee or bailee of any wrecker to operate or cause or permit such wrecker to be operated, nor shall any permit to so operate be issued hereunder, until and unless the applicant shall obtain a policy of insurance in a company acceptable to or a bond of indemnity acceptable to the Director of the Department of Public Safety in the sum of Twenty-Five Hundred Dollars (\$2,500.00), insuring the customer's property against damage by the owner, lessee or bailee of the "wrecker."

Section 9. The Director of the Department of Public Safety shall keep a register of the name of such persons owning or operating a vehicle or vehicles licensed under this ordinance, together with the license number and the description, make and dimensions of such vehicles, with the date and complete record of inspections made of it.

Section Ten. The Director of the Department of Public Safety shall maintain due vigilance over all "wreckers" to see that they are kept in a condition of safety for the transportation or hauling of disabled automobiles, and to this end, shall have the right at any and all times to inspect any and all such licensed vehicles and shall maintain a record, in writing, of the report of all such inspections.

Section 11. Licenses granted under the preceding section of this ordinance may be revoked or suspended at any time by the Director of the Department of Public Safety, if the vehicle shall not be in a safe condition for the transportation and hauling of automobiles and kept in conformity with the terms of this ordinance or for the violation of any of the provi-

sions of this ordinance or any of the rules and regulations made by the Director of the Department of Public Safety.

Section 12. No person shall drive a wrecker until he shall have made application upon a form provided by said Director of the Department of Public Safety for a driver's license and shall have secured such license from said department. Every person applying for a license to drive a wrecker must furnish satisfactory evidence that he has received the driver's license under the State Motor Vehicle Law. (b) Present the certificate of a reputable physician, showing that he has been examined within sixty days; that he is of sound physique, with good eyesight and not subject to epilepsy, vertigo, heart trouble or any other infirmity of body or mind which might render him unfit for the safe operation of a wrecker.

(c) Be able to read and write the English language and be a citizen of the United States.

(d) Not to be addicted to the use of narcotics or intoxicating liquor.

(e) Fill out a blank form, provided by the said Director of the Department of Public Safety, a statement giving full name, residence, place of residence for the preceding two years, age, color, height, color of eyes and hair, place of birth, length of time he has resided in the City, whether a citizen of the United States, places of employment during next preceding two

years, whether married or single, whether ever convicted of a felony or misdemeanor or a violation of this ordinance, whether he has been previously licensed as a driver or chauffeur and if so whether his license has ever been revoked in this city or elsewhere and for what cause; which statement shall be signed and sworn to by the applicant and filed with the said Director of the Department of Public Safety as a permanent record and affixed to said statement, which shall be under oath, shall bear the endorsement of four reputable residents of the City of Newark and of the Supervisor of the Traffic Bureau of the Police Department. He shall also furnish four copies of photographs, size one and one-half inches by two inches.

The said Director of the Department of Public Safety is hereby authorized and empowered to establish, from time to time, such additional rules and regulations, not inconsistent herewith as may be necessary and reasonable, governing the issue of any license provided for in this ordinance.

Section 13. Upon satisfactory fulfillment of the foregoing requirements there may be issued by said Director of the Department of Public Safety to the applicant, a driver's license which shall contain a photograph and signature of the licensee, and blank spaces upon which a record shall be made by the Traffic Bureau of the Police Department of any arrest of or serious complaint against him. A driver's license granted by the said Director of the Department of Public Safety may be suspended or revoked by the said Director of the Department of Public Safety after due hearing held, for cause or the violation of any provisions of this ordinance, or the regulations made thereunder. If the licensee has had his license suspended for cause,

it shall not again be issued to him until at least sixty days after such suspension, and after a second suspension for cause, it shall not be issued to him until at least six (6) months after such suspension.

Section Fourteen. A driver, in applying for a renewal of his license, shall make such application upon a form to be furnished for renewal of license by the Director of the Department of Public Safety, entitled "An application for renewal of license," which shall be filled out with the full name and address of the applicant, together with a statement of the date upon which his original license was granted and the number thereof.

Section 15. Initial license granted to a driver of a wrecker after application therefor shall be free of any charge whatsoever. In the event that duplicates thereof are desired, same shall be supplied by the Director of the Department of Public Safety at a charge of fifty cents (50c.).

Section 16. The Director of the Department of Public Safety may designate such place or places within the City of Newark as public "wrecker stands," as in his judgment may be determined necessary. He shall, in his discretion, place metal signs attached to stanchions, at the curb or other conspicuous place, setting forth the number of wreckers used for hire, that will be permitted at such stand, and only such "wreckers" used for hire in such numbers as are set forth on the sign may remain at the stand while waiting for employment, and only in single file pointed in accordance with the traffic regulations. As said "wrecker" leaves the line, those behind shall move up and any other "wrecker" seeking space on the stand shall approach the same only from the rear thereof. No such "wrecker" shall stand at the curb within fifteen feet of the entrance of any cross walk

or within twenty-five feet of any fire hydrant.

Section 17. The prices that may be charged by the owners or drivers of wreckers for the transportation or hauling of disabled automobiles for hire shall not exceed the following rates:

For conveying a disabled passenger automobile from any point in the City of Newark, to any point in the City of Newark, five (\$5.00) dollars, and for any truck or omnibus a rate to be pre-determined by mutual agreement in writing. Section 18. All "wreckers" shall contain a card or metal plate to be furnished by the Director of the Department of Public Safety, affixed to a prominent portion of the wrecker as directed by the Director of the Department of Public Safety, where it can be easily read by the customers, stating the rates charged and the conditions of the employment.

Section 19. Every driver of a "wrecker" shall, when requested, give the customer a receipt for the fee paid.

Section 20. All disputes as to fee shall be determined by the officer in charge of the police station nearest to the place where the dispute occurred.

Section 21.

(a) No "wrecker," while waiting for employment shall stand on any public street or space other than that at or upon a "wrecker stand" designated or established in accordance with this ordinance or regulations made thereunder.

(b) No driver of any "wrecker" shall seek employment by repeatedly and persistently driving his wrecker to and from in a short space before or by otherwise interfering with the proper orderly progress of traffic along the public highways.

(c) No "wrecker" shall turn or reverse his vehicle except at intersections, where permissible.

(d) No driver shall engage in "cruising" as defined in paragraph (d) of Section One hereinabove, except during such hours and over such routes as the Director of the Department of Public Safety may determine.

The City Clerk presented An Ordinance authorizing the issuance of \$383,000 Street Paving Bonds of the City of Newark, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Acting Mayor Parnell: Does anyone wish to be heard on this ordinance?

Mr. Joseph S. Zemel, 289 Market Street: Mr. Mayor, I have read the ordinance in the newspapers but I could not quite understand the purpose or what effect will be accomplished by this ordinance. May I ask what the purpose of the ordinance is?

Acting Mayor Parnell: The purpose of the ordinance, Mr. Zemel, is this, that this is money that has been spent for improving our streets, and it is money that our predecessors in office borrowed. They borrowed it on three months notes at six per cent. These notes are coming due every month or so; and under this ordinance we will spread the payment for these streets over twenty to forty years at four and one half-per cent. In other words, we feel that the future generations are going to use these streets and have the benefit of these improvements and we think they should pay for them rather than put the burden on ourselves at this time.

Mr. Zemel: That, of course, will make the financing lighter at this time?

Acting Mayor Parnell: Very much lighter.

Mr. Zemel: And the interest rate of your notes, you say, is six per cent.

Acting Mayor Parnell: We are going to refinance them at four and one-half per cent. or less.

Mr. Zemel: Under the circumstances I can only say I am very much in favor of the ordinance.

Acting Mayor Parnell: Does anyone else wish to be heard?

Application of Carl Schwartz, owner, for the construction of a gasoline station; premises 398-404 Chancellor Avenue; on condition that signs, lighting devices and fences meet the approval of the Board of Adjustment, such use to be limited to the period ending eight years from date;

AND the matter having been considered by this Board,

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Pearce R. Franklin

Acting Mayor Parnell: Now, this is an application by Mr. Carl Schwartz for permission to operate a gasoline station at 398 Chancellor Avenue. Is there anybody who wishes to object to the granting of this application?

A communication dated August 3rd from The Mutual Savings Fund Harmonia, 1 Union Square, Elizabeth, N. J., owners of property at 296 Wainwright Street, protesting against the granting of a permit for a gasoline station at 398 Chancellor Avenue, was received, read and ordered filed.

Mr. Ephraim Scheckner, 17 Academy Street: Mr. Mayor and Commissioners, as the representative of some of the objectors I should like to enter an objection to the mode of procedure here. We received notice about two weeks ago that the matter had been reopened by the Board of Commissioners of the City of Newark on application by the applicant. No notice of that application to reopen this case was given to us, nor, as far as I know, to any of the objectors. And I think it palpably unjust and unfair to the objectors, as well as to the Commission, that an opportunity was not given to the objectors to be heard.

Commissioner Franklin: What you mean is, he failed to notify you that he was going to apply to reopen the case?

Mr. Scheckner: That is correct.

Commissioner Franklin: But he has notified you of its reopening?

Mr. Scheckner: Of the hearing.

Commissioner Franklin: Notified the people within two hundred feet of this hearing.

Mr. Scheckner: I don't know whether he has or not. That remains to be proved.

Commissioner Franklin: You are not contending that he did not?

Mr. Scheckner: I don't know.

Commissioner Franklin: Did you receive notification?

Mr. Scheckner: Yes.

Acting Mayor Parnell: Well, I might say to you that, anybody has a right to come before the conference at any time and ask for further consideration or further hearing, and the Commission grants these rehearings, as you might call them, because we do not want to do anybody any injustice; and if there is any further information to be brought to bear on it, we want to have it. However, we always protect the objectors' interests by putting it off for perhaps two weeks, sometimes longer, with the instruction that every possible objector must be notified so he can come here and state his case at public hearing. I am simply sitting here for Mayor Ellenstein, who is away, and I cannot change his procedure.

Mr. Scheckner: I should like to enter an objection to the procedure.

Acting Mayor Parnell: I will enter your objection, but I don't know if it will do you much good. Will you proceed?

Mr. Scheckner: I represent the Montrose Mortgage Company which owns a substantial apartment house at Wainwright Street and Chancellor

Avenue in Newark, is directly opposite the site of this proposed station. This company has an investment of several hundred thousand dollars in this property; it pays an annual tax of close to \$5,000 to the City of Newark. We feel that the presence of this gasoline station will materially impair the value of our property because of the attendant confusion and noise; the danger to the children of our tenants will cause the tenants to vacate our apartments, as a result of which our income will be materially reduced and we will have a difficult time in paying our taxes to the City.

Acting Mayor Parnell: Is there any other objector who wishes to be heard?

Mr. Samuel Scheckner, Academy Building: Mr. Mayor, I am here as half owner of this piece of property on the corner of Chancellor and Wainwright Street. We have a class of tenants who have large families, and as soon as you permit a gasoline station where there is plenty of them, our tenants will move. Therefore, if we suffer the City will suffer, because we will not be able to pay our taxes.

Acting Mayor Parnell: Is there any other objector to the granting of this application?

Mr. S. A. Berger, 55 Osborne Terrace: Mr. Mayor, as vice-president and general manager of the Newark Tennis Club, I took another survey of Chancellor Avenue from Clinton Place to the end of Chancellor Avenue, and there are too many gas stations there. Another gas station will only eat into the living of the present gas stations, and I have no interest in any of them.

Commissioner Franklin: There is a gasoline tank on the sidewalk closer to the apartment house than it is to your tennis court.

Mr. Berger: It is across the street at 407 Chancellor Avenue.

Commissioner Franklin: On Chancellor Avenue there are some tanks out in front of the stores there, aren't there?

Mr. Berger: There is a little portable truck.

Acting Mayor Parnell: Are there any other objectors? If not, we will hear the proponents.

Mr. Louis L. Feinseth, 164 Market Street: Mr. Mayor and Commissioners, I appear on behalf of Mr. Carl Schwartz, the applicant for the permit. Our lot is located on Chancellor Avenue at the corner of Wainwright Street, and by reason of the fact that at one time a brook ran through the property it is little or nothing more than swamp land, and may be properly characterized as a mud hole infested with mosquitoes, and in its present condition constitutes a real menace and nuisance to the community.

Now, directly to the rear of our property are located the tennis courts, who seems to be the chief objectors. There is absolutely no improvement on the tennis courts by reason of which the City of Newark derives very little income.

Now, adjacent to our property on the right-hand side, and extending to the City Line of Irvington, are six or seven city blocks of vacant lots, also owned by us. We are unable to sell or dispose or build on those lots, because these lots are undesirable.

Now, gentlemen, the objectors have failed to present one argument to show you that the erection of this gas station at the corner of Chancellor Avenue and Wainwright will in any interfere with public health, safety, and general welfare.

Commissioner Franklin: Is this apartment house that is objecting on the corner?

Mr. Feinseth: Cater-corner, Commissioner Franklin.

Commissioner Franklin: I see on the opposite side of Chancellor Avenue a designation of stores. Where is the apartment house?

Mr. Feinseth: The apartment is cater-corner.

Commissioner Franklin: Stores in the first floor?

Mr. Feinseth Yes.

Commissioner Franklin: I move we concur in the recommendation of the Board of Adjustment.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell.

Naye: Commissioner Minisi.

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Acting Mayor Parnell: Now, are there any objectors to the granting of this application?

A communication dated August 6th, 1934, from Rev. Hedding B. Leech, Minister of Central Methodist Episcopal Church, objecting to the granting of the permit was received and read, and ordered filed.

A petition signed by thirteen property owners within two hundred feet of 10-12 Wakeman Avenue, protesting against the granting of an automobile parking station, was received, read and on motion ordered filed.

Mr. David Stern, 461 South 17th Street, representing the Garage Owners' Association of New Jersey: Mr. Mayor and Commissioners; In the immediate vicinity of this proposed parking lot there are eight public garages,

more than sufficient to take care of the needs of the neighborhood. This site has been operating in violation of the law for about a year and a half, parking cars there without a permit. And if there is any parking lot or proposed parking lot that would constitute a menace and an additional fire risk, this location is one of them.

Mr. S. B. Harrison, 556 Mt. Prospect Avenue: I did not know there would be anybody else to protest. I am president of the Board of Trustees of the Central M. E. Church, and I wish to put in a protest against parking right in back of our lot.

Acting Mayor Parnell: Are there any other objectors? If not, we will hear the applicant.

Mr. Emmett T. Molloy, 12 Wakeman Avenue: Mr. Mayor and gentlemen, for a year and a half there have been a few cars parked in our lot and yard. We own 10-12 Wakeman Avenue, which is a lot, and the yard space in back of the house. I received a notice from the Zoning Enforcement Officer that I would have to discontinue this parking lot or obtain a permit. Upon receipt of that notice I applied to this Board. In the meantime, at least half a dozen of my neighbors asked me if they would have to take their cars out of the yard, and I told them, it would probably entail a good deal of cost for me. So these people came and voluntarily assisted me financially to help obtain this permit. Within two hundred feet of our property there is only one piece of property which has a driveway, and for this reason the people are in need of a place to park their cars reasonably.

Acting Mayor Parnell: A motion to concur in or reject the application is now in order.

Commissioner Minisi: I move we re-

Acting Mayor Parnell: Are there

any objectors to the granting of this application?

Mrs. Clara Morse, 437 South 14th Street: The only objection is, the man wants an icehouse right next to our apartment. It is a double house and the people sleep on that side, and we do not think it ought to be there. The alley is right there, and he would go in and out, and people sleep on that side, and that is what we object to.

Acting Mayor Parnell: A motion to concur in or reject the recommendation of the Board of Adjustment is now in order.

Commissioner Minisi: I move we concur in the action of the Zoning Board.

BOARD OF ADJUSTMENT
City Hall
Newark, New Jersey

August 1, 1934.

The Board of Commissioners
of the City of Newark.

Honorable Sirs:

At a meeting of the Board of Adjustment held this day, resolutions were adopted recommending to your Honorable Body, in accordance with Section 9, Chapter 274, P. L. 1928, that the following applications for variations from the requirements of the Zoning Ordinance be allowed:

74 Mulberry Street, 74 Mulberry

Street, Inc., owner; gasoline station; such use to be limited to eight years; driveways to be relocated as shown on plans;

247 Central Avenue, William A. Ryan (Henry Metzgar, owner); outdoor sale of used automobiles; such use to be limited to one year, signs to meet the approval of this Board;

59-61 Lock Street, Perry D. Kinney, owner; wholesale production of eggs and poultry, including slaughtering on the premises;

82 Fourth Street, Harold M. Weir, (Joseph Marsh, owner); retail ice depot; such use to be limited to one year;

580 South Tenth Street, Arthur Sachs, (William Aschenbach, owner); renewal of a permit for two portable gasoline tanks renewal to expire June 1, 1935;

98-104 Maple Avenue, Conrad Throm, owner; automobile repair shop; such use to be limited to one year, on condition that work be done on week days only, between the hours of 8 A. M. and 6 P. M., signs to meet the approval of this Board;

108-112 Academy Street (111-113 Bank Street) James F. Connorton, owner; renewal of a permit for an automobile parking station; renewal to expire July 18, 1935;

362-366 Plane Street, Nathan Mayers (Fidelity Union Trust Co., trustee); installation of one stationery gasoline pump in present automobile parking station; such use to be limited to two years.

The Board of Adjustment,
R. B. Rankin, Secretary.

Ordered received, copy to be sent

to each Commissioner, and further action postponed to August 22, 1934.

Mr. Samuel Kessler, 15 Clinton Street: The application of No. 72 and 74 Mulberry Street, corner of Raymond Boulevard. The matter was before the Board of Adjustment, and I understand they unanimously approved the permit. We are very anxious to get started, because we are ready to contract and employ a great deal of men immediately. If the matter is delayed it may have to go over to early spring, and I am asking your Honor to consider it at this time.

Commissioner Duffy: I move the rules be suspended.

Commissioner Franklin: It is understood in the event that there are objectors who have not been notified, they will have to be heard.

Acting Mayor Parnell: Now, gentlemen, in putting this motion I put it with the distinct understanding that all objectors or possible objectors, have been notified; and if after we have acted on the matter any objector comes in and says he has not been notified, the whole matter is going to be reopened. It is now regularly moved that the rules be suspended so the matter of the application of 74 Mulberry Street can be heard today. The clerk will call the roll.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

Commissioner Parnell offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered

the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of 74 Mulberry Street, Inc., owner, for the construction of a gasoline station; premises 74 Mulberry Street; on condition that driveways are relocated as shown on plans; signs, fences and lighting devices to meet the approval of the Board of Adjustment; such use to be limited to the period ending eight years from date;

AND the matter having been considered by this Board,

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Reginald Parnell
Pearce R. Franklin
Michael P. Duffy

Acting Mayor Parnell: Does anyone desire to be heard on this application?

Mr. William L. Greenbaum, 164 Market Street: I represent Mr. Lehman and Mr. Polster, who have property on this block within two hundred feet of the proposed gas station.

Commissioner Franklin: Where are your objectors?

Mr. Greenbaum: I am at number 60 Mulberry Street and 62 Mulberry Street—60-62 and 64-66 Mulberry Street. Now, this entire block on the opposite side of the street is taken up by Public Service Terminal. They have gas tanks over there and they have driveways in the whole street, so there is absolutely no business on that side of the street at all. There have been so many permits granted there for parking stations that there is ab-

solutely no business around the place.

Mr. Werner: Mr. Mayor and Commissioners, I represent J. Jacob Schmidt, who owns properties from 1105 to 1115 Raymond Boulevard and 15 to 21 Durand Street, and Julia A. Vogt, who owns 1117 Raymond Boulevard. There is now a gas station at the corner of Pine and Raymond Boulevard. There is another one in contemplation at the corner of Cherry and Raymond Boulevard. I ask that the application be rejected.

Acting Mayor Parnell: Are there any other objectors?

Mr. Samuel Katzin, 68 Mulberry Street: I keep a store in my house at 68 Mulberry Street, within twenty feet of the proposed gasoline station. I would ask that the gasoline station not be granted, and adversely affect my business if it comes. I have been keeping store there since 1912.

Acting Mayor Parnell: Are there any other objectors?

Mr. Henry Green: Mr. Mayor, keep that one street, Raymond Boulevard, from being entirely commercialized. Let us have one place where we can take people and show them that we have one nice street in Newark.

Acting Mayor Parnell: Now, then, we will hear the proponents of the application.

Mr. Kessler: his matter was first applied for before the Adjustment Board, and the arguments present were presented to the Zoning Board. That matter was adjourned for a period of two weeks, at which time the Zoning Board went out and investigated, and when the matter came before them it was unanimously approved.

Acting Mayor Parnell: Is there any

other person who wishes to speak in favor of the application?

Mr. Charles Zemel: It will beautify the street to put up an \$18,000 gasoline station. The Public Service has the other side monopolized. What have they done to beautify the street? Give this man a hand. Let him tear this building down. Encourage him so he can pay his taxes to the City of Newark. I think you would be doing a good deed.

Mr. Milton Handler, 151 Goldsmith Avenue: Mr. Mayor and gentlemen of the Commission, instead of hurting adjacent property or encumbering anybody with any hardship, that is not so. If anything it will help.

Acting Mayor Parnell: Is there anybody else in favor of the application? A motion to concur in or reject the recommendation of the Board of Adjustment is now in order.

Commissioner Duffy: I move we concur in the recommendation of the Board of Adjustment.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

The following reports of City Officers were received and ordered filed:

NOTICE OF SALE

\$6,225,000 BONDS

Sealed proposals will be received by the undersigned at his office in the City Hall, Newark, New Jersey, until Thursday, September 6, 1934, at one o'clock, P. M. (Daylight Saving Time), when they will be publicly opened, for the purchase, at not less than par and accrued interest of bonds of The City of Newark of the following authorized issues, viz.:

- (1) \$2,000,000 Street Opening Bonds, Series "A," maturing, \$50,000 of bonds on August 1st in each of the years 1935 to 1938, inclusive, and \$75,000 of bonds on August 1st in each of the years 1939 to 1962, inclusive.
- (2) \$1,600,000 Street Opening Bonds, Series "B," maturing, \$50,000 of bonds on August 1st, in each of the years 1935 to 1951, inclusive, and \$75,000 of bonds on August

1st in each of the years 1952 to 1961, inclusive.

- (3) \$1,000,000 Water Bonds, maturing, \$20,000 of bonds on August 1st in each of the years 1935 to 1948, inclusive, and \$30,000 of bonds on August 1st in each of the years 1949 to 1972, inclusive.
- (4) \$742,000 Sewer Bonds, maturing \$20,000 of bonds on August 1st in each of the years 1935 to 1971, inclusive, and \$2,000 of bonds on August 1, 1972.
- (5) \$383,000 Street Paving Bonds maturing, \$20,000 of bonds on August 1st in each of the years 1935 to 1952, inclusive, and \$23,000 of bonds on August 1, 1953.
- (6) \$255,000 Public Improvement Bonds, maturing, \$10,000 of bonds on August 1st in each of the years 1935 to 1943, inclusive, and \$15,000 of bonds on August 1st in each of the years 1944 to 1954, inclusive.
- (7) \$245,000 Port Newark Improvement Bonds, maturing, \$10,000 of bonds on August 1st in each of the years 1933 to 1943, inclusive, and \$5,000 of bonds on August 1st in each of the years 1944 to 1974, inclusive.

All of the bonds will be of the denomination of \$1,000, will be dated August 1, 1934, will bear interest from their date, payable semi-annually on February 1st and August 1st, and will be coupon bonds, registerable at the option of the holder as to principal only or as to both principal and interest. Principal and interest will be payable in lawful money of the United States of America, at The National State Bank, in the City of Newark.

The bonds will bear interest at the rate of four per centum (4%) per annum. However, if the bids received do not permit the award of any of the issues of bonds as 4% bonds, then the bonds of such issue shall bear interest at such higher rate as may be named by the successful bidder. The rate named must be a multiple of one-quarter of one per centum per annum, and must be the same for all the bonds of such issue. In awarding the bonds of such issue, only the proposals naming the lowest rate named in any proposal for such issue will be considered.

Bidders, in submitting their bids, must use the bidding forms which will be furnished by the undersigned upon request.

The several amounts necessary to be raised by the sale of said seven bond issues (exclusive of the amount of any interest accrued on the bonds), respectively, are the maximum authorized amounts of said issues, respectively stated above; and no more bonds of any issue will be sold than will produce the amount necessary to be raised by the sale of such issue (exclusive of accrued interest), and an additional sum of less than \$1,000 for such issue. If less than the maximum authorized amount of any issue is sold, the unsold bonds of that issue will be those last maturing. The bonds of each issue will, unless all bids therefor are rejected, be sold to the bidder or bidders complying with the terms of sale and offering to pay not less than the amount necessary to be raised by the sale of such issue (exclusive of accrued interest) and to take therefor the least amount of bonds of such issue, commencing with the first maturity, and if two or more bidders offer to take the same amount of bonds of the same issue, then the bonds of that issue will be sold to the bidder or bidders offering to pay therefor the highest additional price (such additional price being less

than \$1,000). In addition to the price bid, the purchaser must pay accrued interest from the date of the bonds to the date of delivery. The right is reserved to reject any or all bids.

Any bidder may condition his bid on the award to him of two or more of said issues, but in that case, if there is a more favorable bidder for any one of the issues for which he bids, his bid will be rejected.

The successful bidder will not be required to accept delivery and pay for the bonds, unless, prior thereto and not later than the 25th day of September, 1934, the City shall have issued bonds pursuant to Chapter 60 of the Laws of 1934 of New Jersey, and shall have thereby made the provisions of such act applicable to the City.

Proposals should be addressed to the Director of the Department of Revenue and Finance, City Hall, Newark, New Jersey, and enclosed in a sealed envelope marked on the outside "Proposal for Bonds," and must be accompanied by a certified check for two per centum (2%) of the face amount of the bonds bid for, drawn upon an incorporated bank or trust company to the order of the "Director of the Department of Revenue and Finance of The City of Newark," to secure the City against any loss resulting from a failure of the bidder to comply with the terms of his bid. Checks of unsuccessful bidders will be returned upon the award of the bonds.

The successful bidder or bidders will be furnished with the opinion of Messrs. Reed, Hoyt & Washburn, of New York City, that the bonds are valid and binding obligations of The City of Newark.

By order of the Board of Commissioners of The City of Newark.

Dated, August 22, 1934.

A P P R O V E D :

M. C. ELLENSTEIN
PEARCE R. FRANKLIN
MICHAEL P. DUFFY

The Board of Commissioners of the
City of Newark, N. J.

H. S REICHENSTEIN,
City Clerk.

Newark, N. J., August 29, 1934.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 10 A. M. Standard Time, 11 A. M. Daylight Saving Time.

Present: Commissioners Duffy, Franklin, Mayor Ellenstein.

Absent: Commissioners Minisi, Parnell.

The minutes of meeting of August 22nd were read and approved.

The City Clerk presented An Ordinance granting permission to the Middlesex Pipe Line Company, a corporation of the State of New Jersey to lay and maintain a petroleum pipe line across certain designated streets in the City of Newark, and stated that today was the time fixed for hearing on same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. Joseph S. Zemel, 289 Market Street: Mr. Mayor and Commissioners, I want to enter my objection to the passage of this ordinance. As I understand it, this ordinance permits this pipe line company to run a line through certain streets of the City through which they will conduct their oil. It seems to me if they want to do that, well and good, but they should pay the City a fair rental for the use of the City Streets which they will occupy. At this minute, while I know of no method of ascertaining that

rental, I think the City has adequate real estate men to ascertain what a fair rental should be, and it should be paid. To make a percent to these people of the right to run their lines through City streets, is, to my mind, giving them something of the taxpayers' money to which they are not entitled.

Mayor Ellenstein: Do you know, Mr. Zemel, that this pipe line just crosses these streets and runs on the right of way of the railroad? It just crosses those streets.

Mr. Zemel: I understand it only crosses the streets; but it seems to me they should pay rental for the streets which they cross.

Mayor Ellenstein: Do you know of any City that charges for laying a pipe line like that?

Mr. Zemel: No sir, I do not.

Mayor Ellenstein: It is the first time this question ever came to my attention, and I do not believe any utility company ever paid for any pipe line or telephone conduit.

Mr. Zemel: Yes. There are cities which do charge for utilities. There is a case in the Supreme Court, Richmond vs. Western Union Telegraph, where they held the City had a right to make such charges.

Mayor Ellenstein: I presume the City has. But has it been the practice of the cities to make such a charge? That question has never come up in this City.

Mr. Zemel: In that case they made one and the court upheld them. I know of no instance where these util-

ities permit the City to go through with any of their lines of any kind. While I am not in favor of stopping it from going through, I think whatever a fair rental is they should pay.

Mayor Ellenstein: Well, as far as this ordinance is concerned, it just crosses these streets and does not run along them, so that would be a minimum charge for passage over streets over which the City has control, because the pipe lines are run along the right-of-way of the railroad.

Mr. Zemel: I understand that. Well, whatever is fair. In that even the rent would not be high. But whatever is a fair rent I think they ought to pay.

Mayor Ellenstein: I will entertain a motion that action on this ordinance be deferred for one week.

Commissioner Duffy: I so move you.

The roll being called, the motion was declared adopted by the following votes:

A petition signed by 4,500 residents of the City of Newark, requesting the Board of Commissioners to pass the Ordinance prohibiting the issuance of Limited Retail Distribution Licenses for the sale of unchilled beer in the City of Newark, was received, read and on motion ordered filed.

A petition signed by 57 holders of Plenary Retail Distribution Licenses in the City of Newark, urging the passage of the ordinance to prohibit the issuance of Limited Retail Distribution Licenses for the sale of unchilled beer, was received, read and on motion ordered filed.

The City Clerk presented An Ordinance to prohibit the granting of Limited Retail Distribution Licenses in the City of Newark, and stated that today was the time fixed for hearing on the same.

Mayor Ellenstein: Does any person desire to be heard on this ordinance?

Mr. Sidney Simandl, 24 Branford Place: If your Honor please, the Newark Retail Liquor Dealers Association has accumulated a petition containing 4,500 names, all citizens of the United States and residents of the City of Newark, asking the Board to pass this ordinance.

Mr. Abraham Mankowitz, 24 Commerce Street: Mr. Mayor and members of the Commission, I represent a group of plenary retail distribution licensees. A group of delicatessen people and other stores who have licenses to sell for consumption off the premises. These men applied in the middle of June and paid a fee of \$500. If this ordinance is not passed they will then have to compete with the group of men who will be obliged to pay \$25 or \$50 for a license to sell beer.

Mr. Louis B. Englander, Lefcourt Building: Mr. Mayor, I am appearing for the New Jersey Liquor Dealers Association. We believe this ordinance should be passed; that it would be to the disadvantage of the City in general to permit the issuance of an unchilled beer license.

Mr. Benjamin Newman, 1060 Broad Street: Mr. Mayor and gentlemen of the Commission, I am appealing to you gentlemen to vote against the proposed ordinance prohibiting licensed grocers to handle unchilled beer. The grocers have been so hard hit that they have been unable to pay their taxes, and here they are willingly coming out and willing to pay these types of licenses because of the fact that it will bring them additional business.

Mr. A. M. Persky, 75 Avon Avenue: I represent the Essex County Newsdealers, Cigar and Confectionery Dealers Association. They claim 500 members who are anxious to obtain these licenses. Some of these men are not in a financial condition to avail themselves of the \$500 fee.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented the application of Harold M. Weir (Joseph Marsh, owner), for a retail ice depot; premises 82 Fourth Street on condition that signs meet the approval of the Board of Adjustment; such use to be limited to the period of one year from date; and stated that today was the time fixed for hearing on the same.

Mayor Ellenstein: Is there anybody who desires to be heard in opposition to this application?

Mr. Benny Berger, 26 Unity Avenue; Mr. Mayor, we are twenty-two here on the signatures that we object.

Mayor Ellenstein: You own the apartment opposite Fourth Street and Sussex Avenue?

Mr. Berger: Yes, facing Fourth Street.

Mayor Ellenstein: You say there are 22 objectors within 200 feet?

Mr. Berger: Yes, there are. We got a petition here.

Mr. Rankin: There is a petition here, but all the signers are not within 200 feet, Mr. Mayor. That is the only petition we got.

Mrs. Anna Marzuli, 82 Fourth Street: I live right next door to the barn. I have been threatened by our tenants that they would move out if such a thing would be put up.

Mrs. Julia Marzuli, 76 Fourth Street: We would see and hear wagons of every sort. And I have children.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition to this application?

Mr. Jack Ryan, 320 Sussex Avenue: We haven't had any taxes from that barn in two years. We can see no way of getting any revenue out of it. Mr. Weir wants to rent it for an ice house and fix it up and give us revenue so we can pay taxes on the property.

Mayor Ellenstein: This building is on the building line, isn't it?

Mr. Ryan: Yes.

Mayor Ellenstein: Wouldn't it be necessary to back wagons in there in order to load ice and unload it?

Mr. Ryan: We could back the trucks all the way in that barn and unload it, or pull into the curb.

Commissioner Franklin: What are the taxes on the property?

Mr. Ryan: That I couldn't say. I am representing my father-in-law. He just came up and got me.

Commissioner Franklin: How big is the place.

Mr. Ryan: 25 x 100.

Mr. Harold M. Weir, 637 Broadway: I am the applicant. This property is in the business section on the corner.

Mr. Rankin: Sussex Avenue is a business district, and that would extend back one hundred feet. It is residential in here, and Sussex Avenue for one hundred feet is business. The lot is one hundred feet deep.

Mayor Ellenstein: Is there anybody occupying the corner?

Mr. Ryan: We live there.

Mayor Ellenstein Is it a two-family house?

Mr. Ryan: A two-family house.

Mayor Ellenstein: Do you live in the whole house?

Mr. Ryan: We live downstairs and sleep upstairs, and there is a little apartment we rent.

Mayor Ellenstein: So it is yielding revenue?

Mr. Ryan: We get \$25 a month for the second floor.

Mayor Ellenstein: I will entertain some kind of a motion.

Commissioner Parnell: I move we concur in the recommendation of the Zoning Board.

Mayor Ellenstein: Is there a second to that motion? There is no second to that motion. I assume from that that we will have a motion to the contrary.

Commissioner Duffy: I move that we do not concur in the action of the Zoning Board.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Not Voting: Commissioner Parnell.

Commissioner Franklin offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer

the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Thomas F. Joyce (Elizabeth Reeves, owner) for the renewal of a permit for two portable gasoline tanks; premises 656 Broadway; such use to be limited to the period ending July 11, 1935;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Myra L. Boope, owner, for the construction of stores; premises 306 Sixth Avenue;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of New-

ark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Edmund A. Schilling, 763 Board Street: Gentlemen of the Commission, I represent the Gatoff Realty Company, which is the owner of the apartment across the street from the proposed location of these stores, the property being located 299-305 Roseville Avenue. This neighborhood in the neighborhood of Roseville Avenue, Sixth Avenue and Seventh Avenue, is primarily built up with high-class apartment houses. It is one of the few sections in the City which has not been encroached upon seriously. Each time there has been an encroachment it has hurt the character of the neighborhood. The renting possibilities of these apartments are decreasing constantly.

Mr. Harry Kaplan, 116 Market Street:

Mr. Mayor and Commissioners, I represent Messrs. Schwartz and Kaplan, owners of the apartment house on the southwest corner of Roseville Avenue and Sixth Avenue, just one apartment house removed from the Boope property on the site of which the stores are being sought to be erected. I also represent Mr. Douglas, who is the owner of a one-family house immediately adjoining to the west of the Boope property. There obviously is no valid reason or sound reason for the granting of a permit for the erection of these stores.

Mr. Alfred I. Manson, Jr., 863 Broad Street:

Mr. Mayor and gentlemen of the Commission, I represent the South Side Building Company, whose apart-

ment houses are east of the property upon which the permit is sought. I also represent the West End Building and Loan Association which holds a mortgage on that property. I further represent the Kaw Holding Corporation across the street to the east, which has a sixty-one family apartment house. There are several stores in the neighborhood, four of which are now vacant, about 100 feet from this present property; and also feel that the stores which are located two blocks to the south of this property on Roseville Avenue, or rather, on Orange Street, are more than sufficient to handle the needs of the neighborhood.

Mr. Aaron Levinstone, 20 Clinton Street:

Mr. Mayor and gentlemen of the Commission, I represent Mr. Karonis, owner of 312 Sixth Avenue, which is a brick building consisting of nine stores. All of the stores that you heard the other gentlemen were talking about, referred to the stores of my client. He has about four or five stores rented, and the rest of them are vacant for a very long number of months.

We find it quite difficult in getting enough money to pay the interest charges, as well as taxes, and the addition of some more stores will simply make greater the burden of my client, and impossibility for him to pay the taxes. And I believe his taxes are about \$1,000 a year.

Mr. John Douglass, 310 Sixth Avenue:

I own the house next door, and it will decrease the value of my property, and we don't need any more stores there. That is all.

Mr. Nathan Kartorowitz, 323 Leslie Street:

Mr. Mayor and Commissioners, I am the owner of 302 Sixth Avenue. At 302 Sixth Avenue virtually all of the tenants are school teachers, and some of them are City Hall employees. As soon as they find that stores will be built, they all refused to sign their leases. If the store is rejected they will remain.

Mr. Glen K. Carver, 763 Broad Street:

Mr. Mayor and gentlemen of the Commission, I represent Mrs. Boope, the applicant for this change of zone. That store building on the corner of Sixth Avenue and Ninth Street was erected some ten years ago, and most of these apartment houses on Sixth Avenue, with the possible exception of one at the southwest corner of Sixth Avenue and Roseville Avenue, have been erected since those stores were erected. One more store is going to make no great change in the neighborhood.

Mayor Ellenstein: Is there any other person who desires to be heard?

Commissioner Franklin: I move non-concurrence in the action of the Zoning Board.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Michael Grieco and Donato Di Pierro (R. F. Van Seggern, Inc., owner) for the renewal of a permit for a retail ice depot; premises 31 North Fourteenth Street; such use to be limited to the period of one year ending July 11, 1935;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Pearce R. Franklin
Michael P. Duffy
M. C. Ellenstein
A. F. Minisi
Reginald Parnell

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Rose Dornbusch, owner, for a battery and ignition service station in connection with a present gasoline station, premises 793 Sanford Avenue, on condition that rear door is bricked up; such use to be limited to the period ending one year from date;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the

Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who wants to be heard in opposition to this application? This building has already been erected, is that right?

Mr. William Krueger, Lefcourt Building:

Yes, Mr. Mayor.

Mayor Ellenstein: There was a restraining injunction preventing the City from interfering?

Mr. Krueger: Yes. I might say in that connection, Mr. Mayor, that the application has been made by some objectors to revoke the permit which had been granted to use this building as an auto laundry. I appeared in behalf of the owner of the premises and consented that that application be rejected, but that permission be given to use these premises as a battery service and ignition service station. I appeared in behalf of the applicant. The owner of the property attempted to restrain the City from interfering with the use of the premises, and we made an application to change the use of the premises to a battery service and ignition station, and the Board of Adjustment unanimously consented to the use of those premises from an auto laundry to a battery—

Mayor Ellenstein: After it had been used for an auto laundry without having obtained proper permission?

Mr. Krueger: Yes.

Mayor Ellenstein: Then your application now is directed towards using it for a battery and ignition service station.

Mr. Krueger: Yes. And I appear

in behalf of the owner and ask that the City Commission concur in the action of the Board of Adjustment.

Mayor Ellenstein: How was the building erected?

Mr. Krueger: There was some mistake either on behalf of the owner or the Building Department, and the Building Department issued a permit to the owner of the premises to erect this building adjoining the gasoline station. It is part of the same parcel of property. And that building was erected and was in use. Thereafter—

Mayor Ellenstein: As an auto laundry?

Mr. Krueger: As an auto laundry. It was in use for a period of time. Thereafter, some of the neighbors to the property made application to have the permit revoked, and we consented to the revocation of the permit and made application to change the use. So that the building is now erected and stands there. We have sold the equipment.

Mr. Theodore J. Smith; 10 Mt. Vernon Place:

The Zoning Board did not pass the permit to build that building. Superintendent Bigelow gave them the permit to build this building.

Mayor Ellenstein: Of course, the restraining injunction was only directed towards the completion of the building and not toward the use; and now, as I understand, this building has been used as an auto laundry.

Mr. Smith: Yes, sir.

Mayor Ellenstein: And there was no permission given for that use?

Mr. Smith: No, sir.

Mr. Krueger. The Building Department did give that permission, but we understand it was illegal.

Mayor Ellenstein: Of course, the Building Department cannot authorize the use of the building. How long was this building completed?

Mr. Smith: About a year ago, a year ago in November.

Mayor Ellenstein: To what use has the building been put since its completion?

Mr. Smith: As an auto laundry.

Mayor Ellenstein: You went ahead and used the building regardless of whether you had a permit or not?

Mr. Krueger: We did have a permit, and it was never determined whether it was legal or not.

Mayor Ellenstein: All you had was a permit to erect the building, and your injunction could not be directed to the use of the building, it was only to the erection of the building.

Mr. Krueger: I understand when plans are filed with the Building Department they show on the plans what purpose that building is going to be used for, and therefore, the Building Department knew what use that building was going to be put to.

Mr. Smith: In other words, they had to guess what they were going to use it for.

Commissioner Franklin: How long have you been using it as an auto laundry?

Mr. Krueger: Almost a year, I understand.

Commissioner Franklin: How long since you knew it should not be used as an auto laundry?

Mr. Krueger: The last Zoning Board meeting.

Commissioner Franklin: How long ago was that?

Mr. Krueger: Two or three weeks ago.

Commissioner Franklin: And you are still using it as an auto laundry?

Mr. Krueger: No, sir.

Mayor Ellenstein: If you ladies and gentlemen have no objection to it being used as an ignition service station, it certainly will not be used for an auto laundry. If you have no objection, that will dispose of the entire matter. Have you any objections to that?

Mr. Smith: Yes, sir.

Mayor Ellenstein: I thought we might settle this amicably by your withdrawing your objection if it were limited to that use.

Mr. Donnelly: The building is not large enough for that. If they use it for a battery and ignition place they would have to do all of their work outside of the building, which would be blowing of horns, testing of horns.

Mr. Frank Schwartzwalder, 10 Mt. Vernon Place:

I believe the noise and general untidiness arising from the operation of a specialized unit such as that, constitutes a nuisance; and I believe the substitution of a battery station will be a greater nuisance rather than less.

Mrs. Sidna Miller, 27 Mt. Vernon Place:

Mr. Mayor and gentlemen, according to the Zoning Board they were

supposed not to do any repairing at all, and three weeks ago between the gas station and their home they have continued to do just the same, and they even had no permit to do any repairing of cars, but still they have torn rear ends out of cars, and have done that in that space. And I think there is enough traffic there anyway, and enough noise.

Mayor Ellenstein: I will entertain some kind of motion.

Commissioner Minisi: I move the application be rejected.

Commissioner Parnell: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Frank Grad & Son, architects, for M. & J. Augenblick Realty Co., owner, for the construction of a gasoline station; premises 1036-1040 Broad Street; on condition that signs and lighting devices meet the approval of the Board of Adjustment; a sign to be erected directing traffic to exit northerly on Broad Street; such use to be limited to the period ending eight years from date;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of New-

ark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Harry A. Koellhoefer, 40 Lyons Avenue:

Mr. Mayor and Commissioners, I represent one of the owners of a piece of property on Broad Street in the neighborhood of Chestnut and Broad. I object to the erection of a gasoline station on this particular site. Broad Street should not be used for gasoline stations nor should this permit be the wedge or precedent for granting more stations on this principal street in Newark.

Mr. J. Frank Kitchell, 58 Hedden Terrace:

I think it is a universal feeling that Broad Street should have no gas stations. And at the earnest request of the owners of 1028 Broad Street I am here to protest.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition?

Mr. Herbert J. Hannech, 17 Academy Street:

The proposed building is not of the usual type of gas station, it is a real ornament. The parties who have objected base their objection on the fact that they feel that the stockholders of the Elks and Mosque Theatre should not be prejudiced. Neither of those institutions make any objection.

Commissioner Franklin: Mr. Mayor, I would like to ask Mr. Rankin, through you, whether or not in the last two or three years there have been other applications on Broad

Street, other than this, for gasoline stations, which were rejected.

Mr. Rankin: The nearest one to this was at the very end of Lincoln Park, the corner of Lincoln Park and Broad Street, in the Stengel property. That was about four years ago. That was turned down, and it was taken into court, and the City was upheld in that.

Mr. Koellhoffer: Wasn't the Stengel property on Clinton Avenue just about Washington Street objected to about a year ago?

Mayor Ellenstein: Mr. Rankin says four years ago. That is on Clinton Avenue.

Mr. Rankin: He asked me about Broad Street.

Mayor Ellenstein: Where is the Stengel property?

Mr. Rankin: Lincoln Park comes down here (indicating). It is the other corner of the triangle. And then Clinton and Washington, we had one there. The only other Broad Street gas station was the corner of Clay Street. That was 1930.

Mayor Ellenstein: I will entertain some kind of a motion.

Commissioner Parnell: I move the recommendation be concurred in.

Mayor Ellenstein: Is there any second to that motion that the recommendation of the Zoning Board be concurred in?

Is there any other motion before the Board? I assume there ought to be a motion the other way.

Commissioner Parnell: Of course, a second really was not necessary.

Mayor Ellenstein: Is there any motion before this Board?

Commissioner Franklin: Can't the Chair make a motion?

Mayor Ellenstein: I might suggest that inasmuch as there is no second to the motion, and there is no other motion before the Board, and there isn't a full Board present, I might suggest that by agreement between the parties that it be adjourned for two weeks.

Commissioner Franklin: To bring the matter to a conclusion, I move that the action of the Zoning Board be not concurred in.

Mayor Ellenstein: Is there a second to that motion?

Commissioner Parnell: I will second the motion.

Commissioner Minisi: I will second the motion.

Mayor Ellenstein: Now we have a motion. The motion is that the action of the Zoning Board be rejected. All in favor of that motion will signify by saying aye, contrary no; the clerk will call the roll.

The roll being called, the motion was declared lost by the following votes:

Yeas: Commissioners Franklin, Minisi.

Naye: Commissioner Parnell, Mayor Ellenstein.

Mayor Ellenstein: So there is a deadlock, gentlemen. It will be necessary to bring it up again two weeks from today, when there is a full Board present, for a final decision.

(Laid over to September 19, 1934.)

The following petition was read and ordered filed.

To the Board of Adjustment of the
City of Newark:

Gentlemen:

We, the undersigned, owners of property in the immediate vicinity of No. 71 Avon Avenue, Newark, New Jersey, do hereby object to the granting of the application made by Henry A. Guenther for a variation from the requirements of the Zoning Ordinances so as to permit the erection of a gasoline station on the premises aforementioned.

We believe that there is no need for a gasoline station in this neighborhood, and that the erection of same would constitute a nuisance; would cause many of the tenants to move and would result in a loss to the city because of the depreciation in real estate values.

We believe that the erection of a gasoline station would result in irreparable damage and injury to the neighborhood, and therefore, ask the Board to give this matter thorough consideration, and reject the application.

Signed by 36 property owners.

Commissioner Franklin offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Henry A. Guenther (Associated Company, owner) for the construction of a gasoline station premises 71 Avon Avenue; on condition that signs and lighting devices meet the approval of the Board of Adjustment; such use

to be limited to the period ending eight years from date;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Are there any objectors to this application?

Mr. Milton M. Urger, Lefcourt Building:

Mr. Mayor and members of the Commission, I appear for the Lincoln Hospital and 36 objectors. The Zoning Board granted this application by a vote of three to two. There appears to be no reason why a gasoline station should be allowed within 25 feet of a hospital. The Lincoln Hospital is located exactly 25 feet away from this proposed station.

Mr. Francis F. Welch, 790 Broad Street:

I am appearing on behalf of the Prudential Insurance Company. We own property 29 Stratford Place, a six-story apartment house with 61 apartments. It has an assessed value of almost a quarter of a million dollars. We pay over \$8,000 a year in taxes there. We have had complaints from tenants about the proposed gasoline station, and we think it will harm the value of our property and cause us to lose tenants and cause the value of the property to decrease.

Mr. Mortimer Eisner, Chamber of Commerce Building:

If your Honor please, I represent the Bonded Building and Loan Association that owns property at 72 Hillside Place, which adjoins this property where the contemplated gas sta-

tion is to be erected. Now, that is a very congested section, crowded with apartment houses and three-family houses. We feel it would be definitely increasing the traffic hazard to permit this gas station to be erected here at this location.

Mrs. Anna B. Unger, 71 Hillside Place:

I have a two-family house there, and my tenant threatened me in case there is a station put up there she is going to move.

Dr. D. B. Gershenfeld, 20 Hillside Avenue:

On Hillside Avenue between Avon Avenue and Clinton Avenue there are about 13 doctors and 2 dentists. All these doctors own their homes. They have improved their homes. We have been trying very hard to keep that neighborhood, that block, what it should be. A gasoline station will throw property values on the whole block out so it will be worth absolutely nothing.

Mr. William S. Stevens, 478 Central Avenue:

I am representing the Eleventh Ward Building and Loan Association. I believe there is a letter here from Mr. Budd, executive vice-president, which will come before your Body, which gives our reasons. We own 75 Avon Avenue, which is across the street, an apartment house.

Mayor Ellenstein: Is there any other person who desires to be heard?

Commissioner Minisi: I move we reject the recommendation of the Zoning Board.

Commissioner Parnell: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin: I move we adjourn.

The roll being called, the motion was declared adopted by the following votes:

13. All ordinances and parts of ordinances inconsistent with the provisions of this ordinance be and the same are hereby repealed.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. David Stern: 461 South 7th Street: Gentlemen, it is the opinion of the Garage Owners Association that this ordinance certainly is needed in the City of Newark. Our only regret is that an ordinance of this type has not been introduced and passed a number of years ago.

Mayor Ellenstein: Is there any other person who desires to be heard?

Mr. Herman A. Harris, 73 Livingston Street: I represent an organization, the Newark Wrecking Association. Our business is the business of buying up old cars and dismantling

them for part purposes. We have wreckers for bringing these cars from different points. We do no wrecking for others as a business; these wreckers are for our own private use only. I would like to find out, is this ordinance aimed at such private use by wreckers?

Mayor Ellenstein: I do not think that would preclude you from carrying on your business. This is directed at cars that are in collision, and it precludes anybody from engaging in business as a wrecker to go to and fro along the streets picking up cars of that character. If somebody buys a car that is in disuse, there isn't anything in this ordinance to preclude him from carrying on that business.

Mr. George F. Fischer, 936 Sanford Avenue, Irvington: I represent the Auto Trades. We are in favor of this ordinance, with the exception of a few things that I think can be ironed out very easily.

Commissioner Duffy: We will bring about the desired amendments, which will save the cost of advertising.

Mayor Ellenstein: Director Duffy suggests we would save the cost of re-advertising by just having those amendments.

Mayor Ellenstein: Is there any other person who desires to be heard?

Mr. Manuel Newman, 2 Chadwick Avenue: I, as a small garage owner that has a wrecker, think that this law is far too strict, that I only use my wrecker when my customers call, and I do not see why I should be obliged to pay taxes or why should I have to pay a high insurance rate when I am tickled to death to repair a customer's car if I damage it.

Mayor Ellenstein: The ordinance is aimed at the protection of those who

turn over to a wrecker, and make them responsible so if any damage or injury is done in the course of their towing a car, they would have something to fall back on. That is the purpose of the bond.

Commissioner Parnell: This says, "Applicant shall obtain a policy of insurance in a company acceptable to, or a bond of indemnity acceptable to the Director of the Department of Public Safety." You do not have to put up a \$2,500 bond, you can put up a bond signed by two property owners which simply has to be acceptable to the Director of Public Safety.

Mayor Ellenstein: Is there any other person who desires to be heard?

(No response).

DEPARTMENT OF REVENUE
AND FINANCE
City Hall

Newark, N. J., September 12, 1934.

Board of Commissioners,
City of Newark, New Jersey.

Gentlemen:

Pursuant to the resolution adopted by the Board of Commissioners on the 22nd day of August, 1934, I have advertised the sale of the \$6,225,000 bonds of the City of Newark dated August 1st, 1934, authorized to be issued by the resolution, in the manner prescribed by the resolution. I received sealed proposals for the bonds until one o'clock P. M. (Daylight Saving Time) on September 6th, 1934, at my office in the City Hall in Newark.

Only two proposals for the purchase of the bonds were submitted. Both proposals were submitted by a syndicate composed of the Chase National Bank of the City of New York and its associates. One of the proposals submitted was not legally acceptable because it was not accompanied by a deposit check as required by the notice of sale and this bid was withdrawn before the award was made. I have accepted the remaining proposal which offers the price of par

and accrued interest for the bonds, provided the \$2,000,000 Street Opening Bonds, Series "A," the \$1,600,000 Street Opening Bonds, Series "B," the \$1,000,000 Water Bonds and the \$742,000 Sewer Bonds bear interest at the rate of five and one-quarter per centum (5¼%) per annum and the remainder of the bonds bear interest at the rate of four and three-quarters per centum (4¾%) per annum.

Very truly yours,
Reginald Parnell.

Director of Revenue and Finance.

Commissioner Parnell offered the following resolutions:

WHEREAS, the Director of the Department of Revenue and Finance has reported to the Board of Commissioners that he has advertised the sale of the \$6,225,000 bonds of The City of Newark dated August 1, 1934, authorized to be issued by the resolution adopted by the Board of Commissioners on the 22nd day of August, 1934, in the manner prescribed by the resolution, and that he has received sealed proposals for the bonds in the manner prescribed by the resolution and has accepted as the highest and best proposal submitted a proposal made by the Chase National Bank of the City of New York and its associates, to purchase said bonds at par and accrued interest, provided the \$2,000,000 Street Opening Bonds, Series "A," the \$1,600,000 Street Opening Bonds, Series "B," the \$1,000,000 Water Bonds and the \$742,000 Sewer Bonds bear interest at the rate of five and one-quarter per centum (5¼%) per annum and the remainder of said bonds bear interest at the rate of four and three-quarters per centum (4¾%) per annum, NOW THEREFORE,

BE IT RESOLVED, by the Board of Commissioners of The City of Newark that the action of the Di-

rector of the Department of Revenue and Finance in accepting said proposal submitted by the Chase National Bank of the City of New York and its associates, be and it hereby is approved and confirmed;

FURTHER RESOLVED, that said \$2,000,000 Street Opening Bonds, Series "A," and said \$1,600,000 Street Opening Bonds, Series "B," and said \$1,000,000 Water Bonds and said \$742,000 Sewer Bonds bear interest at the rate of five and one-quarter per centum (5¼%) per annum, payable semi-monthly and that the remainder of said \$6,225,000 bonds, being \$383,000 Street Paving Bonds \$255,000 Public Improvement Bonds and \$245,000 Port Newark Improvement Bonds, bear interest at the rate of four and three-quarters per centum (4¾%) per annum, payable semi-annually.

Received, copy to be sent to each Commissioner and further action postponed to September 26, 1934.

Mr. Meyer Zemel, 826 South 13th Street;

Gentlemen, I represent the Madison Realty Company. Before setting a date on that I would ask this Commission if they would appoint a man to go up there and look the location over, because the Adjustment Board was up there twice and passed it.

Mayor Ellenstein: It may not be necessary to send anybody up there. You are anticipating that it will be necessary to send somebody up there. That is not the usual custom. There

isn't anyone objecting to it. I do not know the nature of the application, but there is no necessity at this time to appoint anybody to go up and view the locality.

An Ordinance to amend an ordinance entitled: "An Ordinance to regulate the handling of food stuffs in the City of Newark" adopted December 19, 1933, and amended January 30, 1934.

The Board of Commissioners of The City of Newark, Do Ordain:

Section 1: That an Ordinance entitled: "An Ordinance to regulate the handling of foodstuffs in the City of Newark," adopted December 19, 1933, and amended January 30, 1934, be and the same is hereby amended to read as follows:

Section 1: No person shall engage in the business, nor shall any person, firm or corporation employ any person in the business of handling any foodstuffs in the City of Newark, intended or suited for human consumption, unless such person shall have previously obtained from the

Health Officer of the City of Newark a license so to do, and shall have previously paid a fee of One Dollar (\$1.00).

Section 2: No license shall be issued unless such person shall have previously filed with the Health Officer a medical certificate issued by a physician duly licensed to practice medicine in this State, setting forth that such person is free from tuberculosis, or any contagious disease. The term "contagious disease" as herein employed, shall be held to include any disease of an infectious, contagious, or pestilential nature, with which any person may be sick, affected or attacked.

Section 3: The medical certificate herein referred to shall be made out upon blanks to be supplied by the Health Officer, and the examination therein referred to shall meet the requirements and standards fixed by the Health Officer. A separate certificate shall be filed for each person engaged in the business previously referred to.

Section 4: The license issued pursuant to the provisions of this ordinance shall be obtained the first day of January, and shall expire six (6) months subsequent to the date of issue, and shall thereafter be renewed semi-annually every July first and January first in the same manner and subject to the same provisions by which the original license was obtained.

Section 5: Any person, persons, firm, or corporation violating any section of this ordinance shall, upon conviction thereof, be subject to a fine not to exceed twenty-five dollars (\$25.00), or to imprisonment in the County Jail for a period not to exceed

The City Clerk presented An Ordinance granting permission to the Middlesex Pipe Line Company, a corporation of the State of New Jersey to lay and maintain a petroleum pipe line across certain designated streets in the City of Newark, and

stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Does any person desire to be heard on this ordinance?

Mr. Joseph S. Zemel, 289 Market Street: I think this company ought to be required to pay a fair value for the use of the streets.

Mayor Ellenstein: I might say to you, the Commission feels that this company, since it is an industry, located in the City and employing local help, and in the past no rental charge has been made to pipe lines going through the City which are owned by industries not located in the City, that they certainly should not depart from the custom that has always existed in the past, by making a charge to this Company. There might be considerable merit to what you say about a charge, but the Commission feels it should not start with an industry that is located in the City and is employing local people when they are not making any charge to those who are now doing it and are located in other cities. And this pipe line only crosses one street, and the maximum we could charge them is \$25 or \$30 a year.

Mr. Harold D. Levine, 164 Market Street: Washington Street between Branford Place and William Street there are five parking stations. We have the station immediately adjacent to the one for which a permit is asked. One place holds 200 cars, and has an aggregate square footage of 25,000 square feet.

The station for which a permit is being asked is 26 feet wide and it is 100 feet deep. It cannot be used for more than a driveway; it is not fit for for a parking station; it is going to congest matters on Washington Street more than they are now. At the present time there aren't enough cars coming down Washington Street to warrant another station.

Mayor Ellenstein: How long has your parking station been there?

Mr. Levine: We have been there about four years.

Mayor Ellenstein: Were you there before these other parking stations?

Mr. Levine: Not before all of them were there.

Mayor Ellenstein: But the other three were there before you?

Mr. Levine: Yes, sir. The closed parking station—

Mayor Ellenstein: Your objection is that you think there are ample parking stations there?

Mr. Levine: Yes, sir.

Commissioner Franklin: How about the parking stations on that street, are they pretty well patronized?

Mr. Levine: At times they are. During the Christmas rush, but during the months of June, July and August we don't take in near enough for expenses.

Commissioner Franklin: But during the winter months, during the theatre months, you are crowded to capacity?

Mr. Levine: No, sir, the only months we are crowded to capacity are during the months of October, November and December.

Mayor Ellenstein: How much room have you in Washington Street?

Mr. Levine: We have 138 feet.

Mayor Ellenstein: You have room for two driveways there.

Mr. Levine: Yes, but we park cars so they face the applicant's property, and in order to get them out we have

to back in to our own station and then go out.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition?

Mr. Alfred J. Lippman, 9 Clinton Street: In regard to this being used as a parking station, there was a lunch wagon on that property for a few years, and during that time the man who owned the lunch wagon allowed his customers to leave their cars there without any compensation, throughout the day. Now, with the lunch wagon off, it gives you the entire width of the property to utilize for the purpose, and there is nothing else which the property can be utilized for. We have no other means of revenue with which to pay the taxes.

Mayor Ellenstein: Is there any other person who desires to be heard?

Mr. Levine: The people who own the property, that is, our property, pay, the City on our property alone about \$5,500.

Mayor Ellenstein: But you are at least getting some revenue out of it. Now, if these people are compelled to keep their land vacant—

Mr. Levine: They won't be compelled to keep it vacant. We have told them we will arrange to pay their taxes for them; if they cannot rent the place we will take it as a driveway just so they won't lose any money. But we do not want any more competition.

Mayor Ellenstein: Does anyone else desire to be heard on this matter?

(No response).

Commissioner Duffy: I move we concur in the recommendation of the Board of Adjustment.

Commissioner Minisi: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented the application of Frank Grad & Son, architects, for M & J Augenblick Realty Co., owner, for the construction of a gasoline station; premises 1036-1040 Broad Street; on condition that signs and lighting devices meet the approval of the Board of Adjustment; a sign to be erected directing traffic to exit northerly on Broad Street; such use to be limited to the period ending eight years from date.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Alexander MacPhee, 58 Stengel Avenue, representing the Garage Owners Association of New Jersey:

The association objects to this gas station. Within a radius of four blocks there are 15 gas stations and garages, not counting about five or six garages and service stations south of the Elks Building on Broad Street near this property. Most of the garages in this neighborhood are just about on the verge of bankruptcy; most of them cannot pay their taxes; and if this service station is put up it is going to make their plight much worse. And an industry that pays about \$550,000 a year to the City of Newark should be protected.

Mayor Ellenstein: This is an application for a gasoline station, isn't it?

Mr. MacPhee: A gasoline station, yes.

Mayor Ellenstein: Not a parking station.

Mr. MacPhee: A gasoline station, that is what I am objecting to.

Mayor Ellenstein: You said something about the people that own garages having to make a capital investment.

Mr. MacPhee: Yes. They are selling gasoline, they are all gasoline stations, and that is about the only thing that is left for them to get any revenue.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition to this application?

Mr. Simon Miller, 80 Orchard Street:

I am almost nine years at Orchard and Chestnut Streets running a garage and selling gas and oil. At one time it was very good. They made a one-way street, and that cut me off more than half. The Mosque Theatre closed up and that cut me out almost complete. The only opening I have that anybody can come over to my place is Chestnut Street. I am surrounded on three sides already and if you grant this station I might as well walk out.

Mayor Ellenstein: You have a garage there too?

Mr. Miller: Yes, sir, for nine years.

Mr. Harry A. Koellhoffer, 40 Lyons Avenue:

Mr. Mayor and Commissioner, due to the fact that Commissioner Duffy was not present at the last hearing, could we have your permission to allow the City Clerk to again read my objection?

Mayor Ellenstein: Have you the stenographic report?

You left the letter with the City Clerk?

Mr. Koellhoffer: Yes.

Mr. Archie A. Lance, 23 Camp Place:

I run a garage about a short block from where this applicant is trying to get a gas station, and the garage business is pretty well shot, and about all I have left, really, is a little oil and gas business down there.

Mayor Ellenstein: Whereabouts are you?

Mr. Lance: I am on Camp Place, right off of Camp Street.

Mayor Ellenstein: Do you think that would affect you being parallel with Broad Street?

Mr. Lance: Well, it would affect me a whole lot. Around the Elks there and Industrial Building, I get quite a little business from gas and oil and greasing.

Mayor Ellenstein: But your place is not visible from Broad Street, is it?

Mr. Lance: No.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition to this application?

If not, we will hear those in behalf of the applicant.

Mr. Aaron Lasser, 17 Academy Street:

The only objections that I hear made today are by people who think that the establishment of this gas station will take away some business from them. The applicant has paid taxes to the City of Newark on this property amounting to more than

\$70,000 and they intend to erect upon this plot a gasoline station. They have presented their plans to the Broad Street Association, which has expressed its approval and also the members of the church in the neighborhood, and there has been no objection from those sources.

Mayor Ellenstein: Did a representative of the Broad Street Association appear before the Zoning Board and approve of this?

Mr. Rankin: Yes.

Mayor Ellenstein: Is there any other person who desires to be heard? I will entertain some kind of a motion.

Commissioner Parnell: I move we concur in the recommendation of the Board of Adjustment.

Mayor Ellenstein: Is there any second to that motion?

Commissioner Minisi: Mr. Mayor, I voted "no" on this the last time it came up. At that time I was not fully familiar with the exact position taken by the Broad Street Association, although there had been some talk. I was under the impression that the Broad Street Association would have a representative here to tell us exactly how the members of that association felt, and that there also would be a representative of the church at this meeting. Now, I realize the position that the owners of this property find themselves in, and I am willing to do all I can to ease the situation. Nevertheless, I would like to know more about the feeling of these parties who are directly interested.

Mr. Lasser: Representatives of the Broad Street Association and the church were before the Adjustment Board and expressed their approval.

Commissioner Minisi: If they ap-

peared before the Zoning Board why couldn't they appear here?

Commissioner Duffy: Did Mr. Bowers appear for the Broad Street Association?

Mr. Lasser: Yes, sir.

Commissioner Duffy: And so stated at the hearing?

Mr. Lasser Yes, sir.

Mayor Ellenstein: Here is a statement of the Zoning Board.

Commissioner Minisi: Did the representative of the church state that that was the position of the church, or was he just there as an individual connected with the church?

Mr. Lasser: It was the position taken by the church.

Commissioner Parnell: He was here the other morning and said that. Mr. Beldon was here and said he withdrew his objection.

Mr. Lasser: I am informed that three trustees of the church were present before the Adjustment Board.

Mr. Koellhoffer: As a matter of fact, at the last hearing there was a representative of the church who had objected entirely to this matter. I think it was Mr. Beldon.

Commissioner Parnell: But he withdrew his objection here that morning.

Mayor Ellenstein: That is my recollection of it.

Commissioner Minisi: What position did Mr. Borchertling take?

Mr. Lasser: He did not take any.

Commissioner Franklin: Mr. Beldon appeared before this council table,

and there is nothing here that he withdrew his objection.

Commissioner Minisi: Do you know anything about Mr. Borchering appearing and asking that his appearance be noted representing J. H. Harris? What was his purpose in appearing?

Mr. Lasser: I think Mr. Borchering represented an estate that had some property, but did not make any objection whatsoever.

Mayor Ellenstein: Will you hand those plans up, please?

(Mr. Lasser hands copy of plans to Mayor Ellenstein.)

Commissioner Franklin: Mr. Mayor, why can't this be referred back to conference for the purpose of getting an expression of opinion from the church trustees and the Broad Street Association? They have not appeared here. Maybe they are not sufficiently interested. It may be they have overlooked it.

Commissioner Duffy: I would like to hear also from the representative of the church and the Broad Street Association.

Commissioner Minisi: I will second the motion to have it referred back to conference. I would like to go into this matter a little more.

Mayor Ellenstein: I think there should be included in the motion the date for final disposition of it.

Commissioner Minisi: Next Wednesday.

Mayor Ellenstein: The motion is that the matter be referred to conference and that it be heard a week from today.

The roll being called, the motion

was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolutions:

WHEREAS, on an appeal to the Board of Adjustment from an order of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Baron & Udin, Inc., owner, for the storage of lumber, sash, doors, etc.; premises 70 Montgomery Street; on condition that not more than 10,000 feet of lumber and finished trim are stored on the premises; such use to be limited to the period of five years from date.

Application of A. J. Silberstein, architect, for Madison Realty Company, owner, for the establishment of a poultry market; premises 634

Springfield Avenue; on condition that all deliveries of chickens are to be made to the rear of the building; no crates to be stored on the sidewalk; a proper blower system to be installed; and all regulations of the Health Department adhered to;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that the said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Does any person desire to be heard in opposition to this application?

M. Samuel Roessler, Lefcourt Building:

I appear on behalf of objecting property owners in the vicinity. I represent, with Mr. Gehl, who is associated with me, forty or more property owners in the immediate vicinity of 628-638 Springfield Avenue, the site of this proposed poultry market. A poultry market and slaughter house is a nuisance and should not be located on one of the main arteries of trade in a City such as ours.

This 628 Springfield Avenue is between Fifteenth and Sixteenth Streets. I think property is assessed at probably three or four hundred dollars per front foot.

Commissioner Franklin: What is the character of the neighborhood?

Mr. Roessler: Springfield Avenue is certainly one of our principal thoroughfares. Fifteenth Street, I understand, has several six-family houses and two-family houses. It is a very decent residential neighborhood; and this proposed slaughter house is right on Springfield Avenue

between Fifteenth and Sixteenth Streets.

Mr. Carl Heller, 625-627 Springfield Avenue:

I own this property, and I conduct a butcher shop, and four flats upstairs. I have spent quite a bit of money on my property to put it in shape. I got all good tenants. I have paid all my taxes up to the minute, and I sure would like to see it go along the same way and keep this chicken market away.

Mr. Philip Gehl, Union Building: Mr. Mayor, I not only represent, with Mr. Roessler, these objectors, but my building and loan authorized me to be here to object to this. We have a mortgage on the property at Springfield Avenue, corner of Fifteenth Street, right on the corner, and we feel that a chicken market going on in the next block will destroy the value of the property.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition?

Mrs. Pauline Schwartz, 633 Springfield Avenue:

Honorable Mayor, this is just across the street from our property, a six-family house. It will be a deserted village if we are going to have a slaughter house.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition?

Mr. Milton Meyer, 640 Springfield Avenue:

Gentlemen, for twenty years we have had the property on Sixteenth Street and Springfield Avenue. We have had no argument, no turmoil until this chicken slaughter house came up. The people there find it

very hard to pay their taxes and to rent their properties. It should not be granted.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition?

Mrs. Anna Campolito, 713 South Sixteenth Street: If that thing is permitted the tenants will not stay there.

Mayor Ellenstein: Now we will hear from the applicant.

Mr. Louis Zemel, 266 Market Street:

There aren't thirty objectors, there are only ten, if there are that many. A great number of people here today are not property owners, they are tenants.

Mayor Ellenstein: Their rights should be considered too.

Mr. Zemel: Not so much as a property owner, in view of the fact that a tenant is here today and gone tomorrow.

Mayor Ellenstein: So is the property owner. Even faster.

Commissioner Minisi: There were seventeen objectors listed on the list that was handed to me.

Mr. Zemel: I believe when the matter was gone over with Mr. Rankin of the Zoning Board, only about ten were valid.

Mayor Ellenstein: All right, let us assume that there aren't the number. Tell us something about the smell and where it is supposed to go, whether on Springfield Avenue or Sixteenth Street.

Mr. Zemel: This property owned by the Madison Realty Company, fronts 152 feet on Springfield Avenue. The proposed chicken market is to be put

at 632-634 Springfield Avenue, which is right in the center, in the hub of this property. So that to the west of us on Springfield Avenue our nearest neighbor will be the Meyers' estate. They are exactly 110 feet to the west of us across Sixteenth Street. The nearest neighbor to the east of us on Springfield Avenue is 75 feet away. Across the street the northeast property owner is the Satisfactory Construction Company. They are 85 feet away. And the others are spread down the line.

Mayor Ellenstein: Let me ask you this, do you think the presence of a chicken market there is going to further enhance the value of property?

Mr. Zemel: I absolutely do.

Mayor Ellenstein: Do you think that is conducive for any business to come anywhere near a chicken market?

Mr. Zemel: I believe there is. Springfield Avenue is a busy thoroughfare. But they fail to limit and qualify that, that it stops at Tenth or Twelfth Street.

Mayor Ellenstein: It is a main artery.

Mr. Zemel: It may be a main artery—

Mayor Ellenstein: It has vast possibilities as to the future.

Mr. Zemel: But you cannot pay taxes on possibilities.

Mayor Ellenstein: But we can increase assessments by considering possibilities. If they are going to be affected by the presence of a chicken market there, why put further hardships on them? How will a chicken market induce other businesses to come alongside of it? How would the presence of a chicken market induce

a man who wants to open a ladies' wear store, for example?

Mr. Zemel: Prince Street has chicken markets, and there are other businesses on Prince Street.

Mayor Ellenstein: It has lots of other things, too. Now, let me ask you this: Assuming that your argument is right, just assuming that it is right, don't you think that I, as one of the representatives of the City, should regard the wishes of the property owners in that vicinity?

Mr. Zemel: Absolutely.

Mayor Ellenstein: That is it. And as you say yourself, 28 out of those that you admit are property owners within a radius of 200 feet, and some outside of the radius object—

Mr. Zemel: We do not admit 28 are.

Mayor Ellenstein: You represent two property owners?

Mr. Zemel: I represent three property owners in the district.

Mayor Ellenstein: Two, you mentioned.

Mr. Zemel: I have Kuhn's right here. He is within the zone.

Mayor Ellenstein: Mr. Roessler says he and Mr. Gehl represent 40 property owners, and you dispute it.

Mr. Zemel: If the is going to include them within the 200—outside of the 200 foot zone, I have here a consent from Mr. Bernstein, who owns practically two blocks on Nineteenth Avenue in the rear of this property, in which he conducts a body building factory, and he also owns the garage opposite Mr. Heller. Here is his consent.

Mayor Ellenstein: He does not use

the property for residential purposes?

Mr. Zemel: He lives there himself.

Mayor Ellenstein: He is only an individual as compared to the many others. He may not mind the odor or he may not mind the effect it would have upon a person, just as Mrs. Schwartz appeared here and said during the summer she is unable to go away; and that undoubtedly affects every tenant, you have to admit that. And I think that merely on that basis that all of these objectors who own property in that locality desire that there be no chicken market there, I fee, individually, I am only speaking for myself, that I respect the wishes of the vast majority in that locality, particularly so when it is based upon good, substantial grounds.

Mr. Roessler: May I read some of the names and show how close we are to this property:

Heller, 625—

Mayor Ellenstein: We have the list. There isn't any doubt about the fact that the majority of the property owners in that locality are opposed to it.

Mr. Zemel: I am at a loss to find where 17 owners were in there.

Mr. Rankin: There is a question on one of them. That is 650, which is more than 200 feet, and yet was notified by the applicant.

Mayor Ellenstein: There is one man you notified that was outside of the 200 feet.

Mr. Zemel: We were ordered to notify him.

Mr. Rankin: The list was prepared by your architect.

Mayor Ellenstein: There are six-

teen. All those are within the 200 feet?

Mr. Rankin: Yes.

Mayor Ellenstein: They are all property owners?

Mr. Rankin: Well, there is a question here. The tax record in the Meyer case—

Mayor Ellenstein: That was explained.

Mr. Rankin: Then there is the Satisfactory Construction Company, signed by Morris Schwartz. Whether he is an officer of the company I don't know.

Mayor Ellenstein: Does your husband own this property at 633 Springfield Avenue, Mrs. Schwartz?

Mr. Gehl: That is a corporation and she has signed showing the signature of her as president of that corporation.

Mayor Ellenstein: So here are protests of sixteen property owners within the 200 feet.

Mr. Zemel: Then if we presented three within the 200 feet there are still some 14 who are non-committal.

Mayor Ellenstein: Assuming they are non-committal, if these 16 believe it is going to affect their property, and the others are non-committal, and if you are agreed upon the general premise that the representatives of the City who have within their power to grant this permit should respect the wishes of the majority, then there isn't anything else left to argue about. Those people who live in the vicinity feel it is going to hurt their property, and if you represented a property owner you would expect me, as a member of the Commission, to respect the wishes of the majority who are

better qualified to determine than I am.

Mr. Zemel: May I ask, Mr. Mayor, for a personal inspection of that vicinity—

Mayor Ellenstein: That would not alter it as far as I am concerned personally. I know your client would want me to act that way if he were affected, if the shoe was on the other foot.

Mr. Charles Zemel, 577 High Street:

Mr. Mayor and gentlemen of the Commission, I wanted to ask you to grant this permit because my son who is a rabbi is interested in running that slaughter house. I remember Prince Street, Newark, New Jersey, when there wasn't one slaughter house in it, a little over forty years ago. After there was four or five or six or seven or eight or nine slaughter houses, there was an objection to everyone. It was a bed of roses, because we owned property that increased in leaps and bounds. The people came out to buy in Prince Street.

Mayor Ellenstein: All right; let us interrupt you, Mr. Zemel. Assuming that all your arguments are correct, and you came here as a property owner. You live on High Street, and if you came here as a property owner, in conjunction with 80 per cent. of the other property owners, and you did not advance any argument at all, but you were opposed to a change in zoning on High Street, you would not think that this Commission was using its head if it granted that permit in the face of an objection from 80 per cent. of the property owners, would you?

Mr. Zemel: But, your Honor, they did.

Mayor Ellenstein: I do not consider

it using their head. You would not think it was using their head or anything else, because after all, in the final analysis, we have got to respect the wishes of those property owners because they pay for the cost of government. If you are going to injure them you are going to do them a foul injustice. So far as your argument is concerned, it may have all the merit in the world. But my suggestion to you is this, go to these property owners and advance those arguments, and if you can make them see your argument that way they will withdraw their objections. This Commission wants to help every property owner. We know the problems you have and every other property owner has.

Mr. Charles Zemel: Mr. Mayor, they put a negro morgue on 606 High Street, and 99 per cent. of the people objected. I live in 611, and I could not stop it.

Mayor Ellenstein: But the City had no legal power to stop it.

Mr. Meyer Zemel, 826 South Thirteenth Street:

We have a big stake on Springfield Avenue. We own on Springfield Avenue at Fairmount Avenue 163 feet on Springfield. At the Laurel Garden we have 100 feet. At Fourteenth Street and Springfield Avenue we have 200 feet. At this other place we have 152 feet. The nearest neighbor would be 75 feet away or 85 feet away or 110 feet away. No body would be hurt. But if the majority wants it that way, and the Mayor of the City of Newark expresses himself in that manner, why, we think—

Mayor Ellenstein: I think that is a fair policy. I am not concerned. There may be merit in what you say. It may increase the value of property, and you say you are a substantial property owner—

Mr. Meyer Zemel: With your kind permission we will withdraw the application.

Mayor Ellenstein: You are then making application to withdraw? Sunppse we have a motion that at the request of the applicant the application is withdrawn.

Commissioner Parnell: We have not acted on it.

Mayor Ellenstein: Then you withdraw the application?

Mr. Meyer Zemel: With your kind permission and with the Board's permission.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented the application of Frank Grad & Son, architects for M & J Augenblick Realty Company, owner, for the construction of a gasoline station; premises 1036-1040 Broad Street; on condition that signs and lighting devices meet the approval of the Board of Adjustment; a sign to be erected directing traffic to exit northerly on Broad Street; such use to be limited to the period ending eight years from date.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Alexander MacPhee, 58 Stengel Avenue (representing Garage Owners' Association of New Jersey).

Mr. Mayor and Commissioners, I want to protest against this intended gasoline station. There are twenty-one stations, garages and service stations within a radius of four blocks. I don't think we need another. There is a lot of small business men here just able to eke out a

living at the present time; and if this place is going up, they're going to be ruined.

Mr. Simon Miller, 80 Orchard Street.

Now, honorable commissioners and worthy Mayor, I am surrounded on three sides. The only opening to my place is this corner, and if that is taken away there is nothing for me to do but quit.

Mayor Ellenstein: You are on Orchard Street?

Mr. Miller: Yes, one block off this corner.

Mayor Ellenstein: How does that apply to you? You don't get any transients.

Mr. Miller: Get it all from Broad Street.

Mayor Ellenstein: Is your place visible from there?

Mr. Miller: They come from Clinton Avenue.

Mayor Ellenstein: Is your building visible from Broad Street?

Mr. Miller: Well they all know this corner.

Mayor Ellenstein: We like to help everybody. But here is a man that has a property that is vacant, and he is paying large taxes, and he wants a chance to get some revenue out of it.

Is there any one else who wants to be heard?

Is there any one who wants to appear in behalf of the applicant?

Mr. Herbert J. Hannock, 17 Academy Street:

This is a location catering particularly to transients. We paid \$80,000 in taxes already on this property without income. We paid a lot of mortgage interest on this property, and we can not use it for anything.

Mayor Ellenstein: How long is that block from Broad Street to Orchard Street? That is a long block, isn't it?

Mr. Miller: Yes, Mr. Mayor, that is quite a long block.

Mayor Ellenstein: How would that affect you? It is about 350 feet. Do you mean to say a transient would go off Broad Street when you say your place is not visible from Broad Street? Can you see your place of business from Broad Street?

Mr. Miller: No, but when they enter Orchard Street they could see it.

Mayor Ellenstein: A gasoline station on Broad Street would naturally get the transients. I would have to know you quite intimately before I would go out of my way and off my route to get in there. That is a long block, as this blueprint shows. This is not a parking station. And there is a parking station there now. If anything, it might assist you, insofar as parking is concerned, because it cuts off that much of the property. The way I feel about it is this: here is a man has paid \$80,000 in taxes and hasn't got any revenue. He has paid a lot of money for interest. Certainly we have got to give him some relief. I do not want to see any small man go out of business, but, naturally, everyone that is in business is affected to some degree if there is a gasoline station anywhere in the City. There is a certain amount of gasoline bought in the City, and if there is another gasoline station, you or some other garage owner suffers by it. But, at the same time, we have to consider the other man. If you had a

piece of property you got no income from, and you had paid \$80,000 in taxes, and paid interest on the mortgages, and if you had an opportunity to get a tenant who would contribute only a small part of your interest and taxes, you would look to the City Commission to help you, because you would say, "I have contributed \$80,000 to the City, and now I got a chance to pay my taxes and I get no relief." That is the other side of it. I am sure every member of this Commission is in sympathy with every small garage owner like you; but, at the same time, we can not forget the man who has contributed his share to the City.

Commissioner Minisi: I move we concur in the recommendation of the Board of Adjustment.

Commissioner Parnell: I second the motion.

Mayor Ellenstein: The Clerk will call the roll.

The Clerk: Commissioner Duffy?

Commissioner Duffy: A word of explanation. On previous applications made to the Commission, one at Lincoln Park and Broad Street and one at Clinton Avenue, I voted "no" on those applications. I do not feel we should clutter up our main thoroughfare with gasoline stations. I, therefore, vote "no."

The Clerk: Commissioner Franklin?

Commissioner Franklin: I desire to make a similar explanation. I think it is a departure from good precedent to keep Broad Street to the highest caliber possible. There have been some applications on Broad Street in that vicinity which have been turned down in the past for the reason that the policy should be maintained to keep Broad Street of a high caliber. The Lincoln Park location was op-

posed strenuously, and at Washington and Clinton Avenue. And for that reason, I vote "no."

The Clerk: Commissioner Minisi?

Commissioner Minisi: Mr. Mayor, I do not think this need be looked upon in the direct nature of a precedent. I think every application involving Broad Street should be considered strictly on its own merits. Now, here is an application that has the approval of the Broad Street Association, and there certainly is no group of citizens or body of business men in this community more interested in preserving the integrity of Broad Street and preserving it to its proper use. I vote "yes."

The Clerk: Commissioner Parnell?

Commissioner Parnell: Aye.

The Clerk: Mr. Mayor?

Mayor Ellenstein Aye.

PALLITTA & PALLITTA
Counselors at Law

Newark, N. J., October 2nd, 1934.

Hon. Harry L. Reichenstein,
City Clerk, City Hall,
Newark, N. J.

My dear Mr. Reichenstein:

I represent Mr. Frank L. Boppe, the owner of premises No. 306 Sixth Avenue, Newark, N. J., whose application some time ago for the alteration of his building and addition of a store to same was passed by the zoning commission, but on the protest of some of the nearby owners, it was denied by the City Commissioners.

I am writing to ask the Commis-

sion to please give me an opportunity to present Mr. Boope's case before them for further consideration as since the said refusal, new facts and evidence have come into existence which, I believe, when presented to the Commissioners, will make them reconsider their denial of this permit to my client.

I shall await a date that may be set by said commissioners.

Thanking you for your courtesy in this matter, I am

Yours sincerely,
Joseph J. Pallitta.

Mayor Ellenstein: I will entertain a motion that this case be re-opened.

Commissioner Parnell: I move the matter be re-opened, Mr. Mayor.

Reginald Parnell,
Director of Revenue and Finance.

Mr. Joseph Holland, 24 Commerce Street:

This is an application for reconsideration of the action of this Board on August 8 in rejecting the application for a parking station permit at premises 10-12 Wakeman Avenue, Newark. The applicant is Emmet Malloy. This application was for a property located within two hundred feet of the Mutual Benefit Life Insurance Building, at Second Avenue. The station would entail no signs. It is a small 50 foot by about 100. I have a sketch, and there would be no razing of buildings necessary because the land is now vacant. At the time of the original hearing I think there was an objection made by the Garage Owners Association, which I consider a competitive objection. I have a petition signed by 71 residents within the 200 feet, of whom 32 are property

owners. One is the owner of four parcels within the 200 feet of these premises.

Acting Mayor Parnell: All you want to do is to lay further information before us?

Mr. Holland: Yes.

Commissioner Franklin: I move this matter be re-opened for further consideration.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell.

Acting Mayor Parnell: It will come up two weeks from today, October 24, and you will have to give notice to all property owners within two hundred feet of your premises.

Mr. Holland: Yes.

Commissioner Franklin: I move we adjourn.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: It comes to the attention of the Commission, unofficially, that there is a civics class of the State Normal School present to observe the meeting of the Board of Commissioners of the City of Newark. I might say in conjunction with the resolutions that were read by the Clerk, that they are all a matter of public business, and instead of reading the contents of the resolution, which would entail a great deal of time, the heading of each resolution is read. Should there be any questions that any member of the class would like to ask, if I am unable to answer them, perhaps a member of the Board of Commissioners could answer them to your satisfaction, since you are making a study of that.

We are happy to have you here and hope you will be back some other time, and we want to co-operate in every way possible to assist you and make you civically minded in the welfare of our City, State and country.

The City Clerk read the application of Sklar Brothers for the storage and sale of samples of sash and trim, 202-204 Belmont Avenue.

Mayor Ellenstein: I might say to the class that these are zoning matters that are to be heard now, and the procedure in these cases is, they come before a Zoning Commission of five who vote upon them, and then they go before the City Commission. And as this application has come today for

their decision to confirm or reject the action of the Zoning Commission, we will hear it now.

Now, is there any person who desires to be head in opposition to this application?

Mr. Herman Russomanno, Lefcourt Building:

The premises in question are the store premises, with four families above, in a frame building. This store premises is occupied by Sklar Brothers as a lumber storage and mill shop. The zoning enforcement officer served notice on this place of business, together with all other such businesses on Belmont Avenue, in May, ordering these businesses to vacate on the grounds that they were not located in the proper zone, Belmont Avenue being a business zone, and this class of business being permissible only in an industrial zone. The businesses are hazardous and in violation of the laws of the Fire and Building Departments.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition?

Commissioner Duffy: Mr. Mayor, as per instructions of this Commission, a thorough investigation was made by the Bureau of Combustibles, the Building Department, the Department of Police of the Department of Public Safety, Chief Towey, Mr. Fiverson, Lieutenant Kass and Captain Eber, made investigations, and I would like to have them heard.

Mr. Samuel Offen, 60 Park Place: The expert, whom I expected here to testify, cannot be here. I would respectfully request that an adjournment of one week be granted.

Mayor Ellenstein: Have you any objection to that, Mr. Russomanno?

Mr. Russomanno: I have no objection, except that these businesses are awaiting the result of the Board of Commissioners.

Mayor Ellenstein: Have you any objection, Director Duffy?

Commissioner Duffy: There is a hazardous condition that exists there; but I am perfectly willing to wait another week.

Mayor Ellenstein: I will entertain some sort of a motion.

Commissioner Minisi: I move that the application for an adjournment be granted.

Commissioner Duffy: Second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: All those interested in this application will, of course, appear next Wednesday at the same hour.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk read the application of Roseville Sash and Door Company for the storage and sale of samples of finished sash, trim, etc., at 6 South 11th Street.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Commissioner Minisi: I move action on this application be deferred for one week.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: I might say the reason for deferring action on this is because it entails the use of a frame building for the storage of sash and door, which is more or less highly inflammable, and Director Duffy, the Director of Public Safety, will go into it and examine into the close proximity of adjoining buildings and whether or not it is a fire hazard, and that is the reason for deferring it for one week.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Emmett T. Molloy, owner, for an automobile parking station; premises 10-12 Wakeman Avenue; on condition that all signs

meet the approval of the Board of Adjustment, such use to be limited to the period ending one year from date;

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Rev. H. B. Leach, 311 Summer Avenue: I come to speak in a double capacity. As a resident immediately interested in the situation and second for certain objectors who are present and have asked me to speak for them. I bring a petition signed by fourteen property owners. I would like to call attention to the fact that ten weeks ago this application was made, and was, I think, unanimously rejected by your honorable body.

Mayor Ellenstein: Well, I might explain that, that that is a courtesy extended by the Board to almost every individual that appears, on the assumption that the objections raised at the prior hearing have been removed, or there are other conditions and circumstances that might alter the opinion of the Commission. But that is a courtesy extended to every individual. So while it might in some measure create a hardship upon you, the Board of Commissioners has put that down as a rule, extended that courtesy, and endeavored to help those property owners who are having difficulty in making their property revenue producing.

Is there any other person who desires to be heard in opposition to this application?

Mr. William J. Pain, 8A Wakeman Avenue: I am the adjoining property owner and, of course, I live there. We have been annoyed greatly by the cars coming all hours of the night and getting out in the morning.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition to this application? If not, we will hear the applicant.

Mr. Joseph F. Holland, 24 Commerce Street: I would like to know who are the fourteen objectors for whom the Reverend Doctor spoke? The act says they are supposed to live within two hundred feet.

Rev. Leach: They are all property owners. I am told there are some names on the other petition that are not property owners.

Mayor Ellenstein: Of course, we are not limited to hearing any one. As a matter of fact, any citizen in the City of Newark may be heard. But under the act notice must be given to all property owners within two hundred feet.

Mr. Holland: I understand that. I think it goes to the weight of their objection, if it goes outside.

Mayor Ellenstein: Of course, that may be taken into consideration by the Board. Will the City Clerk please read the names of those objectors and their addresses, if you have them.

(The City Clerk read the names and addresses of the persons on the petition.)

Mayor Ellenstein: Did you file the petition with the Clerk?

Mr. Holland: No, I have it here.

Mayor Ellenstein: Do you know how many of those are within two hundred feet?

Mr. Holland: All of them, so far as I know. Of the seventy-two, thirty-five are property owners. The other properties are owned by people living outside of the area, other than the property of the church for which Mr. Leach speaks and the fourteen property owners he represents.

Commissioner Parnell: I move the application be denied, Mr. Mayor.

Commissioner Minisi: I will second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, on April 17, 1934, the Board of Commissioners on the recommendation of the Board of Adjustment dated March 21, 1934, adopted a resolution approving the construction of a gasoline station; premises 42-44 Liberty Street; and

WHEREAS, the owner, A. Y. Realty Company (Augustus J. Mitchell, President) was unable to proceed with the work of construction within the allotted time; therefore be it

RESOLVED, by the Board of Commissioners of the City of Newark, that an extension of six months from the expiration of said permit be granted to the said A. Y. Realty Company or its assigns, said extension to expire January 17, 1935.

The Board of Adjustment,

Received, copy to be sent to each
Commissioner and further action
postponed to November 7, 1934.

The City Clerk: I have a request
from Reichmann & Hoffman Brothers,
592-594 Ogden Street, for a suspen-
sion of the rules.

Mayor Ellenstein: Is there anybody here representing the applicant? I might again explain to the civics class when a matter is heard by the Zoning Board two weeks elapse before it is heard before the Commissioners. That is the rule. But sometimes the applicant presents himself, and if for some reason there are no objectors present at the Zoning Board, the rules are suspended and the application is acted upon a day or two after it was presented before the Zoning Board. And this is one of those cases.

Mr. A. J. Reichmann, 21 Stengel Avenue:

Mr. Mayor, I would like to ask a suspension of the rules, there being no objectors to our going down to 592-594 Ogden Street. We are moving from practically the heart of the city to the river.

Mayor Ellenstein: Where are you located now?

Mr. Reichmann: We are located now on Frelinghuysen Avenue and we are going down to the Passaic River.

Mayor Ellenstein: The same kind of business?

Mr. Reichmann: The same kind of business.

Mayor Ellenstein: And you are moving on November 1?

Mr. Reichman: Well, we will start to move around November 15. It will take us a few months to get down.

Commissioner Minisi: I move the application for suspension of the rules be granted.

Commissioner Parnell: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

(Alliance Investment Co., owner) for the storage and loading of scrap metals; premises 592-594 Ogden Street; such use to be limited to the period ending three years from date, on condition that a fire-resistant fence ten feet high be erected along the front property lines, driveway not to exceed twenty feet in width; that the material stored on the premises be so arranged that the piles are not more than ten feet high, and that all piles be at least four feet from the adjoining property line;

Mayor Ellenstein: Is there anybody present appearing in behalf of this applicant? Did you notify him?

The City Clerk: I notified him he would have to be here in person to make the request for a suspension of the rules.

Commissioner Duffy: I move the matter rest until he appears.

These other zoning matters read by the Clerk will come up before the Commission two weeks from today, on November 7.

Mayor Ellenstein: It is the same thing; it is changing the penalty from mandatory to discretionary. If you have any suggestions as to changes in the ordinance in so far as its violation is concerned, then, of course, you would have to appear at the conference in the Mayor's Office. But this only changes the penalty of an existing ordinance. The penalty is just the same, except the Supreme Court has ruled that these ordinances that are mandatory are not constitutional, and that it should be discretionary. In other words, the magistrate can

now use his discretion. Instead of imposing a mandatory fine, as the case may be, he can use his discretion and either fine or suspend sentence, as he sees fit.

Mayor Ellenstein: Is there any person who wishes to voice any objection to this application?

Mr. Convery: There was one objector, Sheffield Farms.

Mr. William C. Siegmund, 206 Frelinghuysen Avenue: I represent the Sheffield-Farms Company, and we now withdraw our objection.

Commissioner Minisi: I move we concur in the recommendation of the Board of Adjustment.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented the application of Myra L. Boppe, owner, for the construction of stores; premises 306 Sixth Avenue, and stated that today was the time fixed for hearing on the same.

City Clerk Reichenstein: The applicant's counsel requests permission to withdraw the application.

A communication dated October 30th from Mr. Joseph J. Pallitta, representing Mrs. Myra Boppe, withdrawing the above application, was received, read and ordered filed.

Mayor Ellenstein: If there is any person here on that matter I want to state that the applicant has withdrawn her application for a permit to construct stores at 306 Sixth Avenue.

Commissioner Franklin: I move the

request for a withdrawal of the application be granted.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented the application of Sklar Bros. (Rebecca Schapiro and Jacob Lerman, owner), for the storage and sale of samples of finished sash, trim, etc.; premises 202-204 Belmont Avenue, on condition that the storage of said finished sash, trim, etc., be limited to one-half of the available storage space of the first floor area; that a walk-way two feet wide be maintained on all sides of the space used for such storage; that the storage of finished sash, trim, etc., be not permitted in the cellars and rear yards; and that no unfinished or bulk lumber storage be permitted on or in said premises; the use permitted hereunder to be limited to the period ending three years from date; and stated that today was the time fixed for hearing on the same.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Herman Russamanno, 60 Park Place: I voiced my objection last week on this application. Mr. Offen requested the adjournment.

Mr. Samuel O. Offen, 60 Park Place: If your Honors please, the objector does not come within the territory within which the act prescribes for objectors.

Mayor Ellenstein: The Act provides that notice be given to those within two hundred feet, but any citizen can come in here and object.

Mr. Offen: This matter has been pending since July. We have ap-

peared in Police Court several times. We have also appeared before the Board of Adjustment, and there were several adjournments. This objection comes with poor grace at this time. These same people were involved in the same procedures and they never voiced any objections.

Mayor Ellenstein: Now, let us hear all the objectors, Mr. Offen, and then you will have your opportunity.

Commissioner Duffy: I would like to call Chief Towey, the Chief Engineer of the Fire Department.

Chief Towey: Honorable Mayor and Honorable Directors, I made a personal investigation on October 20th. I addressed this letter to Mr. John B. Keenan, Fire Commissioner, Newark, New Jersey:

"Dear Sir: I wish to inform you that I made a personal investigation of the two buildings at Nos. 202-204 Belmont Avenue, this city Tuesday, October 16, 1934, and found large quantities of lumber were stored throughout both, including both cellars.

"The Sklar Company, lumber dealers, occupy both buildings, and there are a number of tenants in the premises at No. 202.

"These buildings are of frame construction, and the storing of lumber in them constitutes a serious fire hazard. I would urgently recommend that immediate steps be taken to prohibit the storage of lumber in either building.

"On October 29th, I made another investigation, and addressed this letter to Mr. John B. Keenan, Fire Commissioner:

"In compliance with general orders, I herewith submit the following report:

" I personally made an inspection with John J. Eber, Assistant Inspector of the Bureau of Combustibles and Fire Risks, of property located at 202-204 Belmont Avenue, occupied by Sklar Brothers for the storage and sale of sash, doors and lumber, etc.

"Building at No. 202 Belmont Avenue is a three-story frame. First floor is used by Sklar Brothers for storage of lumber and office. Second and third floors are occupied by tenants, two apartments on each floor.

"In the rear of 202 Belmont Avenue, lumber is stored in a one-story metal building and also in a one-story frame building. Lumber is also stored in the yard. The cellar is used by tenants.

"Building at 204 Belmont Avenue is a two-story frame. The entire building is used for storage of lumber, sash doors and trim. There are several piles of lumber in yard.

"Exposure hazards—There is a large two-story frame building in the rear on Livingston Street. There is a three-story frame dwelling on the south side and a two-story brick building on the north side."

Now, gentlemen, I am charged by law with the duty of protecting life and property, and this is a very serious hazard, because people do not seem to be fire conscious. We will be no doubt charged and may be brought before the grand jury for allowing people to be living over a hazard like this.

Now, back of this 202 they have a machine which they trim different parts of lumber, sash, doors and different things, and if any kind of a fire gets in there these people will not be able to get out of the building.

In addition to that, it will clean out Belmont Avenue along there. Any

part of this flimsy material, shavings and so forth, and people careless in the building, would cause a fire, and I do not feel it should be allowed there.

Mr. Offen: Chief Towey, you say the entire building is occupied at 202 by tenants?

Chief Towey: There are two that I saw the last time.

Mr. Offen: Did you notice a fire escape on the southside of the house?

Chief Towey: Yes.

Mr. Offen: Did you examine the premises occupied by Sklar Brothers at 202 on the first floor?

Chief Towey: Yes, sir.

Mr. Offen: And what is your description of the physical appearance of that store?

Chief Towey: Why, the front of the store he has an office in it. The rear of it he has his machine where he cuts and trims his lumber.

Mayor Ellenstein: Is there any machinery there at all, Chief?

Chief Towey: There was a little saw in the rear. It is for the purpose of trimming.

Mr. Offen: Now, if your Honor please, we will admit for the purpose of this hearing that certain violations exist there, or had existed, which violations we had attempted and partially eliminated, but we could not possibly go ahead and go to the expense of a good deal of moving before we hear the decision of this Board. However, if this Commission recommends or concurs in the recommendation of the Board of Adjustment, we will absolutely comply with the recommendations.

Mayor Ellenstein: The Chief said from his observation and own knowledge that it is a serious fire hazard. With all this inflammable material around and with all these frame houses, isn't that a fire hazard? I think it is your duty as a citizen, and certainly the duty of this Commission to see that all fire hazards are eliminated.

Commissioner Duffy: Mr. Fiverson, of the Building Department.

Mr. William Fiverson: Mr. Mayor and gentlemen of the Commission, I have made a number of inspections of the property at 202-204 Belmont Avenue. My last inspection was made yesterday at about twelve o'clock, and I found conditions the same yesterday as I have found on a half dozen previous inspections which I made. I found that at 204, which is the three-story frame building, occupied by Sklar Brothers as a wood-working business and the storage of lumber and trim. At No. 204 is a three-story frame building which Sklar Brothers occupy the ground story and there are accommodations for four families in the two upper floors. Three of these apartments were tenanted and one was vacant. In fact, there was a prospective tenant looking at the vacant apartment while I was there. At the rear of No. 202 in the yard was stored a large quantity of lumber. There is also a frame shed in the rear of the property which is also stored with lumber, as well as a sheet metal garage also filled with lumber. At No. 204 they occupy the entire building. The front of that building, or ground story, is occupied by the office of Sklar Brothers, and at the rear is a woodworking shop with machinery in it, and the machinery that was there yesterday was a circular saw and a band saw.

Commissioner Duffy: Lieutenant Kass of the Police Department.

Lieutenant Kass: In April of this year, I believe it was the fifth of April, I visited 202 and 204 Belmont Avenue, the sash and door and trim concern of Sklar Brothers. As I went into it on my first visit, as you enter the door at 202 there is an office at the left or south side of room. Right directly ahead is a rack in the center of the room leading from the floor to the ceiling where trim was kept on it, light material. As you go up to the northerly side of the room there is doors and sash standing there; and you go into a small room, or, in other words, the northwest corner of that room is a small, the larger room has a small room. In that we found a work bench and rack on the west side of the wall about halfway up from the floor that had a lot of sash on it. On that visit it was impossible for me to get from the outer room, or from the more easterly room to the westerly room unless I walked sideways, it was packed so with doors and sash.

From there we found that there was a door leading out on the northerly side of the northwest room. That was blocked with lumber so that you could not get out. From there we went on over to a small room, I will say on the southwesterly portion of that first floor. There was sash and doors in that. That was in a little better shape, you could at least walk through that without walking sideways.

We then went into 202—I might say that the building of 202 is the three-family frame building. At that time there was, I believe, as I recall it, there was three colored tenants living upstairs. There is a fire escape on this building on the westerly side or yard side of that building, an iron fire escape.

The next house is 204, a small two-family house, or years ago, as I recall it from being up in that neighbor-

hood—no, it was a one-family house. These two rooms, I will say the most easterly room on the first floor in the rear of that was a work bench, a circular saw, a small band saw, and a motor unguarded. There was also wood and trim in this, and doors, finished doors. As you go from that door up to the second floor there is a stairway leading up. Doors are packed between the wall and the staircase. As you get upstairs we found on our first visit glass in cases, tar paper, and in the back, in the most westerly room on the second floor, was again racks with the small sash onto it.

In the yard we found the lumber packed into a small shed close to a hollow brick wall. Next to that was a metal garage packed with lumber. The lumber was stretched in a northern and southerly direction, back and forth across that yard.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition?

Captain Eber, in charge of the Bureau of Combustibles, Fire Department: I made an inspection of 202 and 204 Belmont Avenue, and just what the Chief said and the other gentlemen said, I consider that business in that location a serious fire hazard and recommend no permit be granted.

Mayor Ellenstein: Is there any other person who desires to object?

(No response).

Mr. Sklar: I intend to comply with all recommendations. No machinery has been working for the past month. We have been in the sash and trim business for fifteen years and never had a fire.

Mayor Ellenstein: If there is a fire hazard there is no law that compels

this political body or any other political body to keep them in their place, if it is injurious to the welfare and the safety of the inhabitants of the city.

Commissioner Duffy: Mr. Mayor, pardon the interruption. Three of the businesses mentioned in that statement have moved. Notices have been sent to 48, 54, 70, 92, 154, 195, 202 and 229 Belmont Avenue.

Mr. Samuel Steigler, 1048 Broad Street: I was up there last Tuesday. On the left side is an office, in the center of the store is a rack with molding, and on the sides is a three and one-half foot passageway which you can lead around on all sides. In the rear is two doors which you can walk back. The place was clean and orderly.

Mr. Julius Klein: 49 Clinton Street: If that lumber is stored properly in there it is no more hazard than scrap iron improperly stored.

Mayor Ellenstein: Is there anyone else who desires to be heard?

Commissioner Duffy: Mr. Mayor, may I reiterate the program of the Building and Fire Department. Two have already moved out, three have agreed to move out, and the rest are in court. It is not my purpose or desire to interfere with the program of the Fire or Building Departments. I move that we do not concur in the recommendation of the Board of Adjutments.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented the application of Roseville Sash and Door Co. (Refial Realty Co., owner), for the storage and sale of samples of finished sash, trim, etc.; premises 6 South Eleventh Street; on condition that the storage of said finished sash, trim, etc., be limited to one-half of the floor area; that a walk-way two feet wide be maintained on all sides of the space used for such storage; that no manufacturing be done on the premises; that all machinery now in the building be removed; and that no unfinished or bulk lumber storage be permitted on or in said premises; the use permitted hereunder to be limited to the period ending three years from date; and stated that today was the time fixed for hearing on the same.

Mayor Ellenstein: Is there anyone who desires to be heard in opposition to this application?

Commissioner Duffy: This is the same thing, only there are no tenants in the building.

Mr. Harold Laifer, Lefcourt Building: I have nobody here that can verify our position. May I have the opportunity of bringing them next week?

Mayor Ellenstein: Do you want an adjournment for a week?

Commissioner Duffy,: You will be ready next week?

Mr. Laifer: I have a matter in Atlantic City next week. Would your Honors put it off for two weeks?

Commissioner Duffy moved that the application be laid over for two weeks.

Yeas: Commissioners Duffy, Frank-

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented the application of Roseville Sash and Door Co. (Refial Realty Co., owner), for the storage and sale of samples of finished sash, trim, etc.; premises 6 South Eleventh Street; on condition that the storage of said finished sash, trim, etc., be limited to one-half of the floor area; that a walk-way two feet wide be maintained on all sides of the space used for such storage; that no manufacturing be done on the premises; that all machinery now in the building be removed; and that no unfinished or bulk lumber storage be permitted on or in said premises; the use permitted hereunder to be limited to the period ending three years from date.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mrs. Laifer: The attorney is sick in bed and is unable to be here this morning.

Mayor Ellenstein: That is a fire hazard, you know, and this matter has been adjourned two weeks. It will be necessary to take some action a week from today.

Commissioner Duffy: I move we adjourn the matter for one week.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolutions:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of West Bergen Trust Co., owner, for the construction of a gasoline station; premises 184-190 Sixteenth Avenue; on condition that a fire-resistant fence be erected along adjoining property lines; that a raised curb be constructed along the Sixteenth Avenue and South Eleventh Street frontage for the full distance between driveways; that all signs and lighting devices meet the approval of the Board of Adjustment; that all driveways be at least ten feet from the intersection of the Sixteenth Avenue and South Eleventh Street property lines; such use to be limited to the period ending eight years from date;

AND the matter having been considered by this Board;

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Wallace M. Norton, 739 Broad Street.

Mr. Mayor and gentlemen of the Commission.

When this matter was heard by the Board of Adjustment, I presented to that Board a petition signed by a great number of the property owners within the prescribed area. It was their opinion that the erection of another gas station in that locality would greatly decrease realty values.

Mayor Ellenstein: Is there any other person who desires to be heard in opposition to this application?

Mr. Edward P. Stout, 921 Bergen Avenue, Jersey City.

Honorable Mayor and members of this honorable Commission;

I represent the West Bergen Trust Company which is the owner of this property. I am the president of this bank, as well as its counsel. The bank acquired this property some five or six years ago, taking it over in foreclosure proceedings. This property is not available for any other purpose than for a gasoline station. The adjoining property owner on South Eleventh Street has signed the petition in favor of this permit. We have the petition also signed by twelve other persons who are in favor.

Mayor Ellenstein: Are they property owners, these twelve persons you speak of?

Mr. Stout: Ten of them are prop-

erty owners and own twelve pieces of property.

Mayor Ellenstein: Within the prescribed two hundred feet?

Mr. Stout: All within the area.

Commissioner Parnell: I move we concur in the recommendation of the Board of Adjustment, Mr. Mayor.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Minisi: Mr. Mayor, I think it might be well to point out that within the prescribed area there are approximately sixty pieces of property affected, and only twelve are objecting.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Renner Investment and Construction Co., owner, for the construction of a gasoline station; premises 271-279 West End Avenue; on condition that a fire-resistant fence be erected along adjoining property lines; that a raised curb be constructed along West End Avenue and Alexander Street frontages for the full distance between driveways; that all driveways be at least ten feet from the intersection of West End Avenue and Alexander Street property lines; that all signs and lighting devices meet the approval of the Board of Adjustment;

that the automobile hoist be enclosed and made an integral part of the building; such use to be limited to the period ending eight years from date;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of The City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Louis Doroson 19 Wyndmoor Avenue.

I am the applicant.

Mayor Ellenstein: You understand, you are going to construct a fireproof wall in the back?

Mr. Doroson: Whatever it is necessary to construct.

Mayor Ellenstein: To protect that building adjoining.

Mr. Doroson: We are going to stop so many feet away from there, seven feet away from the other building.

Mayor Ellenstein: Well, you have got to construct a fire wall to protect the adjoining property, you understand that?

Mr. Doroson: Yes.

Mayor Ellenstein: That is a condition upon which this permit was

granted by the Zoning Board, you understand that, don't you?

Mr. Dorson: Yes, I know what you mean. How high do I have to go?

Commissioner Minisi: Ten or twelve feet high, aren't they?

Mr. Dorson: Ten feet high would shut out the windows.

Mayor Ellenstein: Well, you can not shut off the light.

Mr. Dorson: I didn't see any one in Newark there should be a retaining wall.

Commissioner Minisi: There are plenty of them. There is one up on the new Boulevard, near the canal.

Mr. Dorson: I submitted to Mr. Bigelow the plans and he accepted it the way he showed it.

Commissioner Duffy: That is before you got permission from the Zoning Board.

Mr. Dorson: A permit was granted four years ago.

Mayor Ellenstein: The condition is so general, it is a "fire resistance fence," the Building Department can decide whether it should be three feet, five feet or ten feet, or whatever they require. You have got to erect a fire resisting fence there.

Mr. Dorson: That will close up the light.

Mayor Ellenstein: The Building Department can determine that.

Commissioner Duffy: I move we concur in the recommendation of the Board of Adjustment.

Commissioner Minisi: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Parnell offered the following resolution:

WHEREAS, on August 22nd, 1934, the Board of Commissioners of the City of Newark, on the recommendation of the Board of Adjustment, dated August 1st, 1934, adopted a resolution approving the application of Perry D. Kinney, owner, for the wholesale production of eggs and poultry, including slaughtering of poultry; premises No. 59-61 Lock Street; and

The clerk then read the ordinance as follows:

An Ordinance to provide for the grading, curbing, flagging, paving and repaving with asphalt concrete pavement on a new concrete base of Vroom Place from Franklin Street to Walnut Street.

The Board of Commissioners of the City of Newark, Do Ordain:

Section 1. That Vroom Place from Franklin Street to Walnut Street be graded, curbed, flagged and paved and repaved with asphalt concrete pavement on a new concrete foundation, with the necessary new curbing or resetting of curb, together with all other appurtenances incidental to the paving of said street, including the laying of concrete sidewalks at street intersections and elsewhere wherever needed, and the laying or relaying of a sidewalk or sidewalks, or such portion or portions of sidewalks as may be disturbed or may become necessary or expedient, or the grade of which may be affected on account of the laying of the pavement or the set-

ting or resetting of the curb, under and by virtue of the provisions of an act entitled "An Act Concerning Municipalities," approved March 27, 1917, (P. L. 1917-319) and the supplements thereto and amendments thereof, in accordance with the plans, specifications and profiles dated May 28, 1934, and now on file in the office of the Department of Public Affairs.

In order to avoid the necessity of excavating and tearing up the improved portion of said street after the making of said improvement, the owners of any and all lands on the line of said improvements, are hereby ordered and directed to make the necessary connections with the sewer, gas and water mains to the curb lines in said street for each lot fronting upon said street within thirty (30) days after the passage of this ordinance. Upon failure of any such owner to make or cause said connections to be made, the same will be made by the Department of Public Affairs, in which case the costs and expenses of making said connections will be assessed upon the lands benefited. Each 25 feet of frontage upon said street for the purpose of this improvement shall be considered a lot.

Section 2. That said improvement shall be undertaken as a local improvement and the cost thereof shall be assessed against the property benefited by said improvement, in proportion to the benefits received, under and by virtue of the provisions of the act above referred to.

Section 3. That the sum of \$5,300.00 is hereby appropriated to pay the cost of said improvement, and for the purpose of meeting said appropriation and temporarily financing said improvement, temporary bonds or notes shall be issued from time to

time in an amount not to exceed \$5,-300.00 under and by virtue of the provisions of an act entitled "An Act to authorize and regulate the issuance of bonds and other obligations and the incurring of indebtedness by county, city, borough, village, town, township, or any municipality governed by an improvement commission," approved March 22, 1916, (P. L. 1916-525) and the supplements thereto and amendments thereof, which bonds or notes shall bear interest at a rate of not to exceed six per centum per annum. All other matters in respect to such temporary bonds or notes shall be determined by the Director of the Department of Revenue and Finance who is hereby authorized to execute and issue said bonds or notes.

Commissioner Duffy: All of the heads of the different bureaus of the Department of Public Safety are opposed to this.

Chief Towey: Mr. Mayor and Honorable Board of Commissioners: This is a letter that I directed to Mr. John B. Keenan, Fire Commissioner, Newark:

"I consider this a fire hazard and

recommend that no permit be granted I was up there this morning, and the same conditions prevail."

Mr. Harold Laifer, Lefcourt Building: You made an inspection yourself?

Chief Towey: Yes, sir.

Mr. Laifer: Assuming this place were used for the storage of samples and finished products, would you still say that this would be a hazardous condition?

Chief Towey: Well, I would not say it would be as bad if the lumber was removed and the sash and door and trim and glass which is loaded on the first and second floor with it, it naturally would not be as hazardous as it is at the present time.

Mayor Ellenstein: What kind of a building is it, a two-story building?

Chief Towey: Two-story frame. On the lower floor where he says there is no room—

Mayor Ellenstein: Has the rear of the building a brick wall?

Chief Towey: No, I did not notice that.

Mayor Ellenstein: What is the nearest dwelling to that property?

Chief Towey: I should judge maybe five feet on the south there is a frame two-story dwelling. There is a tavern in there.

Mayor Ellenstein: And you think it is a fire hazard?

Chief Towey: I do, Mr. Mayor, because if a fire was involved there, in five minutes it would take the house next to it, while there is nobody living in it, and would spread down Orange Street. In Orange Street in

back of these premises are stores backed up with frame. They are 50 or 75 feet from the corner. There is two frames in the rear of these stores facing Orange Street.

Commissioner Duffy: I will call Mr. Connolly of the Building Department.

Mr. Sylvester Connolly: I have made an inspection of this building, Mr. Mayor, and I find that it is a two-story very old frame building. The second floor is equipped with this machinery that was mentioned. There is only one exit from the second floor, and that is indirect. The cellar is in bad condition due to the fact there are some frame partitions down there. The cellar ceiling is not plastered, and there is no cement floor in the cellar, which are all violations of the Building Code. It adjoins this frame building on the south with a little sort of addition in the rear of the building that directly adjoins it. There is no opening between the tavern building on the south and this building in question; they are directly joined at that point; and in my opinion, due to the storage of lumber there and the nature of the business, it is hazardous. In my opinion it is susceptible to fire even though the walls are covered on the inside with metal, there are no fire stops in this building at the floor levels, and due to any faulty wiring or short circuits or anything of that nature which may occur between the ceiling of one floor and the floor above, the fire then would creep above the outside clap boards, and that wire covering inside—or metal covering inside, it would eat out the structural members of the board.

Mayor Ellenstein: I understand this application is predicated upon the removal of all machinery and the precluding of the storage of lumber, and just the use for storage or sale of samples, finished sash and trim. As I

understand you, you say because of the wiring now existing between the floor and the ceiling of the upper floor, that it is very prone to a short circuit. I presume you predicate that upon the fact it was the old method of insulation and installation of wiring, and it makes it much more prone to a short circuit which would start a fire.

Mr. Connolly: Yes.

Mayor Ellenstein: If that condition were removed—

Mr. Connolly: They would still have the cellar condition. They have an open ceiling in the cellar. If anything would happen in that cellar it would crawl up behind the metal covering of those walls.

Commissioner Duffy: Mr. Bigelow, will you testify so we will have your testimony in the minutes?

Mr. Bigelow: I understand that this place has been recently changed in occupancy, particularly the second floor, the first floor having been a store was used for business. The second story, I understand, previously was used as a dwelling. Our Building Code prohibits the use of any second floor in a frame building for business purposes unless it was originally erected for that purpose. These little stores are all the same: They have porch balusters, sash, doors, pieces of trim, and so on, and they are piled up ready for sale. Some times if they get a large order they have to send outside for them. That is what you people propose to do.

In a fireproof building we require that that steel girder, that steel column, be covered with fireproof material to protect it from the heat. Nothing will go out of shape so quickly as metal. Only two or three hundred degrees, and your sheet metal will twist. Fire proof material we re-

quire to stand eighteen hundred to two thousand degrees of heat before we consider it fireproof. So if the Chief says this place is bad, it is undoubtedly bad.

Captain John J. Eber: Mr. Mayor and City Commissioners, I made an inspection of these premises at 6 South 11th Street, the Roseville Sash and Door. My last inspection was yesterday afternoon. It is a two-story frame, first floor used as an office, and the second floor is used as a mill room, they have two machines up there. And at the time of the inspection the floor was just simply covered with sawdust and shavings. He is practically manufacturing doors and sashes and window frames. And there are two motors right on the floor that were covered with sawdust. And there is a building, I believe, on the south, two-story frame. It is about three foot away from this Roseville Sash and Door Building. In the front there is a one-story brick attached. The second floor is about 20 by 50. The first floor used by the Roseville Sash and Door is about 12 feet wide by about 18 feet long. If you have a fire on the first floor, anybody on the second floor will simply have to jump out of the window. I think in my own opinion, no frame building should be used for millwork; a fire will spread in it very rapidly.

Mayor Ellenstein: Do you think, Captain, if the lower floor or both floors were to be used for a sample room of finished sash and trim and wood products, and things of that character, without any manufacturing being done in the building of any description, do you think then it would be a fire hazard?

Captain Eber: It is according to how much samples you are going to have in the building. If you are only going to have a few I would not call it a hazard.

Mayor Ellenstein: You know the usages of a place of this character?

Captain Eber: Yes, they need quite a lot of lumber in there to make it pay, because if you go there you want to buy several feet of lumber or a door or sash.

Lieutenant Kass: I visited this place on October 29th at about ten-forty-five in the morning. As I entered the place, which is about 50 foot from the corner of Orange Street, on the first floor to the left as I stepped in the doorway there was a desk. In along the sidewalls on the east side of the lower floor was a lot of finished doors and sashes. To the south end of that there is a small room right at the stairs that had trim standing up in it, and quite a dark little hallway. And there is a winding stairs leading from there to the second floor. I would say the floor space on that would be somewhere in the neighborhood of 50 feet long and possibly anywhere from eighteen to twenty feet wide. On the extreme northwesterly corner is a work bench, probably about twelve feet long and about four feet wide. To the north there is two windowns which face the extension of a market facing Orange Street, the building being built close up to this little frame house. On the west side, about the center of the room, there is a rack where trim is kept. Leading from the floor to the ceiling, the ceiling and sidewalls being of metal, the rack has trim from the floor to the ceiling. On the floors there are boards all along there, allowing just about space to walk through. In the center of the room there is a circle saw, a joiner and band saw. On a prior visit to this place there was a large motor in the center of the room which operates the circle saw. I told the gentleman that runs the place that I thought he ought to put a guard over the motor, it was rather dangerous in the condition it was in.

I made a second visit later and that motor was still in the same condition as the first time I went there. On both sides of the floor there was wood, and trim stood all over the second floor, just about room to walk through. And, of course, sawdust and shavings all over the place.

Mr. Henry Green: Mr. Mayor, do I understand you are going to remove hazards like Belmont Avenue surrounded by frame buildings?

Mayor Ellenstein: I think that is what Director Duffy has in mind, all those manufacturers that are fire hazards, throughout the city.

Commissioner Duffy: Several of them have removed voluntarily.

Mayor Ellenstein: Director Duffy says several have removed voluntarily after being served with notice by the Department.

Mr. Fred H. Klein, 40 Clinton Street, Insurance Agent, testified that he, on behalf of fire insurance company, examined the premises to ascertain whether or not they were hazardous to fire and it was his opinion that if the power machinery in the building was removed it would be no more hazardous than any other storage or mercantile occupancy.

Mr. Sam Koldorf, 194 Avon Avenue: The neighborhood is killed now so don't kill it any more, and don't put shops in a section where there should be no shop.

Mr. Laifer: Do you live there?

Mr. Koldorf: I don't live at the present time there, but I lived twenty-two years.

Mr. Laifer: You never had any objection to that, did you?

Mr. Koldorf: Well, I just said two words.

Mr. Laifer I refer your Honor to the case of Finkel against Kaltenbach, reported in 132 Atlantic Reporter, page 197. This case holds that assuming for the sake of argument that the premises were conducted as they are, and that they were a fire hazard, nevertheless, this honorable board would not be justified in refusing a permit unless the premises were dangerous to the health, welfare and public health, safety and public welfare of the community.

Mayor Ellenstein: If it was a fire hazard it would be.

Mr. Laifer: Not necessarily. This case says that.

Mayor Ellenstein: Doesn't that affect the welfare and safety of the public if it is a fire hazard?

Commissioner Franklin: What is the date of that decision?

Mr. Laifer: 1926.

Mayor Ellenstein: The decision is evidently predicated on the fact that the City did not have sufficient fire apparatus to combat any ordinary fire. There, of course, I can understand if the court held that it is not a hazard because of the inability of the City to furnish proper safeguards.

Mr. Laifer: Irrespective of that fact, assuming that it were a fire hazard this Board would not be justified in refusing to grant a permit on those grounds, and this case specifically holds that.

Commissioner Franklin: On what point did that turn, on the City's right to zone the locality?

Mr. Laifer: There was an applica-

tion made for a gasoline permit there, and the City raised the point—

Mayor Ellenstein: That they did not have sufficient apparatus.

Mr. Laifer: It was out of the proper zoning district and that it was a fire hazard. And the Supreme Court, on application for a writ of mandamus, held that irrespective if it was a fire hazard, the City was not justified in refusing the permit.

Commissioner Franklin: Do you know that in 1927 a constitutional amendment was passed after that case in 1926?

Mr. Laifer: No, I do not.

Commissioner Franklin: Well, look up your constitutional amendment of 1927. What is the date of that case?

Mr. Laifer: 1925. This is on a constitutional question.

Commissioner Franklin: They all turn on the point of the City's right to zone the locality.

Mr. Laifer: No. This case holds that depriving a man of using property or taking property without just compensation—

Commissioner Franklin: That was the constitutional question. But the point involved was the City's right to zone the locality. That was in 1925. Now, you look at your 1927 constitutional amendment.

Mr. Laifer: Well, I haven't read that. That was the case of Sarg vs. Hooper, 128 Atlantic Reporter, page 376.

Commissioner Franklin: What is the date of that case?

Mr. Laifer: This is a 1925 decision too.

Commissioner Franklin: Well, all those have no legal effect at this time.

Mr. Laifer: All these cases hold that if there is no obligation of health, welfare or public safety in the community, in the neighborhood in which this prospective permit is applied for, then this Board is not justified in denying a permit, and so the Supreme Court held, irrespective of whether it is a fire hazard it is the duty of the City to furnish proper fire apparatus to conform with the variations that are made by the honorable commission.

Mayor Ellenstein: Then you think that if there was something real hazardous, it is the City's duty to station several firemen on the premises?

Mr. Laifer: Yes, to furnish a fire department so it would be adequate.

Mayor Ellenstein: It is adequate now.

Commissioner Duffy: Their main job is fire prevention.

Mayor Ellenstein: You heard the testimony that lumber was stored on the two floors to the full capacity of the room, and that there was just barely room for a man to pass between them. These men who testified on the part of the City have no motive in doing so. They are men who are entirely in sympathy with everybody that is trying to get along, particularly these days.

Commissioner Duffy: I move non-

concurrence in the recommendation of the Zoning Board.

Commissioner Franklin: I second the motion.

Reginald Parnell,

Director of Revenue and Finance.

Ordered filed.

Mr. Edward Gilhooley, Lefcourt Building: Mr. Mayor and Commissioners, this is an application to reopen an application by the owner of premises 306 Sixth Avenue, for a resolution confirming action taken by the Board of Adjustment in permitting a variance from the Zoning Ordinances. My application today is not that the matter be taken up today, but be reopened so that it can be heard next Wednesday by the Commission and I can send out notices to the property owners to that effect.

Commissioner Duffy: We had two hearings on that.

Mr. Gilhooley: Yes. The petitioner withdrew the petition in October.

Commissioner Duffy: What have you done about the opposition there?

Mr. Gilhooley: I understand that has now been pretty well satisfied and the neighbors are favorably inclined towards the modification of the ordinance.

Commissioner Franklin: That is not all of them, but most of them.

Commissioner Minisi: Upon what is your information based that they are withdrawing their objections?

Mr. Gilhooley: Because there has been personal contact made with the objectors, and they feel that it would be helpful to have stores.

Commissioner Minisi: My question is, who made the contact?

Mr. Gilhooley: The contact was made by representatives of the owner who went around to see these people. They were quite surprised at the form of the opposition that the application took in the first instance, and since that time a number of occupants of the apartments are willing to join in a petition to this Commission voicing their approval of the change.

Mayor Ellenstein: To save time anyone that you can win over that was an objector before would not appear here anyway, and I do not see that it would be retracing your steps.

That would be a time saver for you as well as these people who object. If you find your opposition is still there you would withdraw your petition, you would not make application for a reopening.

It seems to me that would be the fair thing, particularly so when they so strenuously objected to coming down here the second time. And most of these people are in business and have other duties to perform, and it is hardly fair to bring them down here three days in such a short time unless the status has been changed materially. I think if you will get a petition signed by those who formerly objected it will avoid the necessity of bringing those people down again.

Commissioner Franklin: I move we adjourn.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

4. Notwithstanding the adoption of this ordinance the amount to be deducted from the salary or compensation of any officer or employe of or person holding an office or position under the government of the city, by reason of membership in any retirement or pension fund, shall be from the total salary or compensation under the government of the City, without regard to the amount deducted from such salary or compensation pursuant

to the provisions of this ordinance, and upon the death or retirement of a member of any such retirement or pension fund such member or his or her beneficiaries shall receive the same benefits as if this ordinance had not been adopted and deductions from the salary or compensation had not been made.

5. Nothing in this ordinance contained shall be construed to effect or impair the rights of any person in any retirement or pension fund or under any Civil Service Law or tenure of office statute.

6. Nothing in this ordinance contained shall be construed to change the salaries fixed for certain employes of the Department of Public Affairs as set out in said Ordinance of June 27, 1933, entitled "An Ordinance respecting the salaries or compensation of officers and employes of and persons holding an office or position under the government of the City of Newark, New Jersey."

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Acting Mayor Parnell: This is an application for the erection of stores at 389 Sanford Avenue.

Mr. Emanuel Millman, Lefcourt Building, appears for the applicant. .

The City Clerk: For the record, there is a communication from A. J. Moretti, 385 Sanford Avenue, objecting to the granting of the permit and from Mrs. James Smith, 11 Marion Avenue and From Mrs. Charles A. Reilly of 394 Sanford Avenue, all objecting to the erection of the stores.

Acting Mayor Parnell: In matters of this kind we hear the objectors first.

Mr. Louis R. Moretti, 385 Sanford Avenue: The objection is this, we have lived there for a good many years and everyone of us objects. We have all the stores we want.

Mrs. W. Cavanaugh, 10 Kenmore Avenue: My objection is it is too close to the avenue. It is only a stone's throw and people mostly all go to the avenue, and besides it would spoil our section.

Mr. Louis Vallanco, 396-398 Sanford Avenue: I am a builder. It would not be a good place to build a store.

The City Clerk presented the application of John Dotolo, owner, for the construction of stores in a third residence district; premises 389 Sandford Avenue; proposed building to observe the prevailing set back lines; and stated that today was the time fixed for hearing on the same.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this matter?

Commissioner Minisi: This matter was heard last week and it was postponed to give the members of this Board an opportunity to make a personal inspection of the neighborhood. I haven't had a chance to make the inspection. I reserved a morning for this but I had to discuss a matter with Mr. Jones and Mr. Post. I am going to suggest that this matter be postponed to give the members of this Board an opportunity to inspect. They were told not to come here, it was not necessary. Both sides have been heard. We have gone into the matter thoroughly and the only matter to be considered is I wanted an opportunity to inspect the neighborhood.

Mayor Ellenstein: Are you people here in opposition to this application?

Several Voices: Yes.

Mayor Ellenstein: You had notice that this matter would not be heard this morning?

Commissioner Duffy: It was laid over for one week that the other Commissioners would have the opportunity to observe the surroundings.

Commissioner Minisi: When the motion was made some objection was raised by one of the opponents. It was unfair to get these people down here week after week. And they were told it would not be necessary to come in any more, that everything that could be said had been said on both sides.

Mayor Ellenstein: Of course, I wasn't present.

Commissioner Minisi: I am saying that for your information.

Mayor Ellenstein: How does the Commission feel about it? I don't think we ought to bring people down here week after week because of the inability of the Commission in examining the property.

Commissioner Minisi: They were told not to come.

Mayor Ellenstein: However, they are interested and they want to be present.

Commissioner Minisi: I made the motion that we postpone it a week because I wanted to go up and look the neighborhood over. I had reserved a morning and when a special meeting was called to discuss the State Emergency Relief problems, and for that reason I have been unable to get up there.

Mayor Ellenstein: Are you objectors opposed to the postponement of this matter another week?

Mr. Alfred R. Gessinger, 24 Commerce Street: We are. This matter has been dragging during at least six hearings.

Mayor Ellenstein: How about the applicant?

Mr. Emanuel Millman, Lefcourt

Building: This matter was brought to the attention of the Board of Commissioners at the last meeting and all the objectors were heard. It was adjourned for one week to give the Board an opportunity to inspect the locality. Now, one of the Commissioners says he has not had an opportunity to inspect. I think the matter should be adjourned to give the Commissioners an opportunity to inspect the locality.

Commissioner Minisi: That is my position, I am not going to vote one way or the other this morning. I don't think there will be any damage done; they are certainly not going ahead with the building. They were told not to come here. The objection was raised last week, they were told specifically, they were told not to come down here.

Mayor Ellenstein: All right. How do the other Commissioners feel about it? Do they want to dispose of it this morning? I don't think we ought to inconvenience these people. It has been the custom in the past to hear those who are in objection and those who are in favor; and I don't see any reason why we should inconvenience these people.

Commissioner Duffy: I am thoroughly familiar with the application and the adjacent property. If the other Commissioners desire to look it over I am perfectly agreeable.

Mr. Millman: Are the records here from the last meeting?

Mayor Ellenstein: Was there any petition in favor?

Mr. Rankin: No, none in favor that I can recall.

Commissioner Duffy: There was nobody in favor other than the applicant himself.

Mayor Ellenstein: How about these adjoining property owners?

Mr. Rankin: The one adjoining is opposed.

Mayor Ellenstein: All the adjacent property owners are opposed? There is not a petition present in favor and there are twenty-one of the property owners that are opposed to this proposed building.

Commissioner Duffy: I am willing to let Commissioner Minisi go up and observe the surrounding properties.

Commissioner Minisi: If the other members of this Board have made an inspection—I don't know whether they have gone up there, I have not,—I would like to be given an opportunity.

Mayor Ellenstein: I don't see any necessity for it. It is certainly a residential section. That is on the blueprint here.

Mr. Louis Vallanco, 396-398 Sanford Avenue: I hope your Honorable body will relieve us of coming down here again. I hope your judgment will be the preservation of our little homes which we sacrificed to maintain. I hope you will dispose of it this morning.

Commissioner Duffy: I move we non-concur in the action of the Zoning Board.

Commissioner Parnell: I will second Director Duffy's motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Parnell, Mayor Ellenstein.

Not Voting: Commissioner Minisi.

Mayor Ellenstein: The conference of next week will be held in the Mayor's Office on Wednesday at ten o'clock just previous to the regular meeting. And the following week the conference and meeting will be held on Thursday instead of Wednesday.

Commissioner Duffy: I move we adjourn.

The roll being called, the motion was declared adopted by the following votes:
